The background of the entire image is a collage of three scenes from the movie Avatar. The top scene shows several Na'vi characters in a lush, mountainous landscape under a large, hazy moon. The middle scene is a close-up of Jake Sully, looking off to the side with a serious expression. The bottom scene shows Neytiri, also looking off to the side, holding a bow and arrow. The word 'AVATAR' is faintly visible in the center of the collage.

NEW LIFE OF JAKE SULLY

After winning the war against the RDA (Resources Development Administration), Jake Sully officially becomes the leader of the Omaticaya clan. He lives happily with his wife, Neytiri, and raises their family.

The background of the image is a composite of scenes from the movie Avatar: The Way of Water. It features a large, pale blue moon in a dark sky over a rocky, mountainous landscape. In the foreground, there are several Na'vi characters, including a young boy (Lo'ak) and a girl (Kiri), both looking upwards. The overall color palette is dominated by blues and greys, with a semi-transparent dark blue rectangle overlaid on the left side to provide a background for the text.

Jake and Neytiri's children consist of Neteyam, the eldest son who is responsible and always protects his younger siblings. Lo'ak, the second son who is brave but often breaks the rules and causes trouble. Kiri, a daughter born from the avatar of Dr. Grace Augustine whose biological father is unknown, and who has a very strong spiritual connection with Eywa.

The background of the text is a collage of three scenes from the movie Avatar. The top scene shows a Na'vi family in a river with a large moon in the sky. The middle scene shows a Na'vi warrior holding a bow. The bottom scene shows a Na'vi warrior looking up in a forest.

Tuktirey, also known as Tuk, the youngest child who is still small and cheerful. In addition, there is Spider, a human child born on Pandora. Because he could not return to Earth as a baby, he grows up with the Sully family and considers them his own family, Jake trains his entire family to be warriors. He teaches them discipline, hunting, archery, and survival in the forests of Pandora.

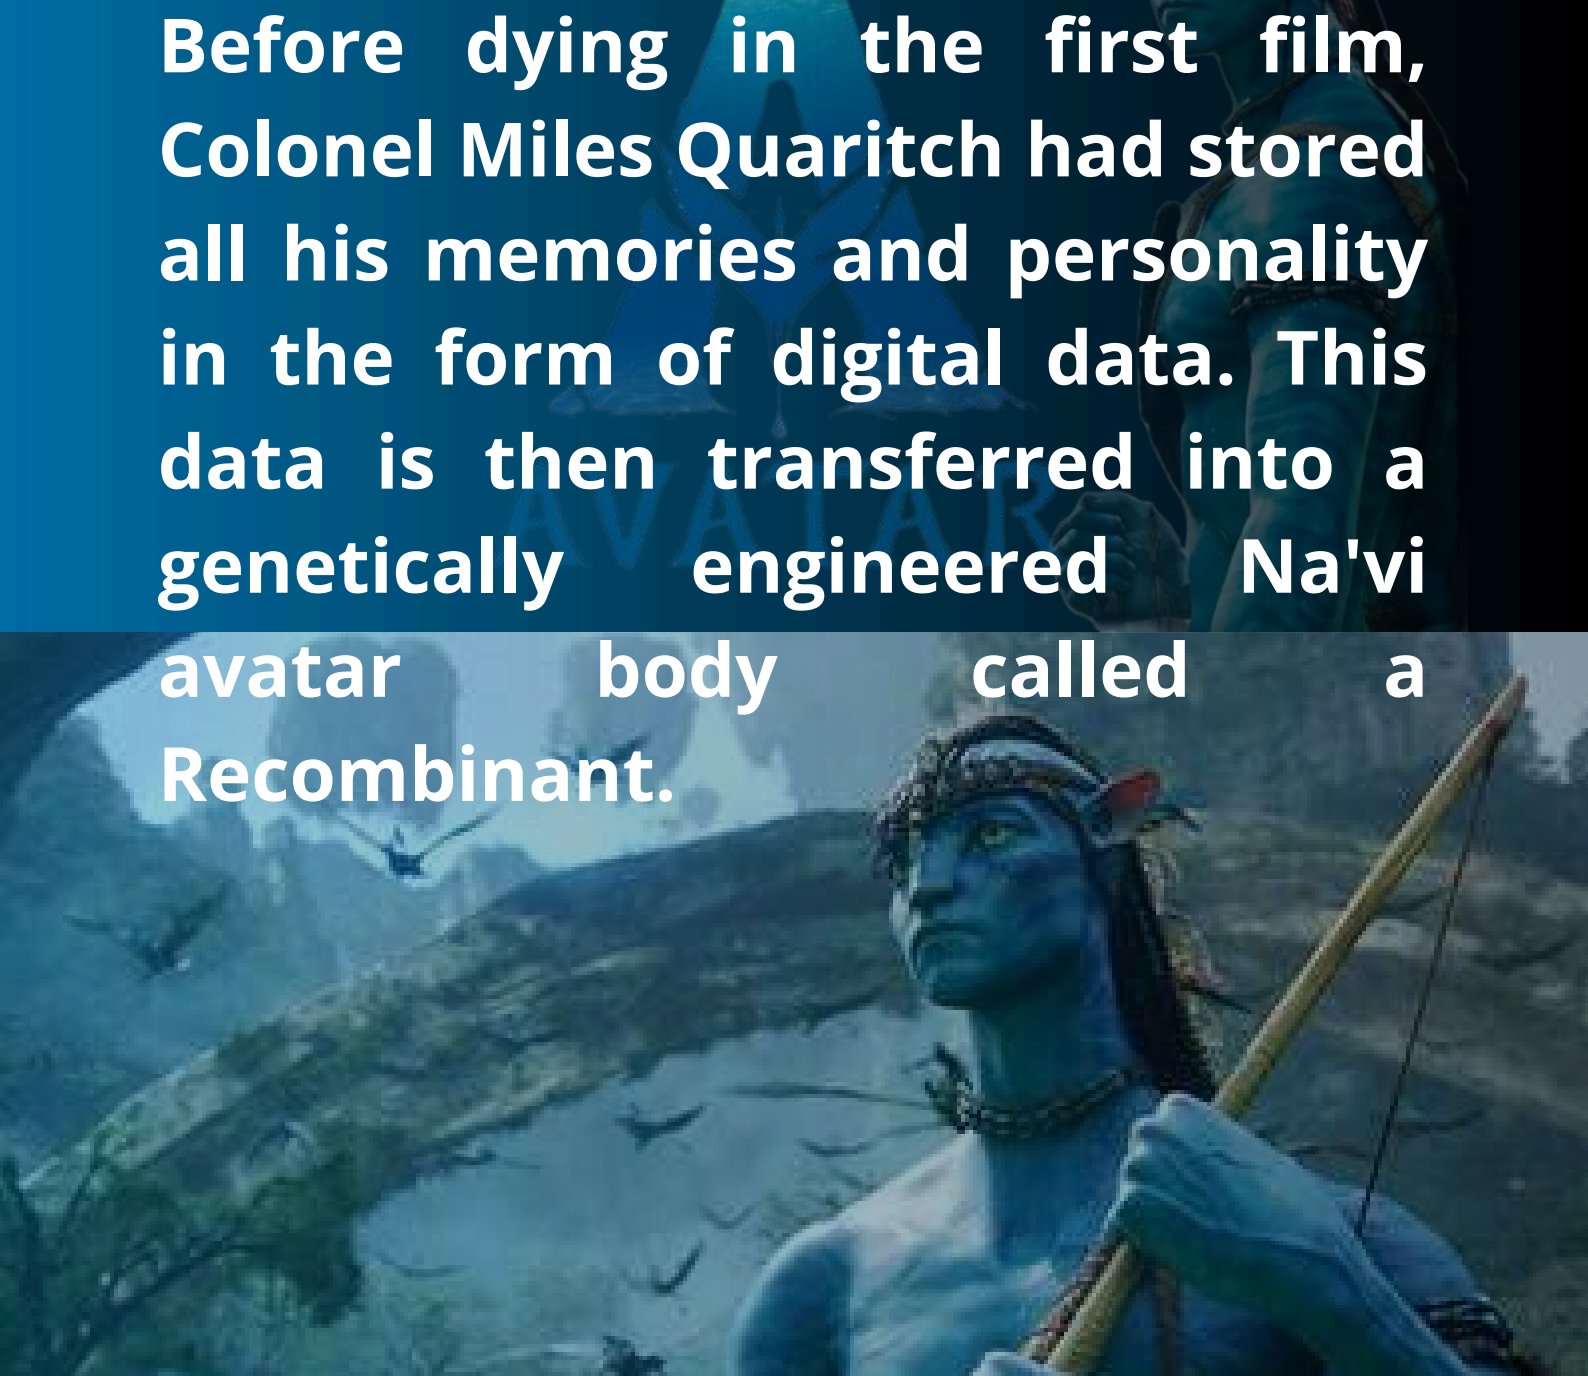

HUMANS RETURN TO PANDORA

A few years later, a massive RDA fleet returns to Pandora. This time, their goal is much bigger. They intend to make Pandora a new home for humanity because Earth's condition is increasingly damaged and no longer habitable.

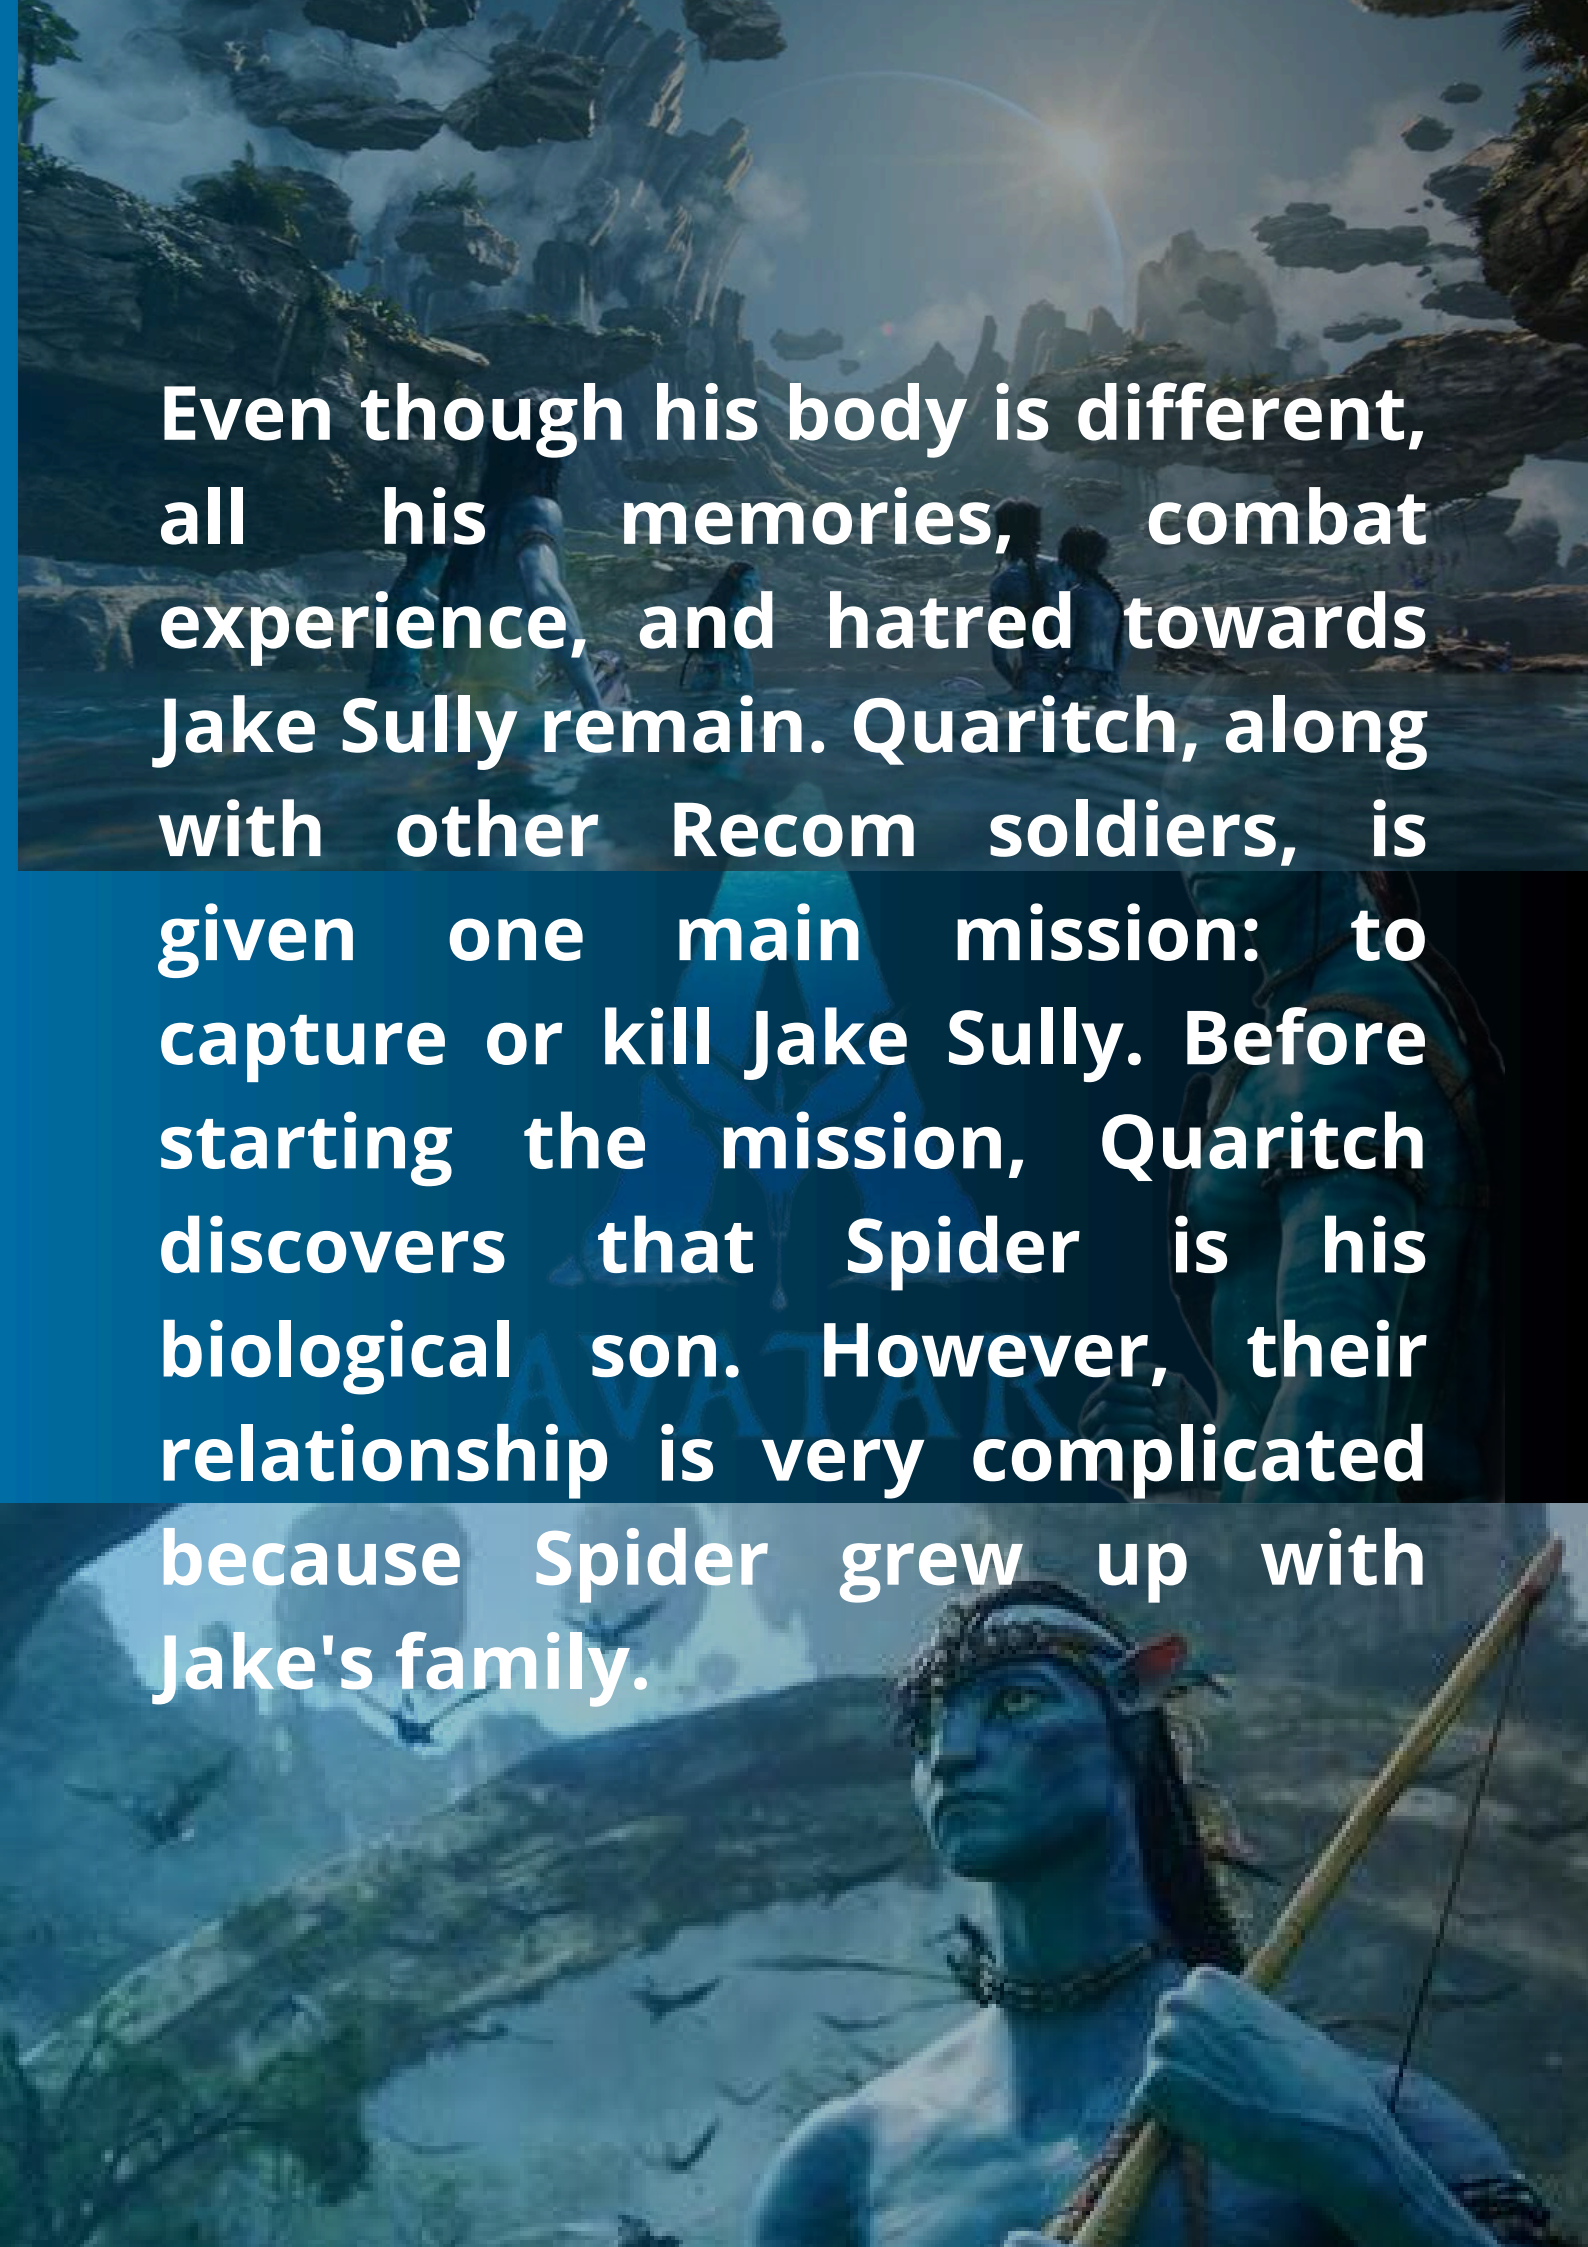

As their ships enter Pandora's atmosphere, their thrusters burn a large part of the forest, causing a massive fire. Many animals and plants die due to the landing. The RDA builds a new city called Bridgehead City, a giant industrial city that serves as their operational center.

THE RETURN OF COLONEL QUARITCH

A close-up of a Na'vi character, likely Aang, looking upwards with a determined expression. He is holding a bow and arrow. The background shows a lush, mountainous landscape with flying creatures.

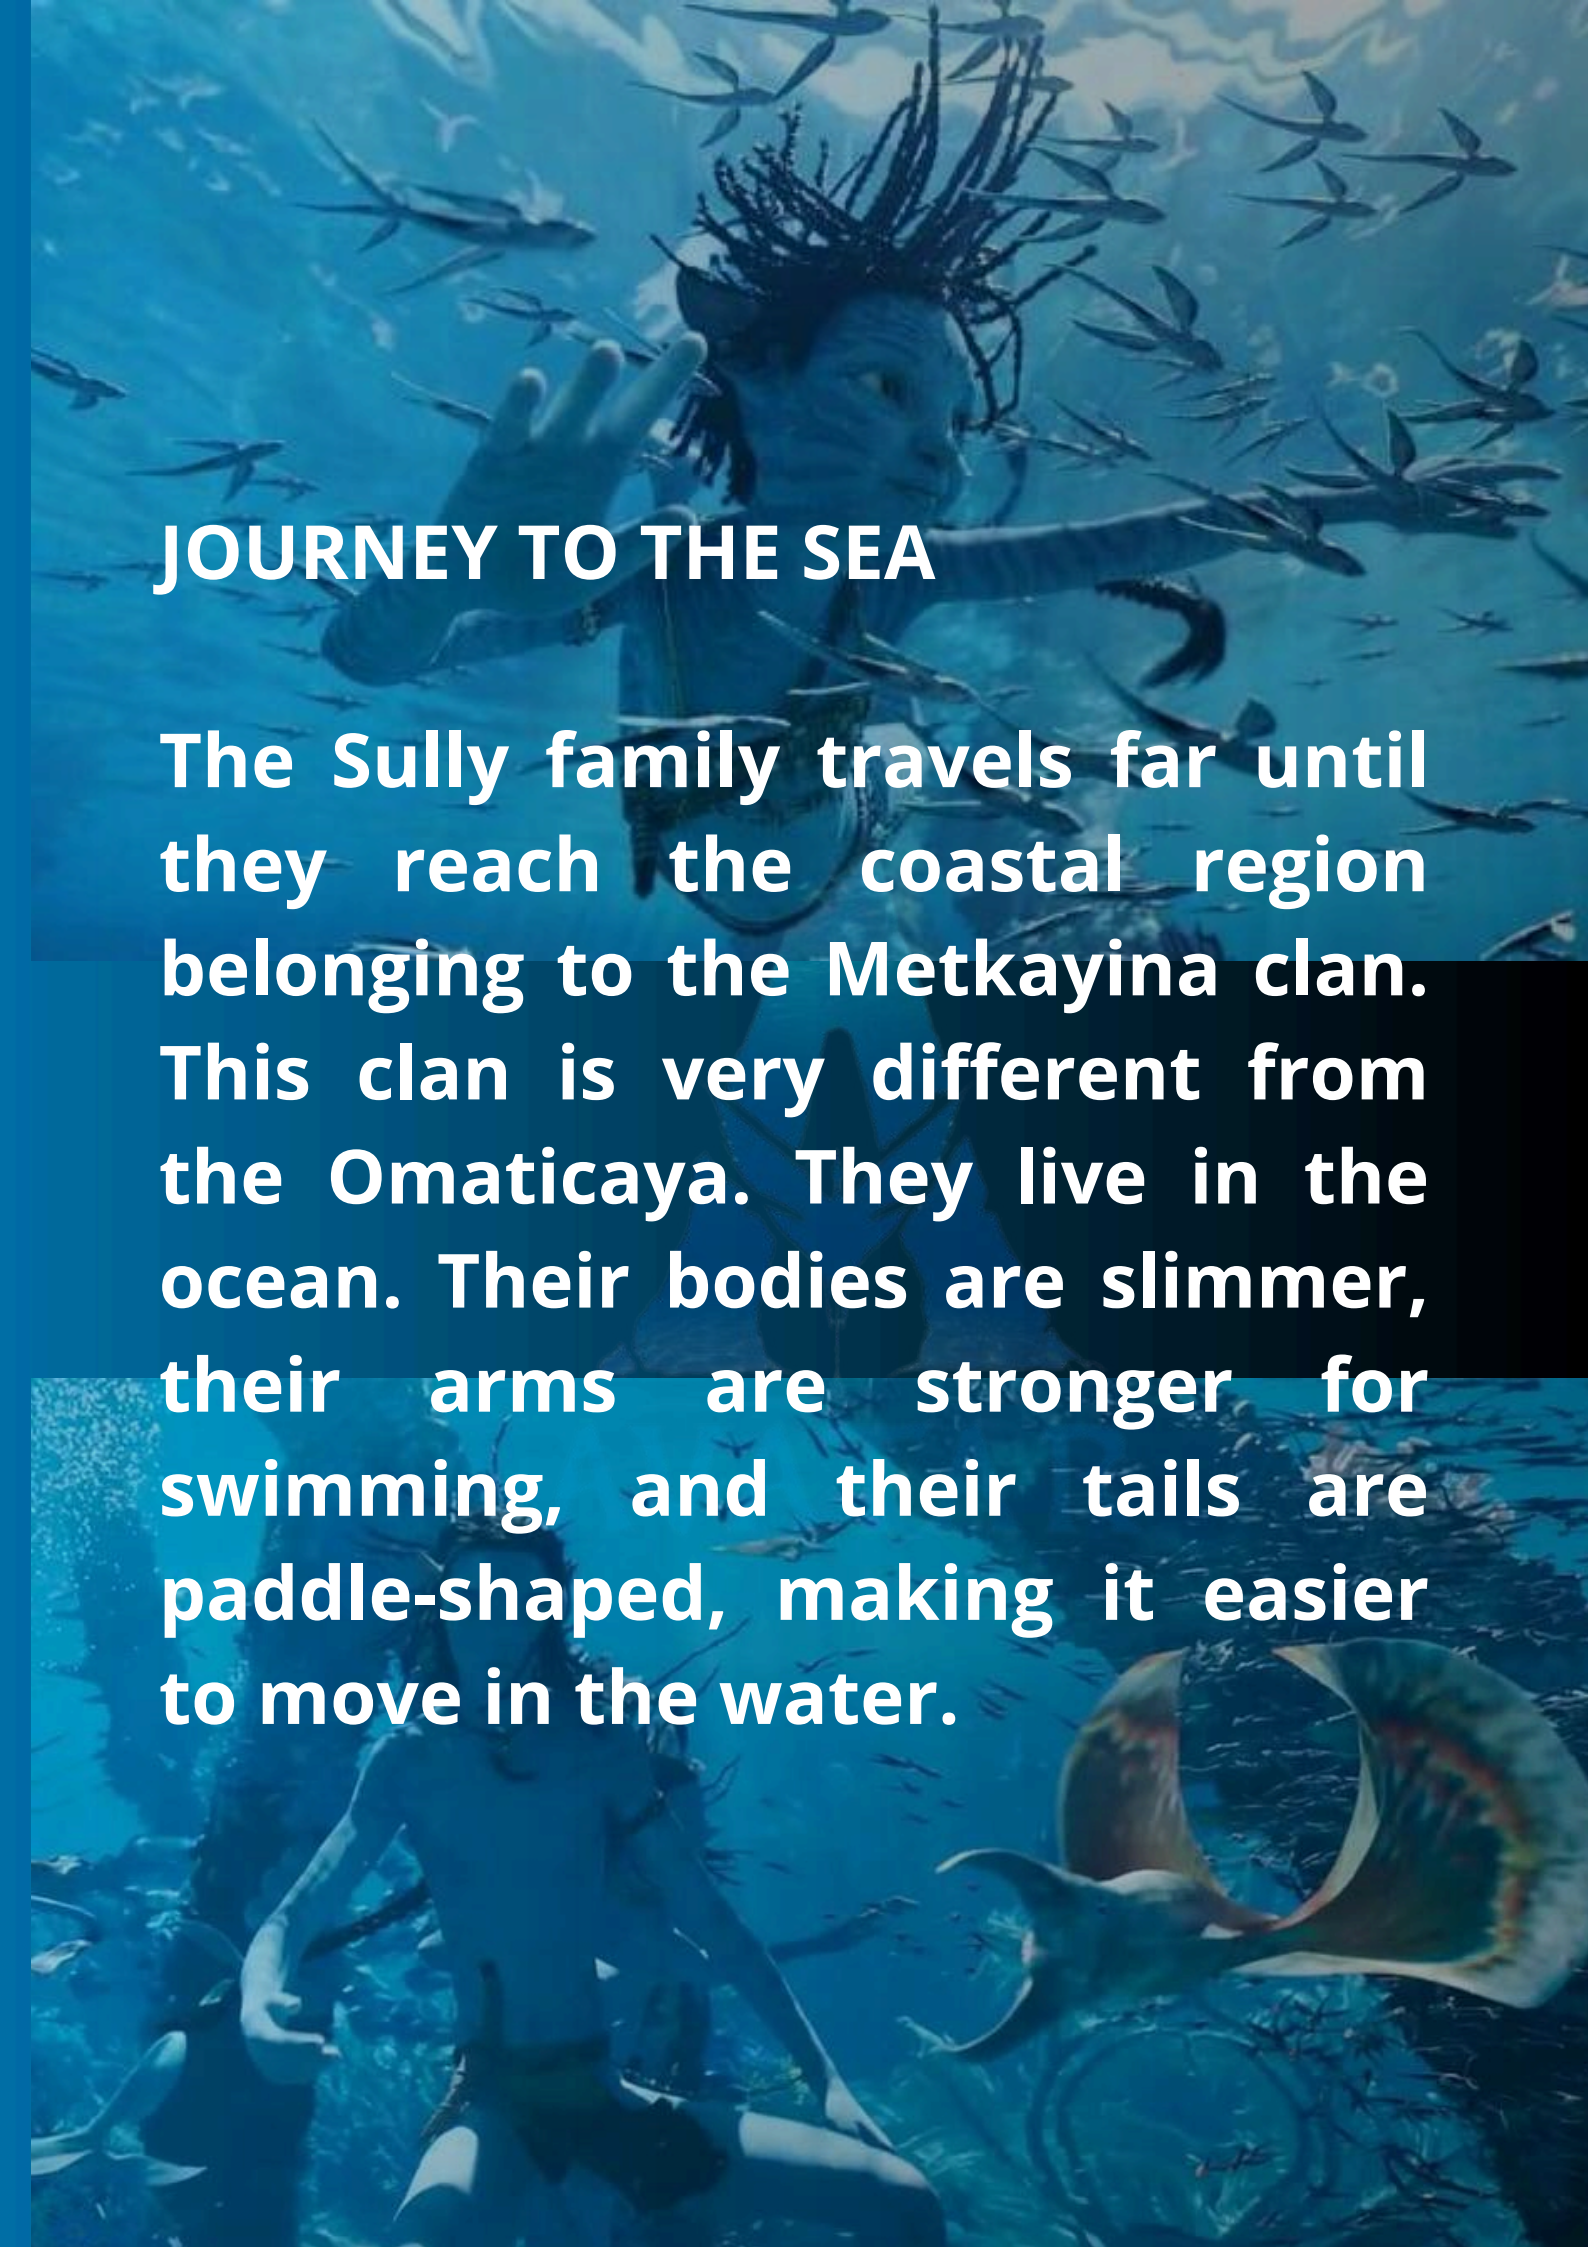

Before dying in the first film, Colonel Miles Quaritch had stored all his memories and personality in the form of digital data. This data is then transferred into a genetically engineered Na'vi avatar body called a Recombinant.

The background of the image is a composite of two scenes from the movie Avatar: The Way of Water. The top half shows a group of Na'vi characters in a vast, open landscape with floating rock formations and a large, hazy moon in the sky. The bottom half shows a close-up of a Na'vi character, likely Spider, looking upwards with a determined expression, holding a bow. The text is overlaid on the top half of the image.

Even though his body is different, all his memories, combat experience, and hatred towards Jake Sully remain. Quaritch, along with other Recom soldiers, is given one main mission: to capture or kill Jake Sully. Before starting the mission, Quaritch discovers that Spider is his biological son. However, their relationship is very complicated because Spider grew up with Jake's family.

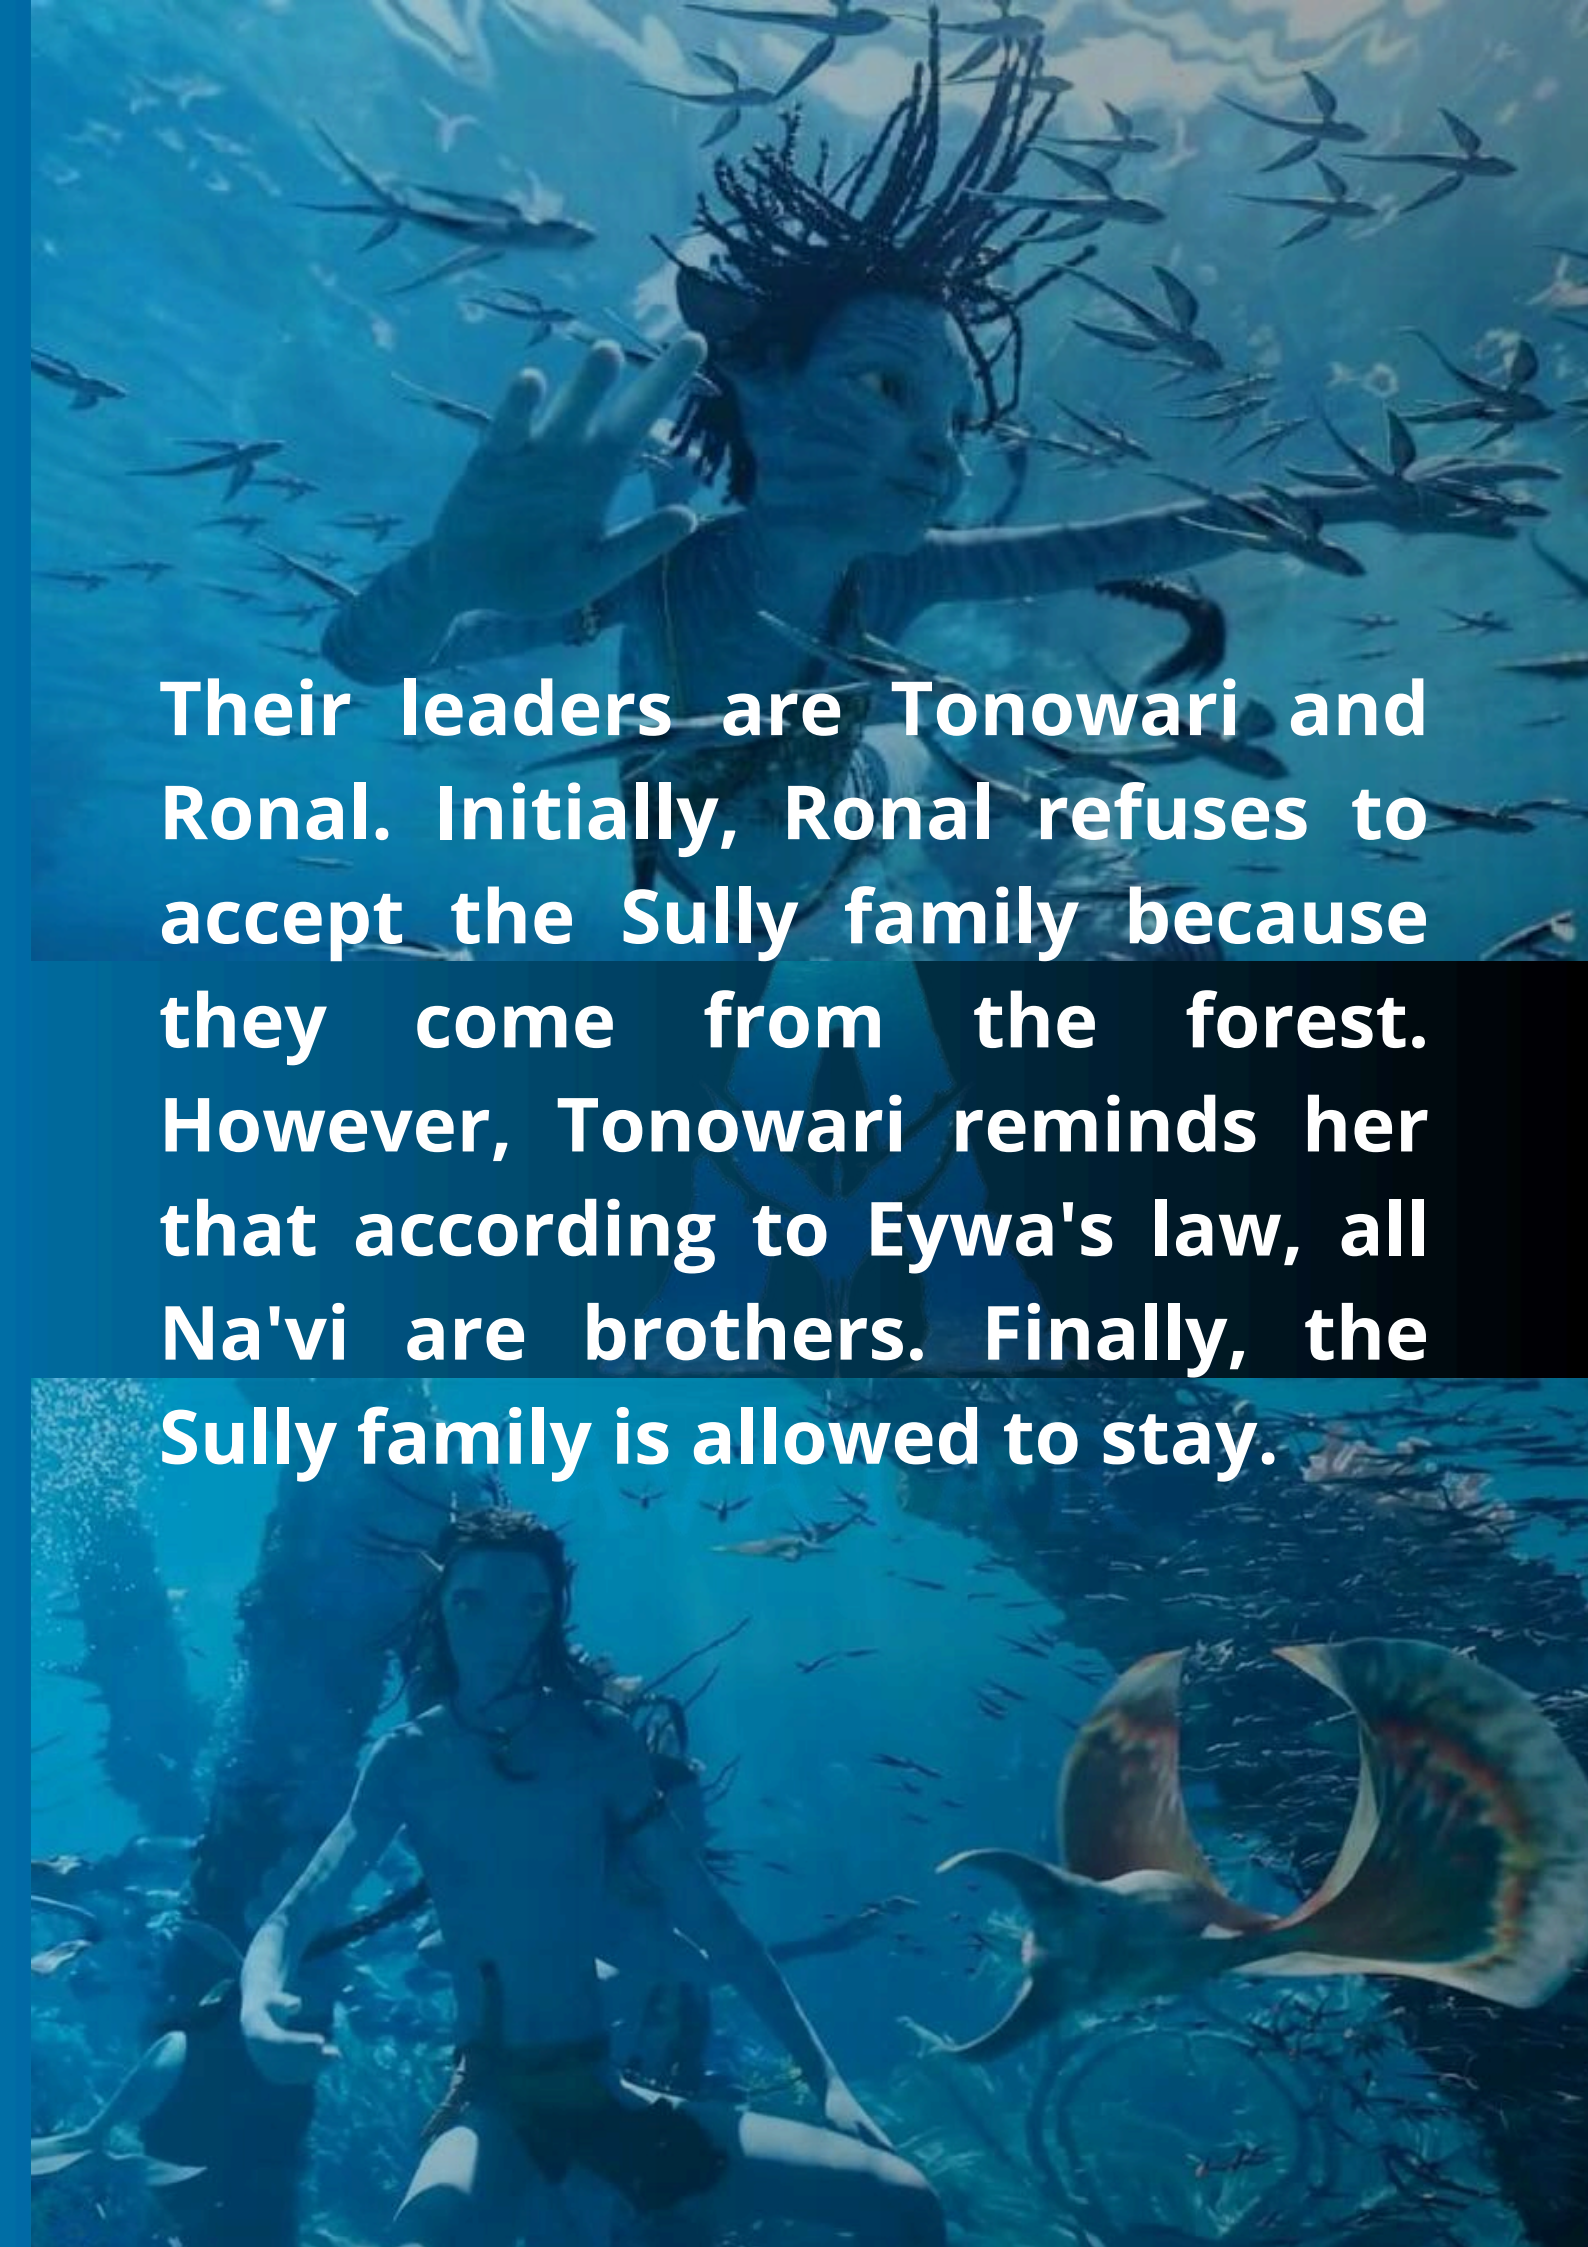

THE HUNT FOR JAKE SULLY

The Recom squad begins attacking various forest regions. Jake and the Omaticaya warriors successfully carry out guerrilla attacks against human bases several times. However, Quaritch realizes that as long as Jake remains with the Omaticaya, the entire clan will continue to be targeted. Jake finally makes a very difficult decision. He steps down as clan leader and takes his family away from home to protect the entire Omaticaya clan.

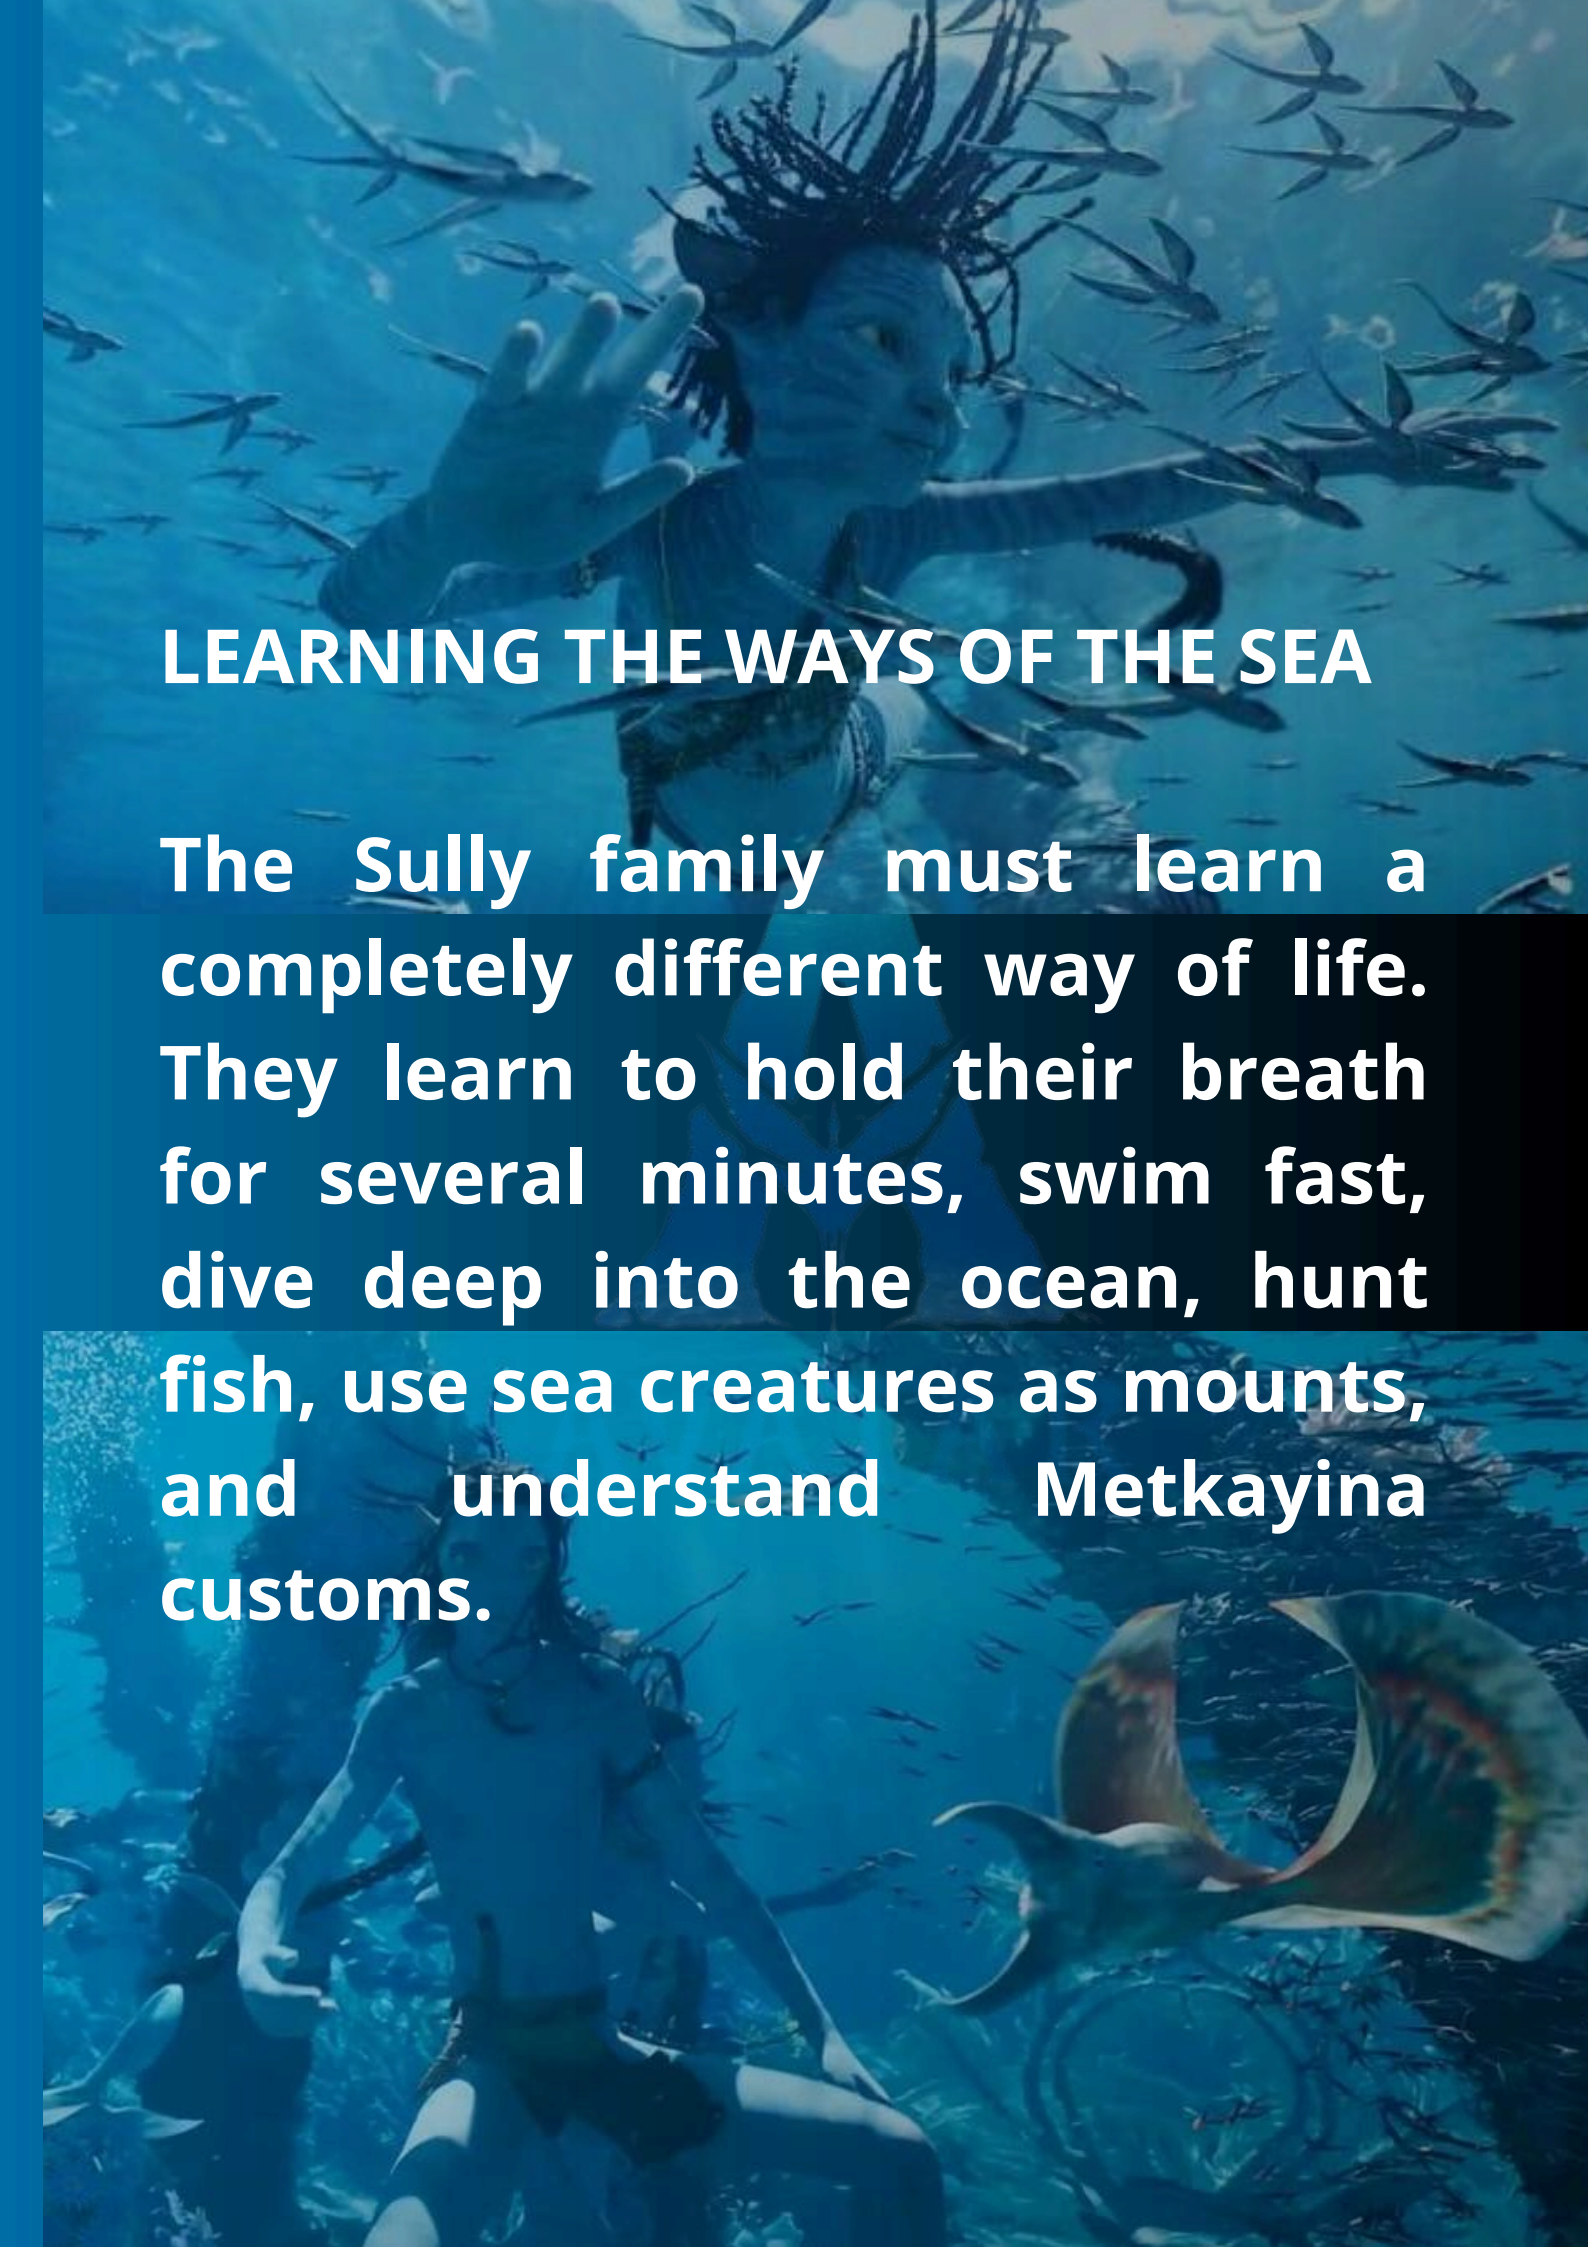

An underwater scene from the movie Avatar. In the center, a Na'vi character (likely Sully) is swimming, surrounded by many small, fast-moving fish. In the lower left, another Na'vi character is visible, and in the lower right, a large, colorful manta ray is swimming. The background is a deep blue ocean with more fish and some coral-like structures.

JOURNEY TO THE SEA

The Sully family travels far until they reach the coastal region belonging to the Metkayina clan. This clan is very different from the Omaticaya. They live in the ocean. Their bodies are slimmer, their arms are stronger for swimming, and their tails are paddle-shaped, making it easier to move in the water.

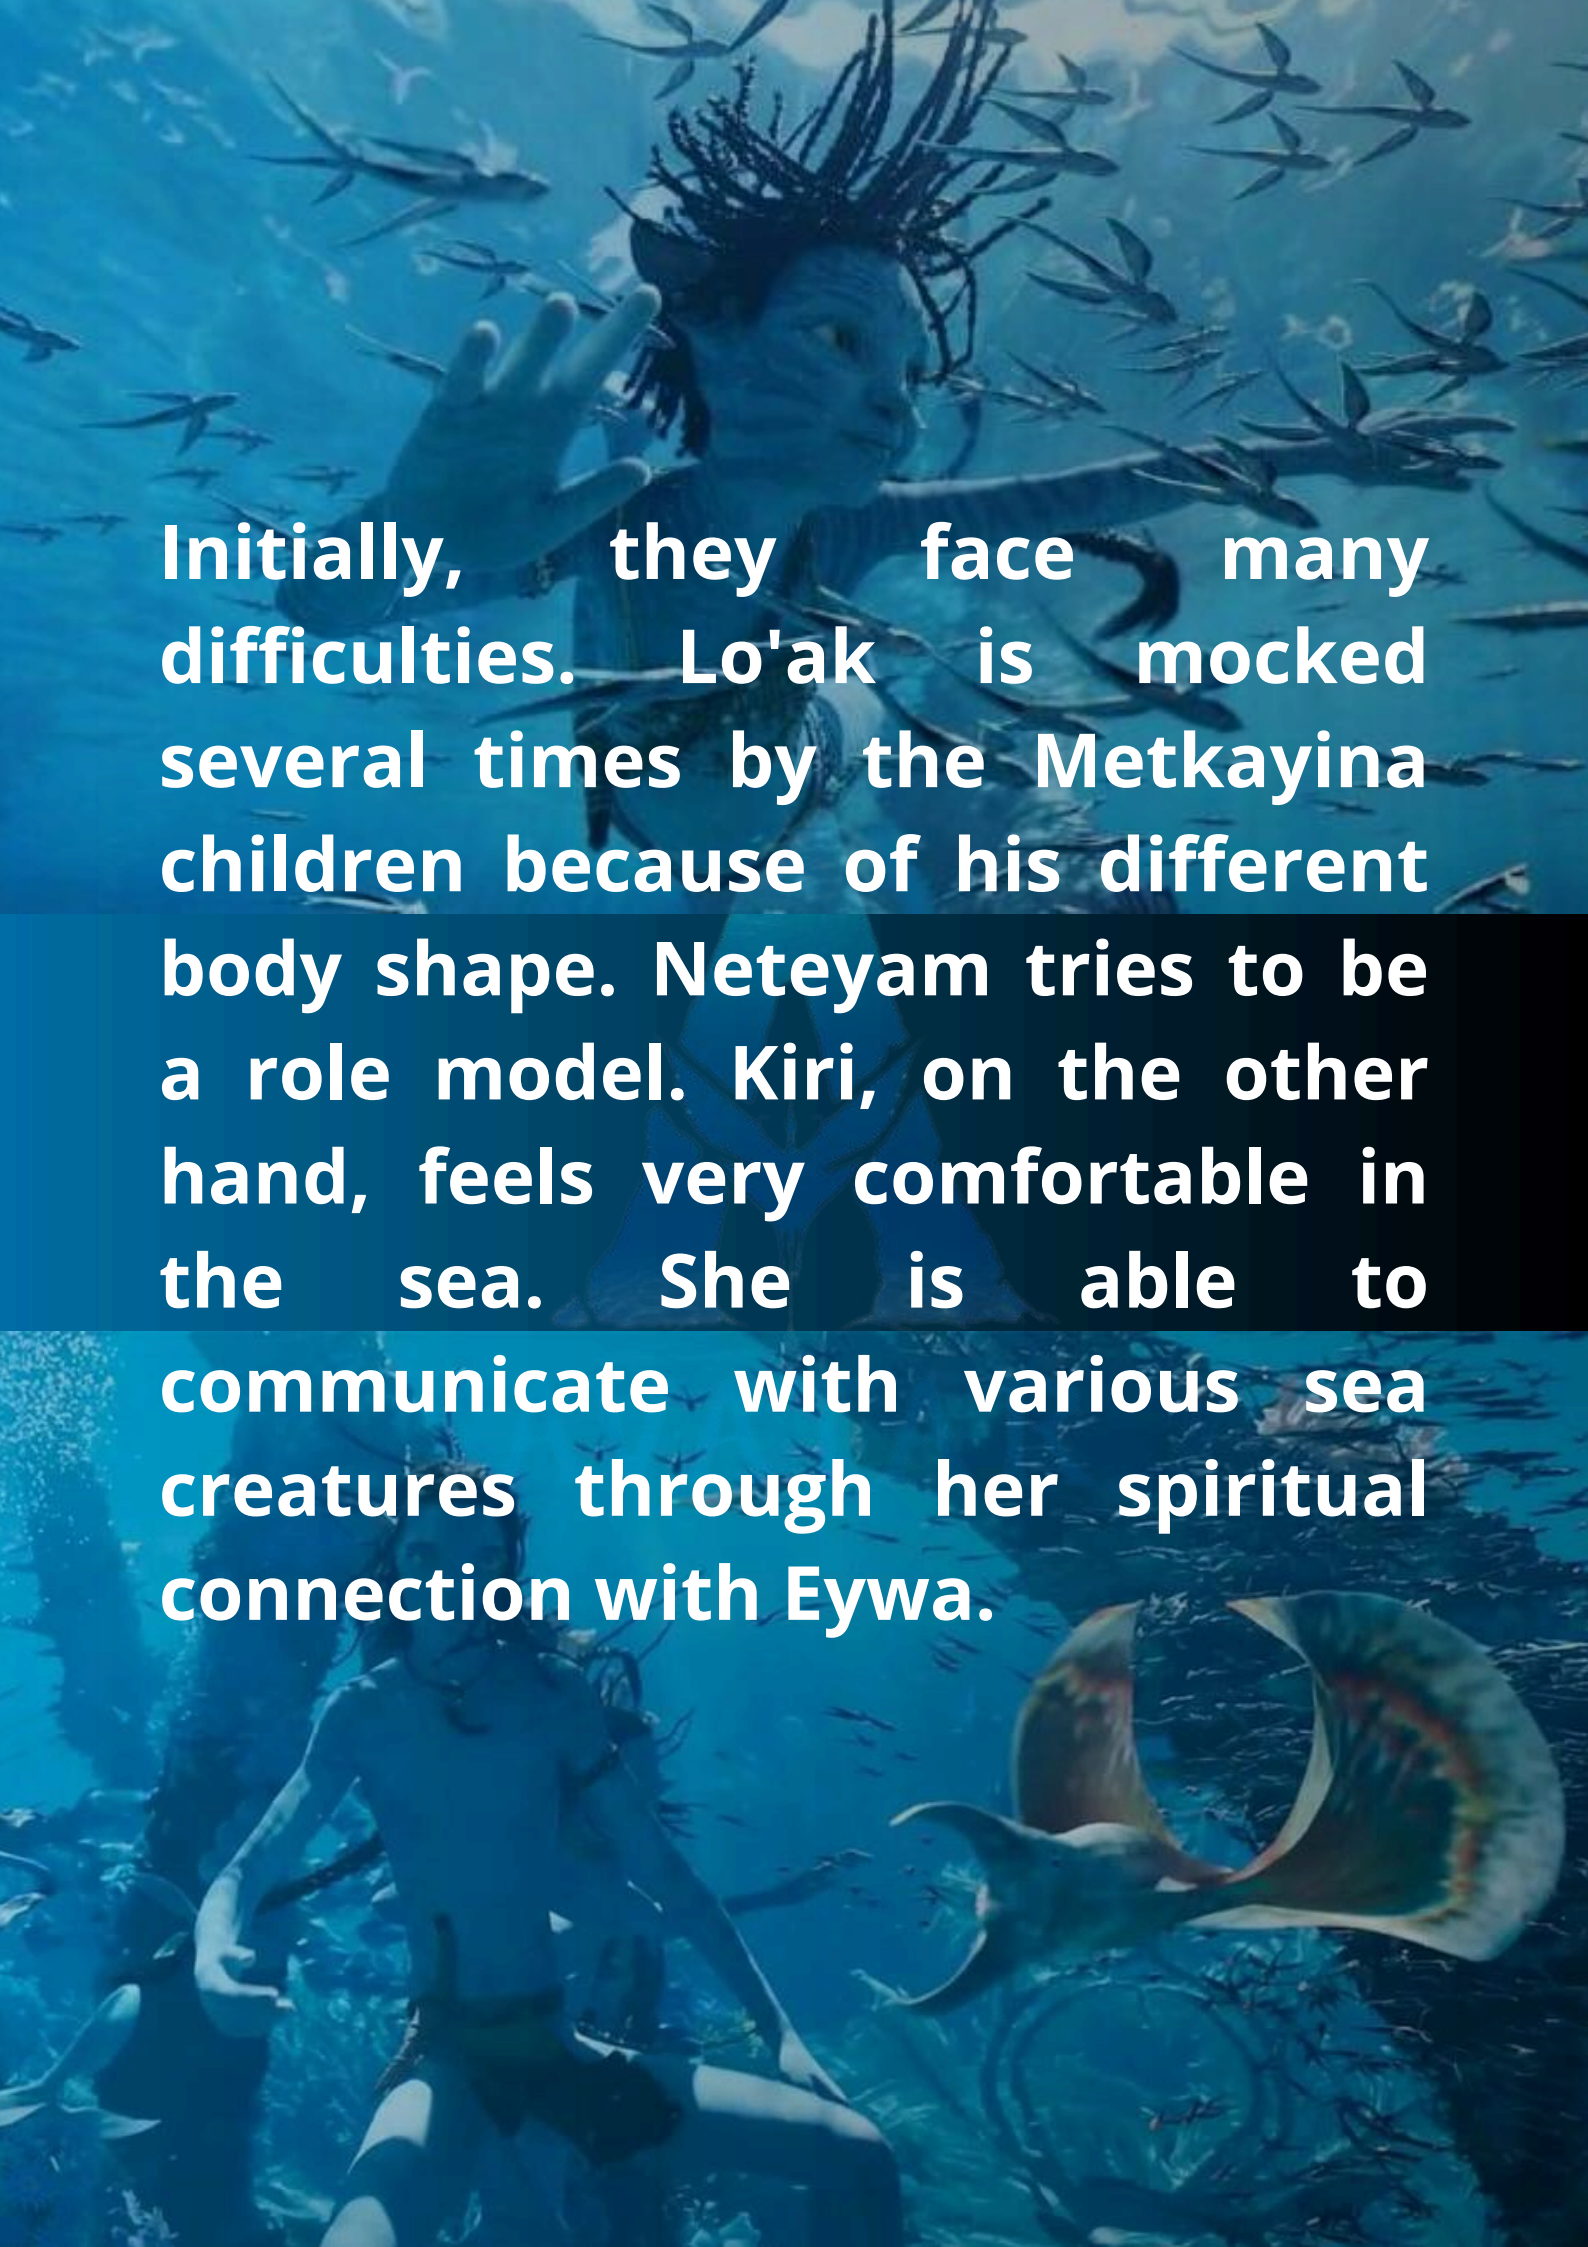

The background image is a composite of two underwater scenes from the movie Avatar. The top half shows a Na'vi character, likely Neytiri, with a crown made of coral and sea anemones, swimming upwards with her hand raised. The bottom half shows another Na'vi character, possibly Jake Sully, swimming towards the viewer. In the bottom right corner, a large, colorful, iridescent manta ray is visible. The entire scene is set in a deep blue underwater environment with many small fish swimming around.

Their leaders are Tonowari and Ronal. Initially, Ronal refuses to accept the Sully family because they come from the forest. However, Tonowari reminds her that according to Eywa's law, all Na'vi are brothers. Finally, the Sully family is allowed to stay.

The background of the entire image is a deep blue underwater scene from the movie Avatar: The Way of Water. It features a large school of silver, fish-like creatures swimming in the upper half. In the lower half, a Na'vi character is seen swimming, with a large, colorful, winged creature (a Na'vi mount) visible in the bottom right corner. The overall lighting is dim and blue, creating a serene yet mysterious atmosphere.

LEARNING THE WAYS OF THE SEA

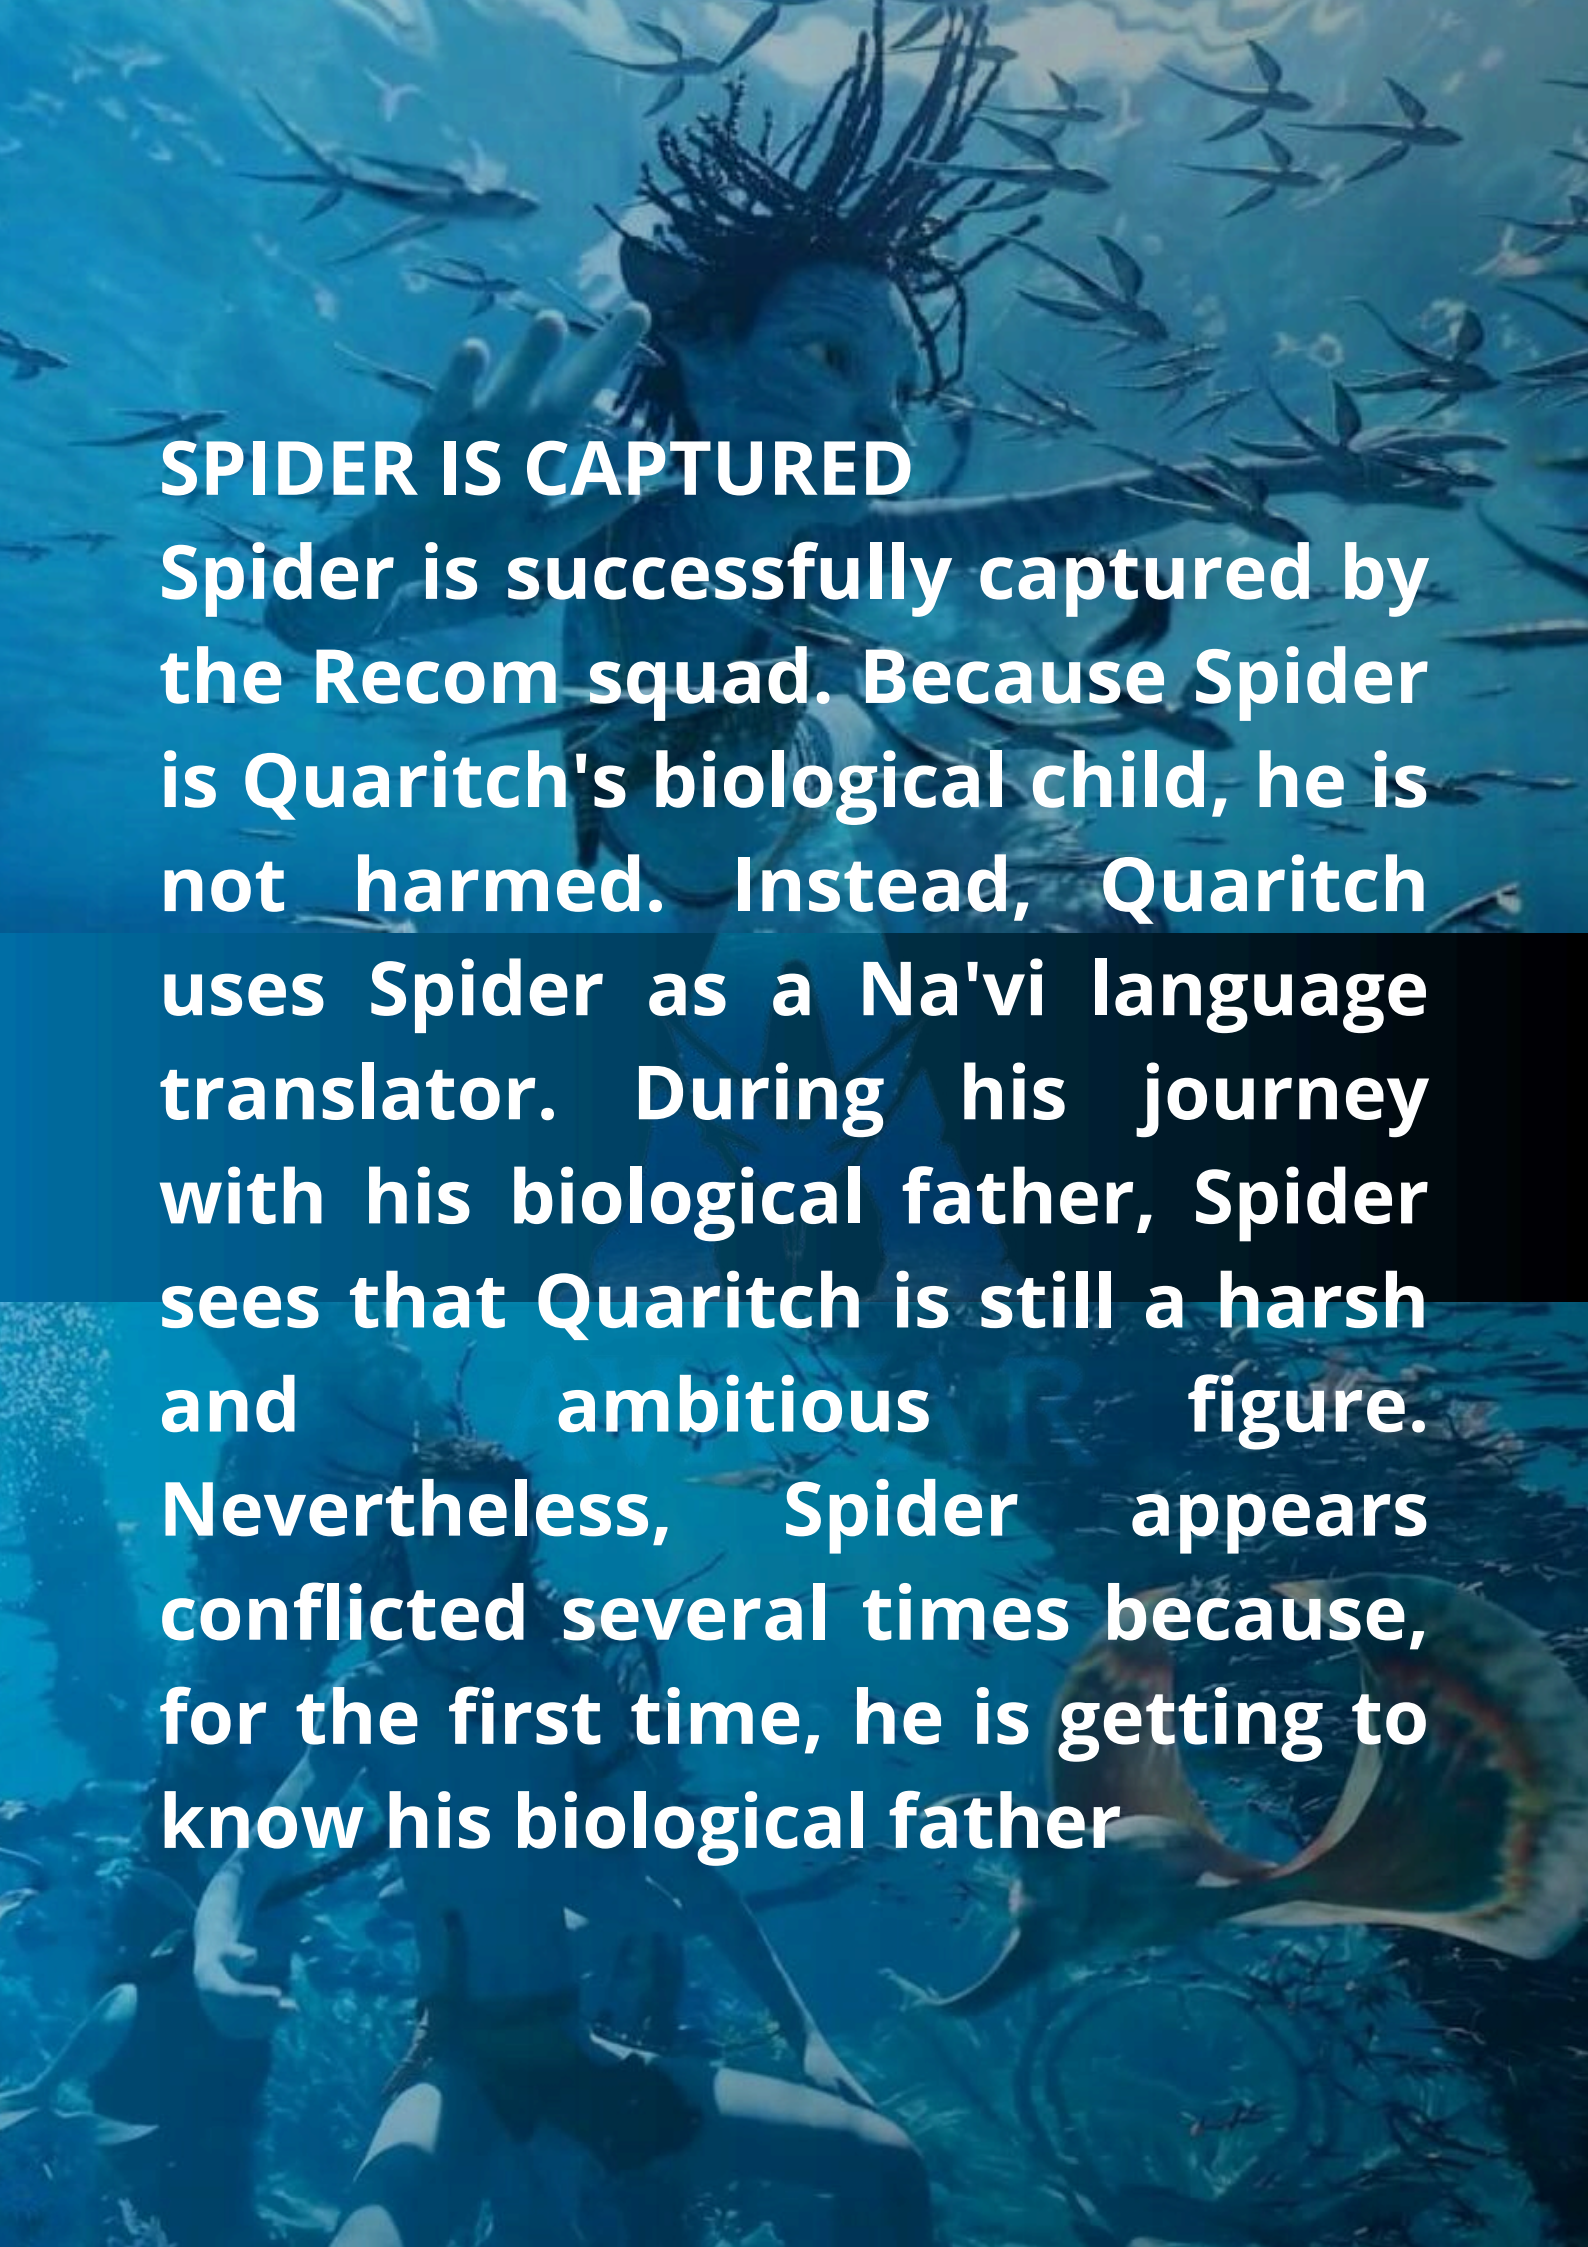

The Sully family must learn a completely different way of life. They learn to hold their breath for several minutes, swim fast, dive deep into the ocean, hunt fish, use sea creatures as mounts, and understand Metkayina customs.

Initially, they face many difficulties. Lo'ak is mocked several times by the Metkayina children because of his different body shape. Neteyam tries to be a role model. Kiri, on the other hand, feels very comfortable in the sea. She is able to communicate with various sea creatures through her spiritual connection with Eywa.

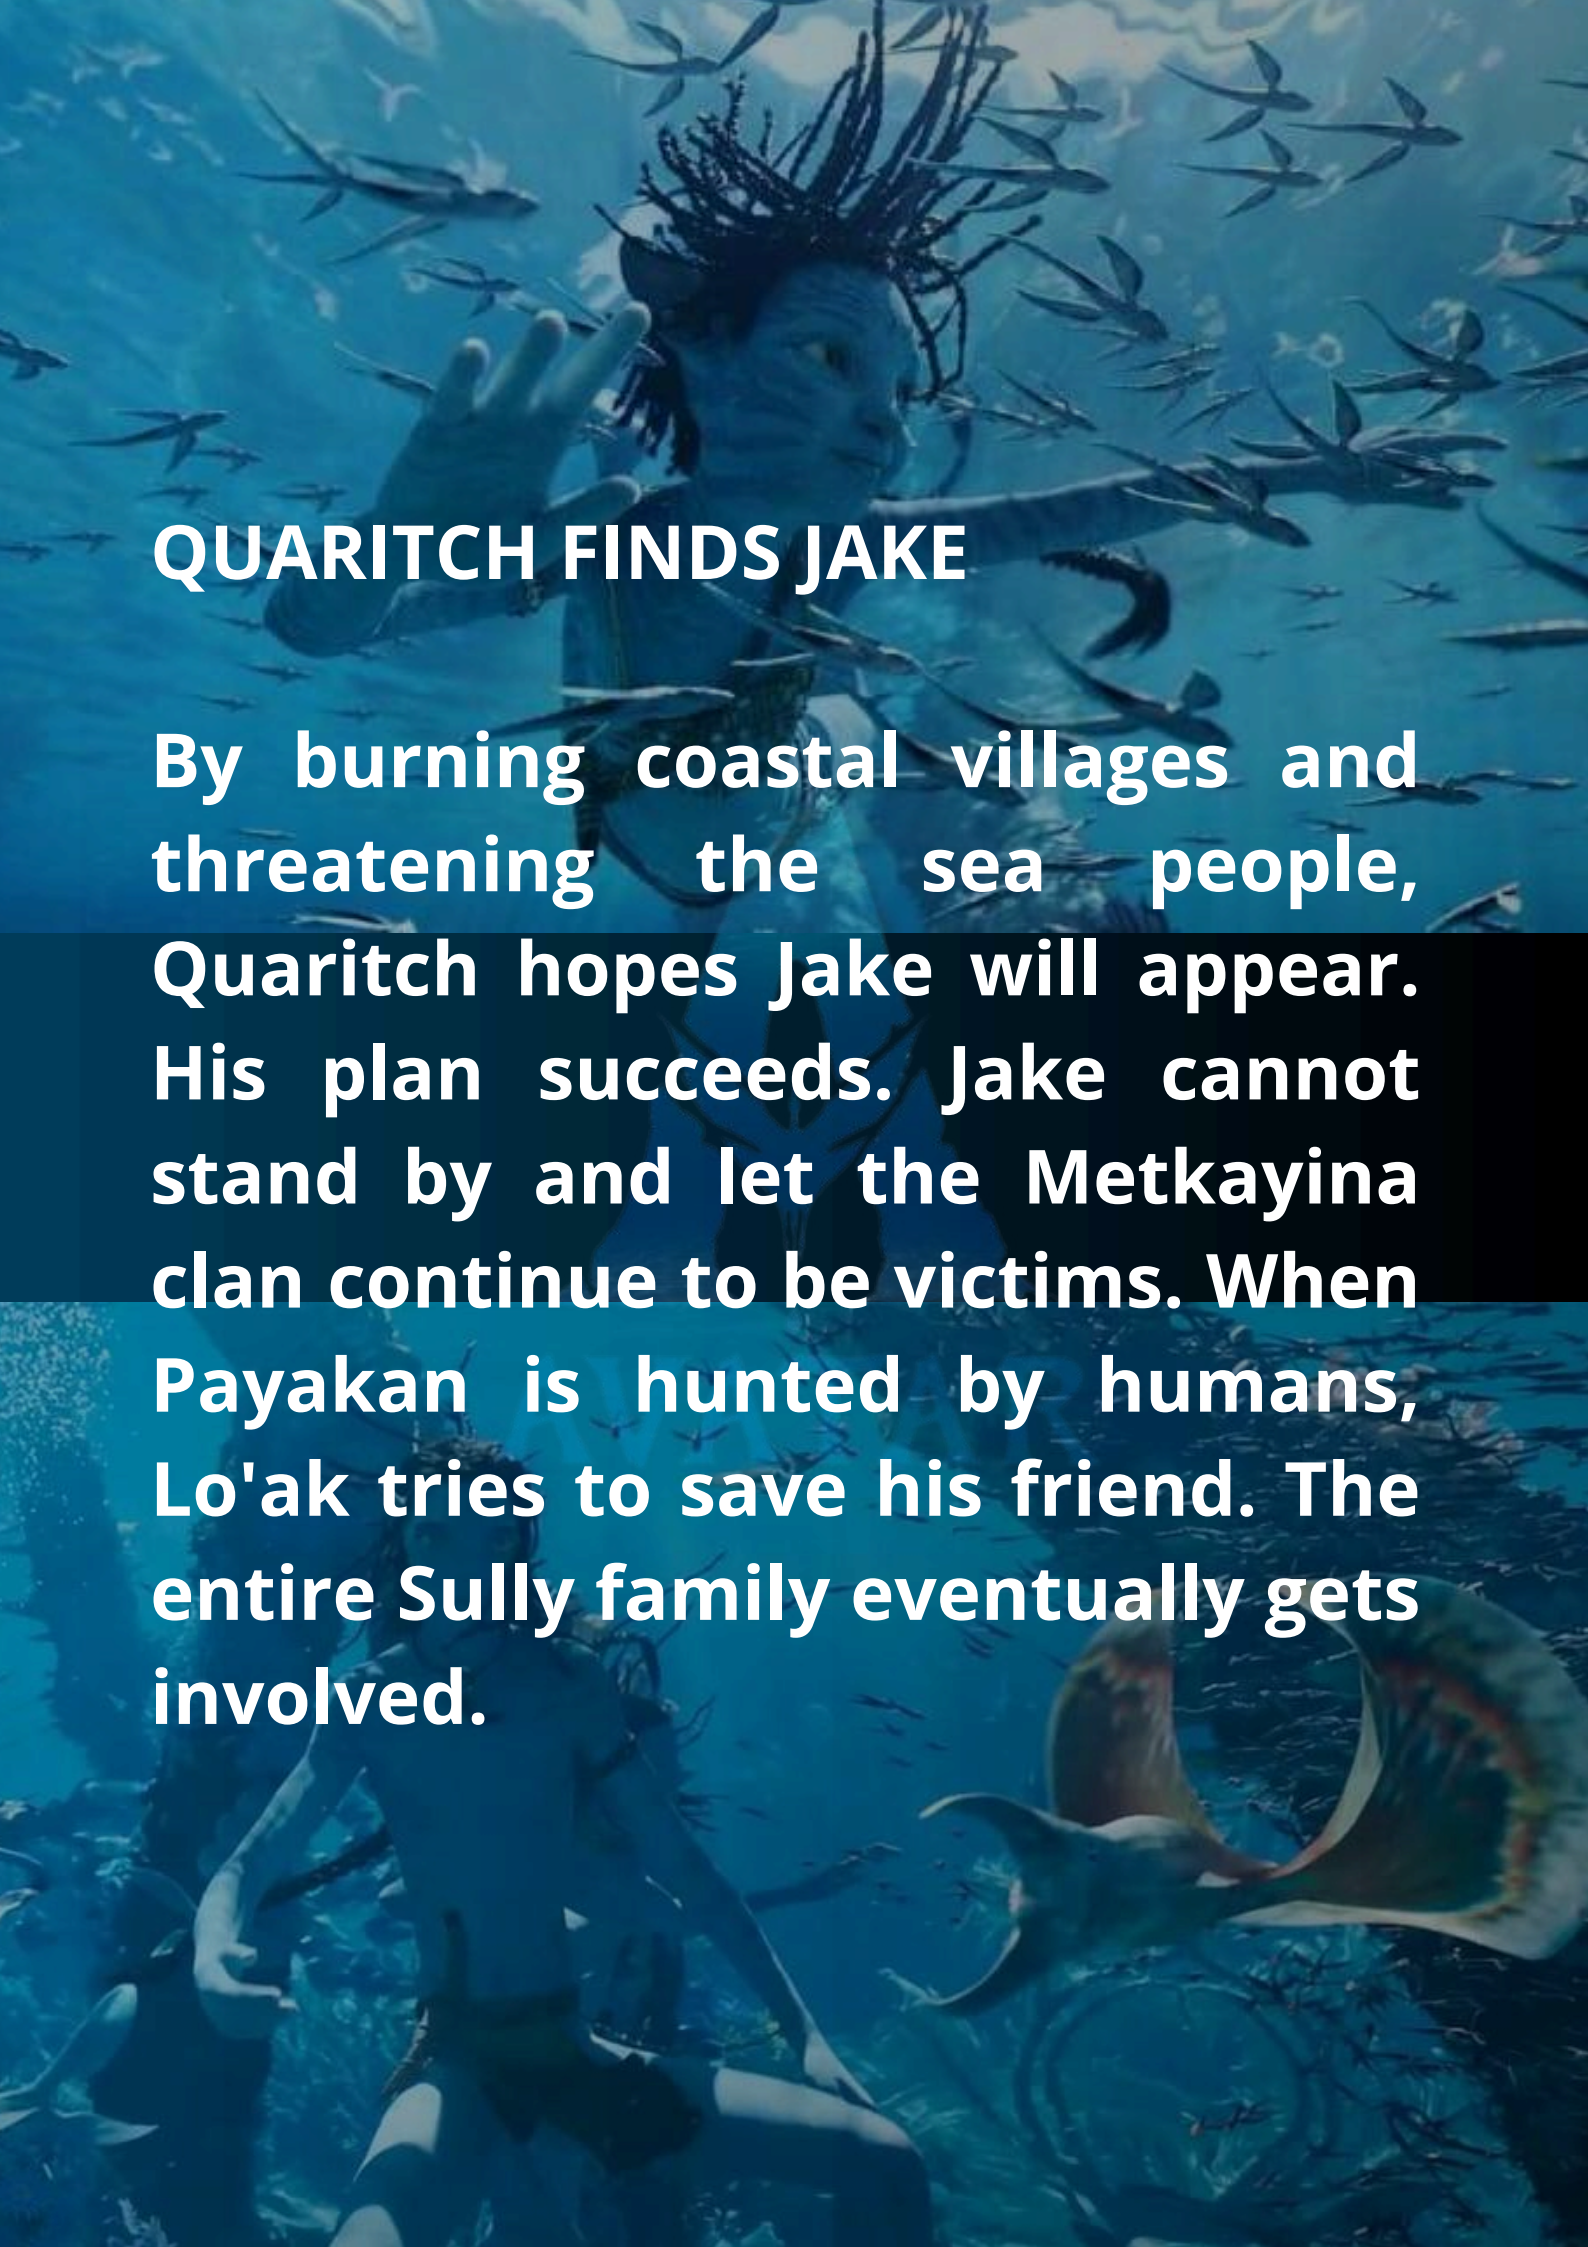

THE TULKUN HUNT

On the other hand, humans start hunting Tulkuns. They use large hunting ships and explosive weapons. After a Tulkun is killed, they only extract a small amount of fluid from its brain called Amrita. This fluid is believed to be able to slow down the human aging process, making it worth millions of dollars. The Tulkun's body is then simply discarded into the sea. This scene depicts human greed towards nature.

An underwater scene from the movie Avatar. Spider, a young Na'vi, is in the center, looking up with a concerned expression. He has a small, dark, spiky object on his head. He is surrounded by many small, silver fish. In the background, a large, colorful manta ray is visible. The water is a deep blue, and the overall atmosphere is mysterious and dramatic.

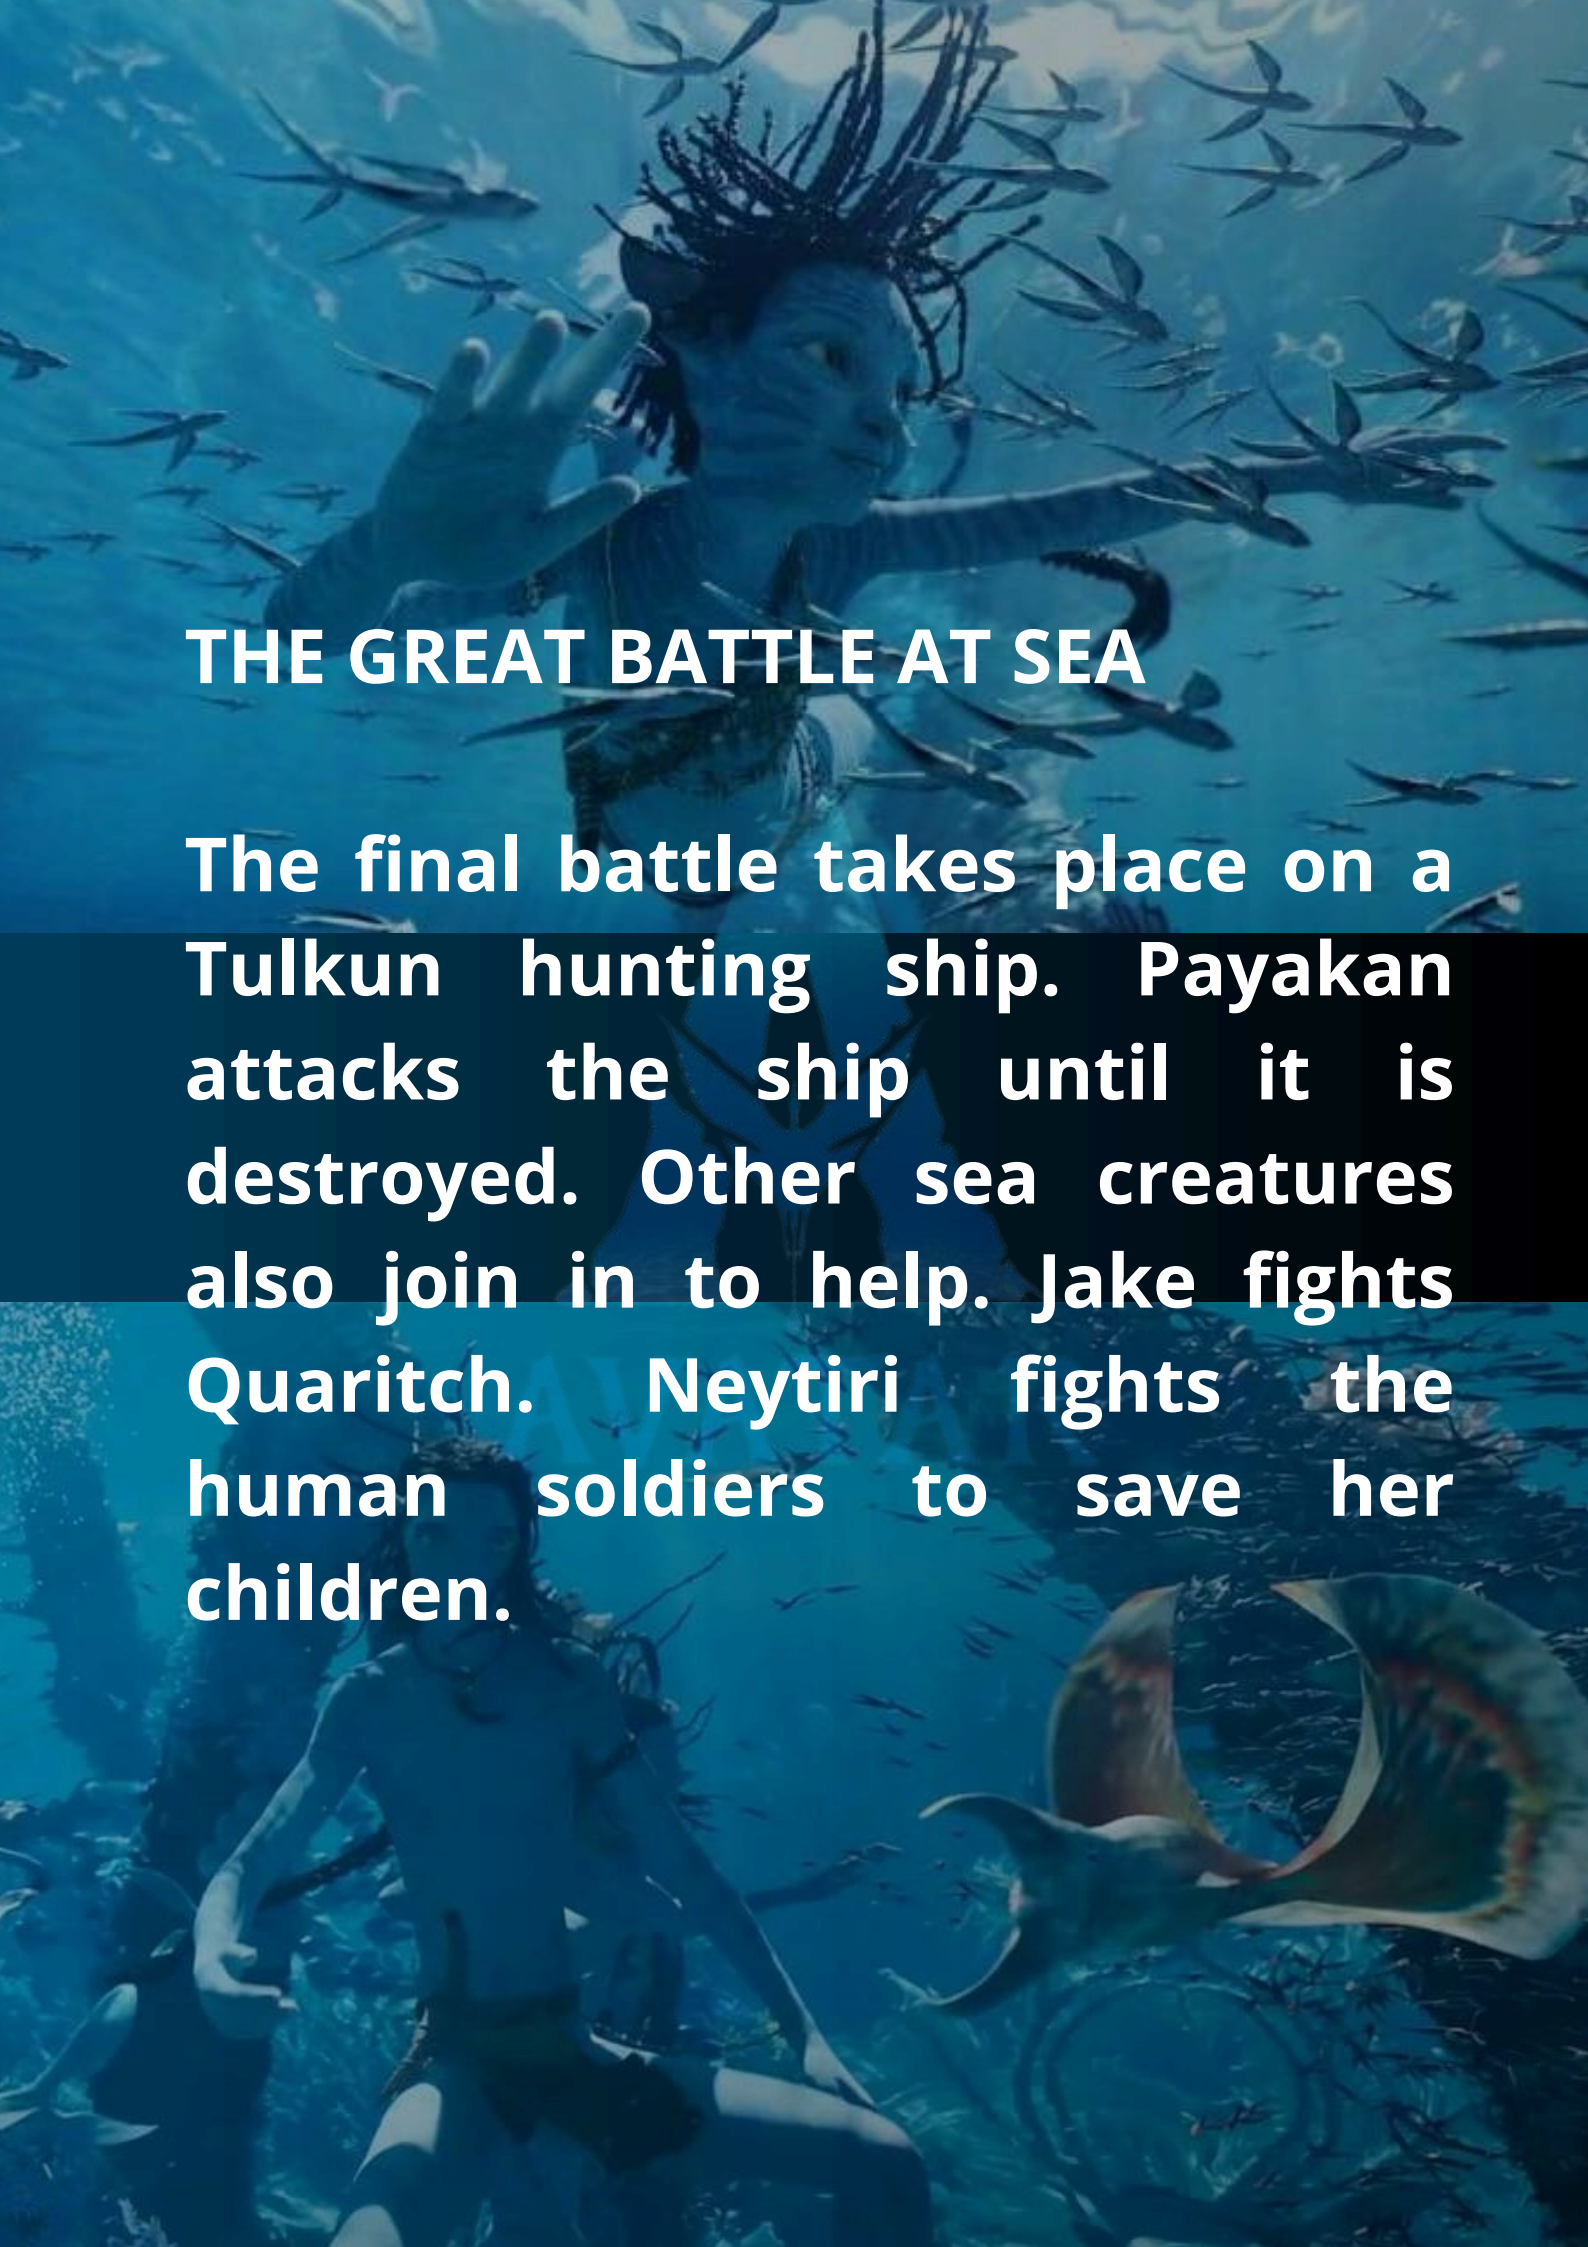

SPIDER IS CAPTURED

Spider is successfully captured by the Recom squad. Because Spider is Quaritch's biological child, he is not harmed. Instead, Quaritch uses Spider as a Na'vi language translator. During his journey with his biological father, Spider sees that Quaritch is still a harsh and ambitious figure. Nevertheless, Spider appears conflicted several times because, for the first time, he is getting to know his biological father

In the bottom right corner, a large, colorful manta ray is visible. The background is a deep blue ocean with some coral and other marine life.

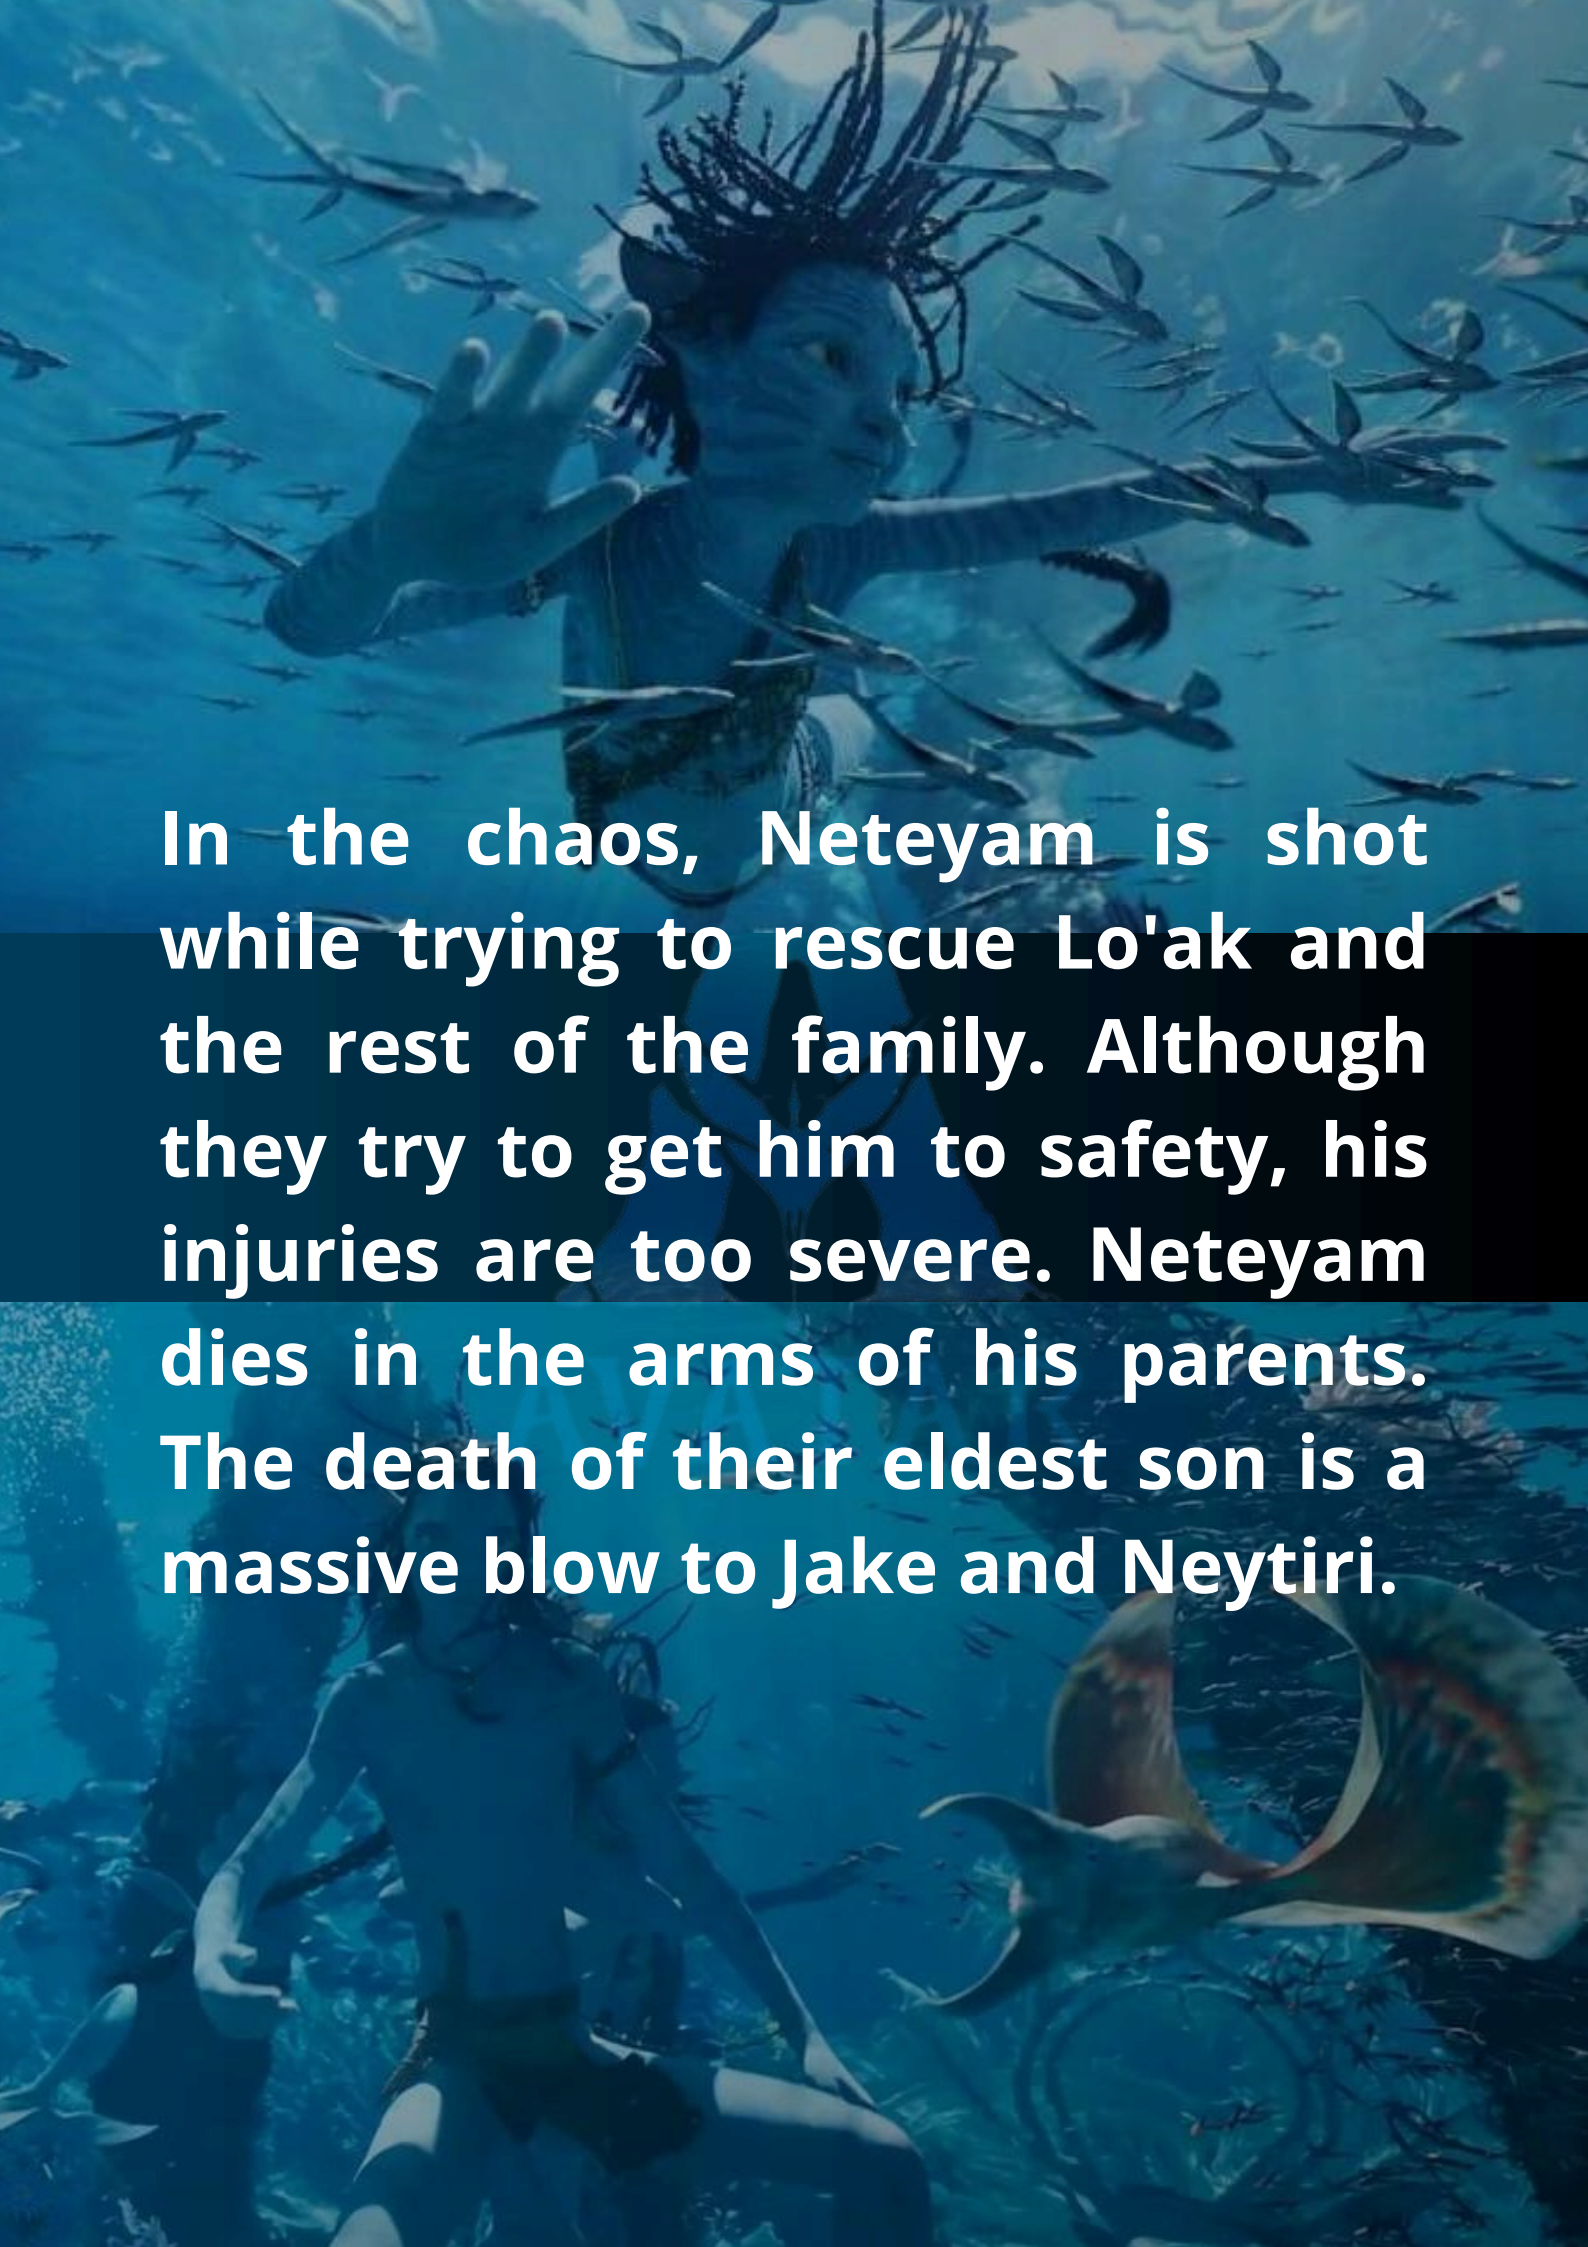

QUARITCH FINDS JAKE

By burning coastal villages and threatening the sea people, Quaritch hopes Jake will appear. His plan succeeds. Jake cannot stand by and let the Metkayina clan continue to be victims. When Payakan is hunted by humans, Lo'ak tries to save his friend. The entire Sully family eventually gets involved.

In the bottom left, another Na'vi character is visible, and in the bottom right, a large, colorful, tentacle-like creature is swimming. The overall color is a deep blue.

THE GREAT BATTLE AT SEA

The final battle takes place on a Tulkun hunting ship. Payakan attacks the ship until it is destroyed. Other sea creatures also join in to help. Jake fights Quaritch. Neytiri fights the human soldiers to save her children.

In the chaos, Neteyam is shot while trying to rescue Lo'ak and the rest of the family. Although they try to get him to safety, his injuries are too severe. Neteyam dies in the arms of his parents. The death of their eldest son is a massive blow to Jake and Neytiri.

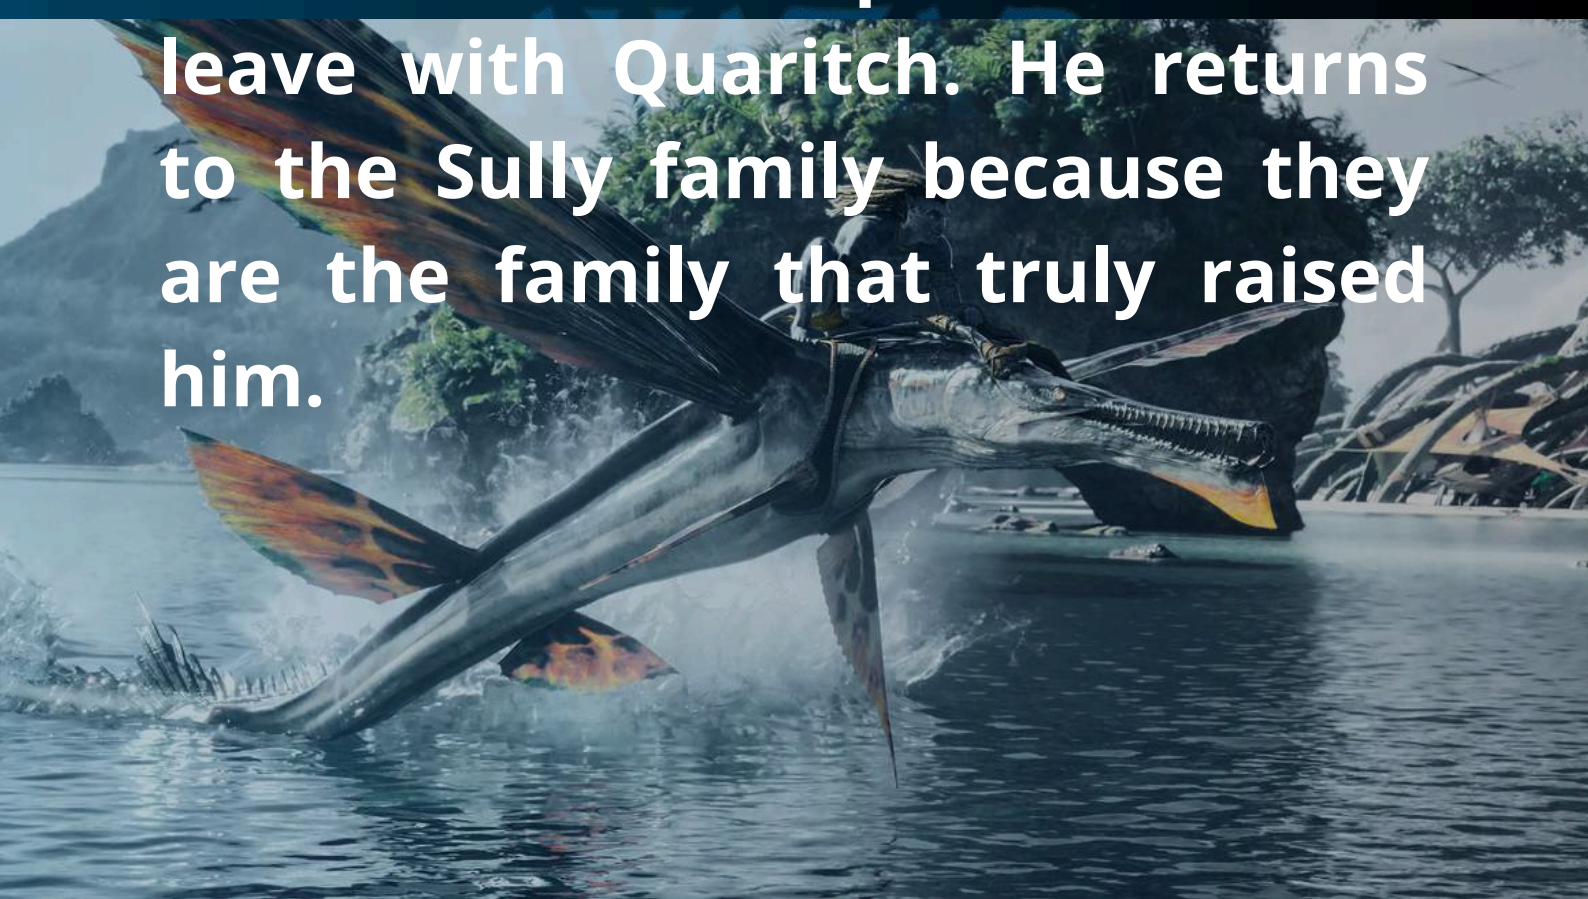

THE SHIP SINKS

The ship slowly sinks to the bottom of the sea. Jake is trapped inside the ship with Quaritch. They continue to fight even as the ship fills with water. On the other side, Neytiri tries to save Tuk, who is also trapped. Lo'ak uses the breath-holding techniques he learned from the Metkayina to find his father. He eventually manages to get Jake out of the ship. Jake survives.

A blue-skinned Na'vi character, Spider, is shown in a dynamic pose, holding a large, brown, mechanical object (Quaritch's skull) in his hands. He is wearing a brown vest and a headband. The background is a lush, blue, and green landscape with water and distant islands.

SPIDER SAVES QUARITCH

Quaritch drowns after losing the fight. Spider actually has the chance to let him die. However, he chooses to save his biological father. Even so, Spider does not leave with Quaritch. He returns to the Sully family because they are the family that truly raised him.

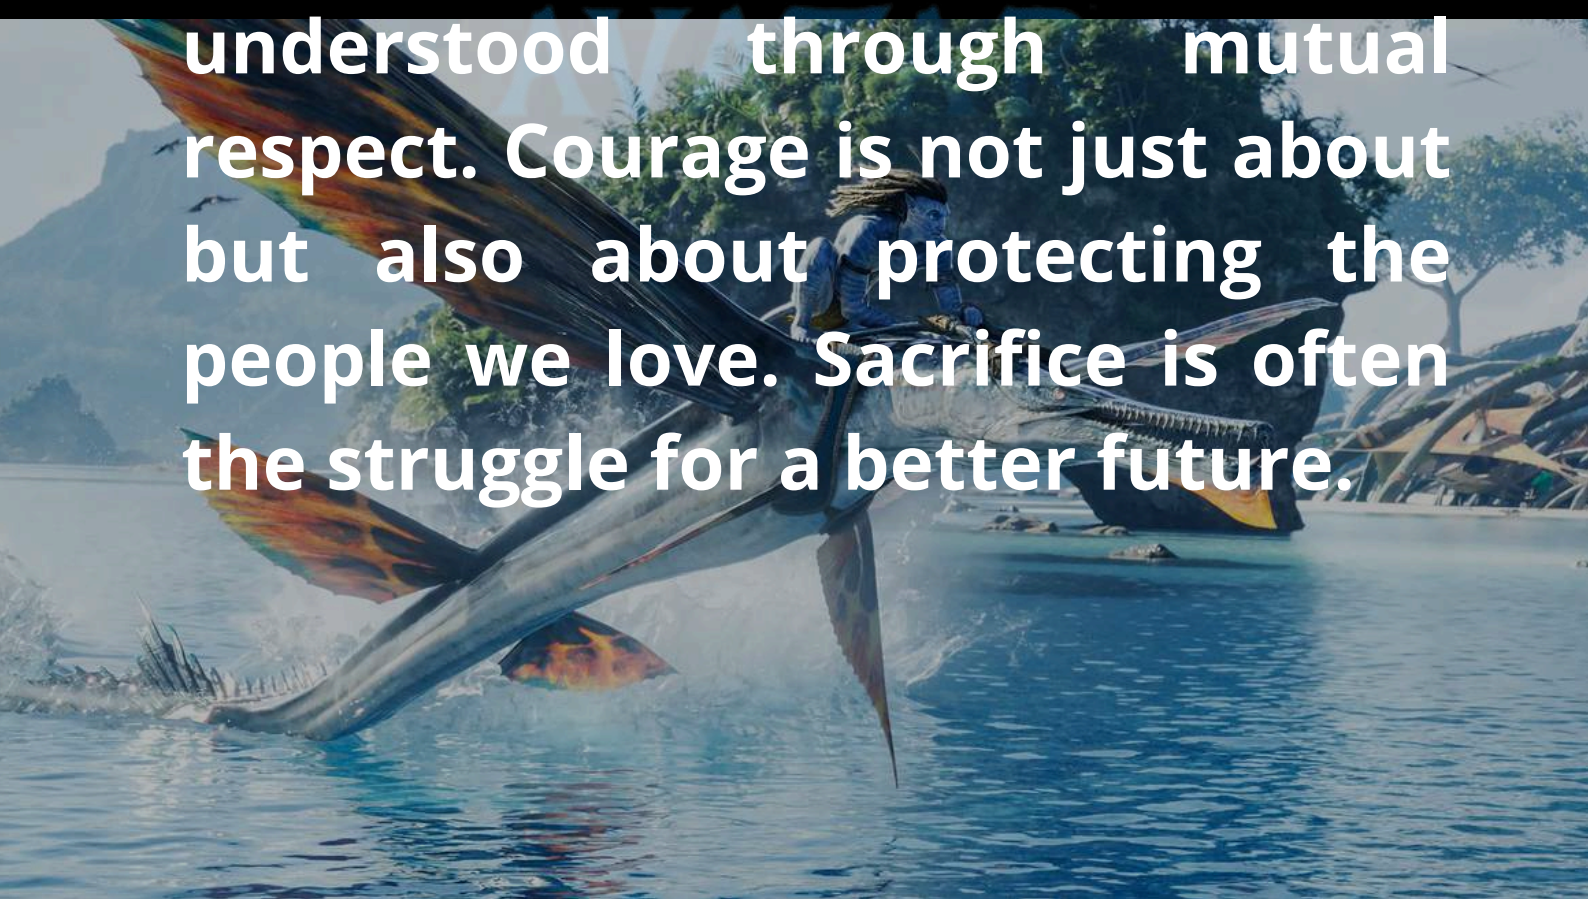

A Na'vi character is riding a large, silver, dragon-like creature (a Na'vi) through the water. The creature has long, thin, and colorful wings. The background shows a lush, green, and blue landscape with water and distant islands.

CONCLUSION

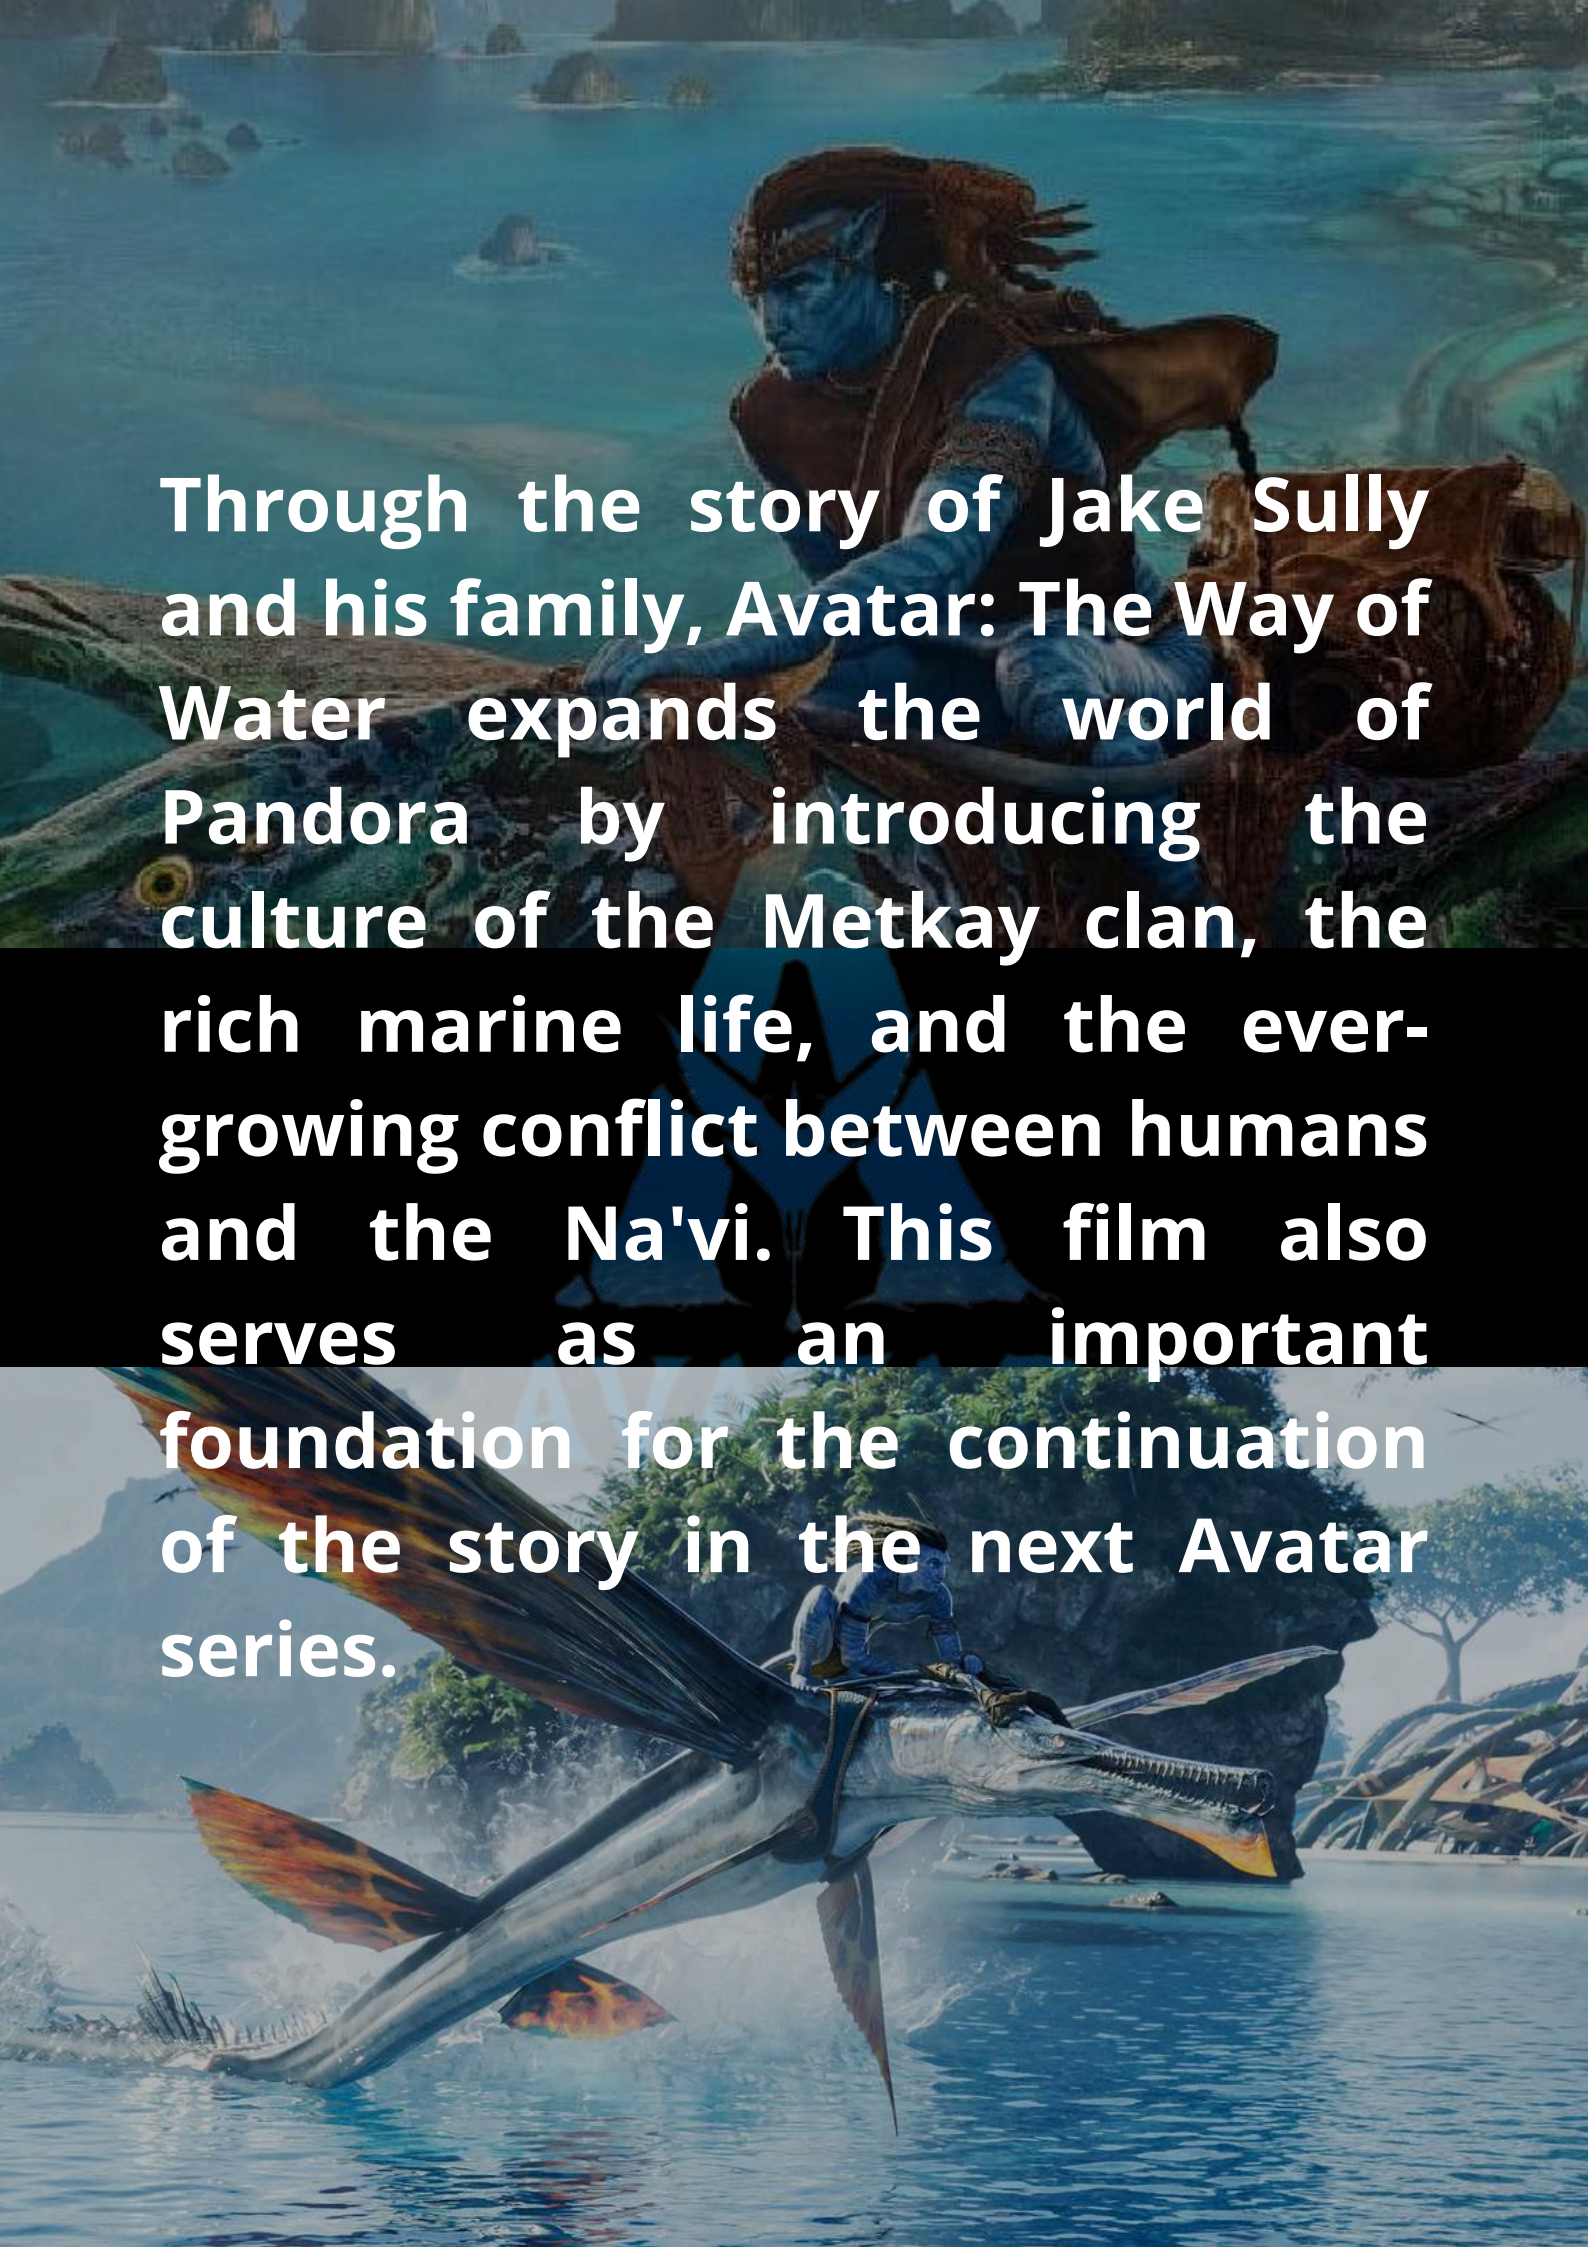

After the battle is over, the Sully family holds a ceremony to Neteyam. Jake accepts the bitter reality that the war has taken his eldest son. He then decides to stay with the Metkayina clan. At the end of the film Jake states that his family will continue to fight to protect Pandora. Meanwhile, Quaritch is still alive, indicating that the conflict between humans and the Na'vi is not over and will continue in the next film.

A Na'vi character with blue skin and brown hair, wearing a brown vest, is shown from the chest up, looking down at a large, colorful, and detailed Na'vi mask. The background is a serene lagoon with turquoise water and small, rocky islands under a clear sky.

MORAL MESSAGES OF THE FILM

A Na'vi character is riding a banshee, a large, sleek, and aerodynamic flying creature with iridescent wings, over a body of water. The banshee is in motion, creating a splash in the water. In the background, there are lush green hills and a small village with traditional Na'vi architecture.

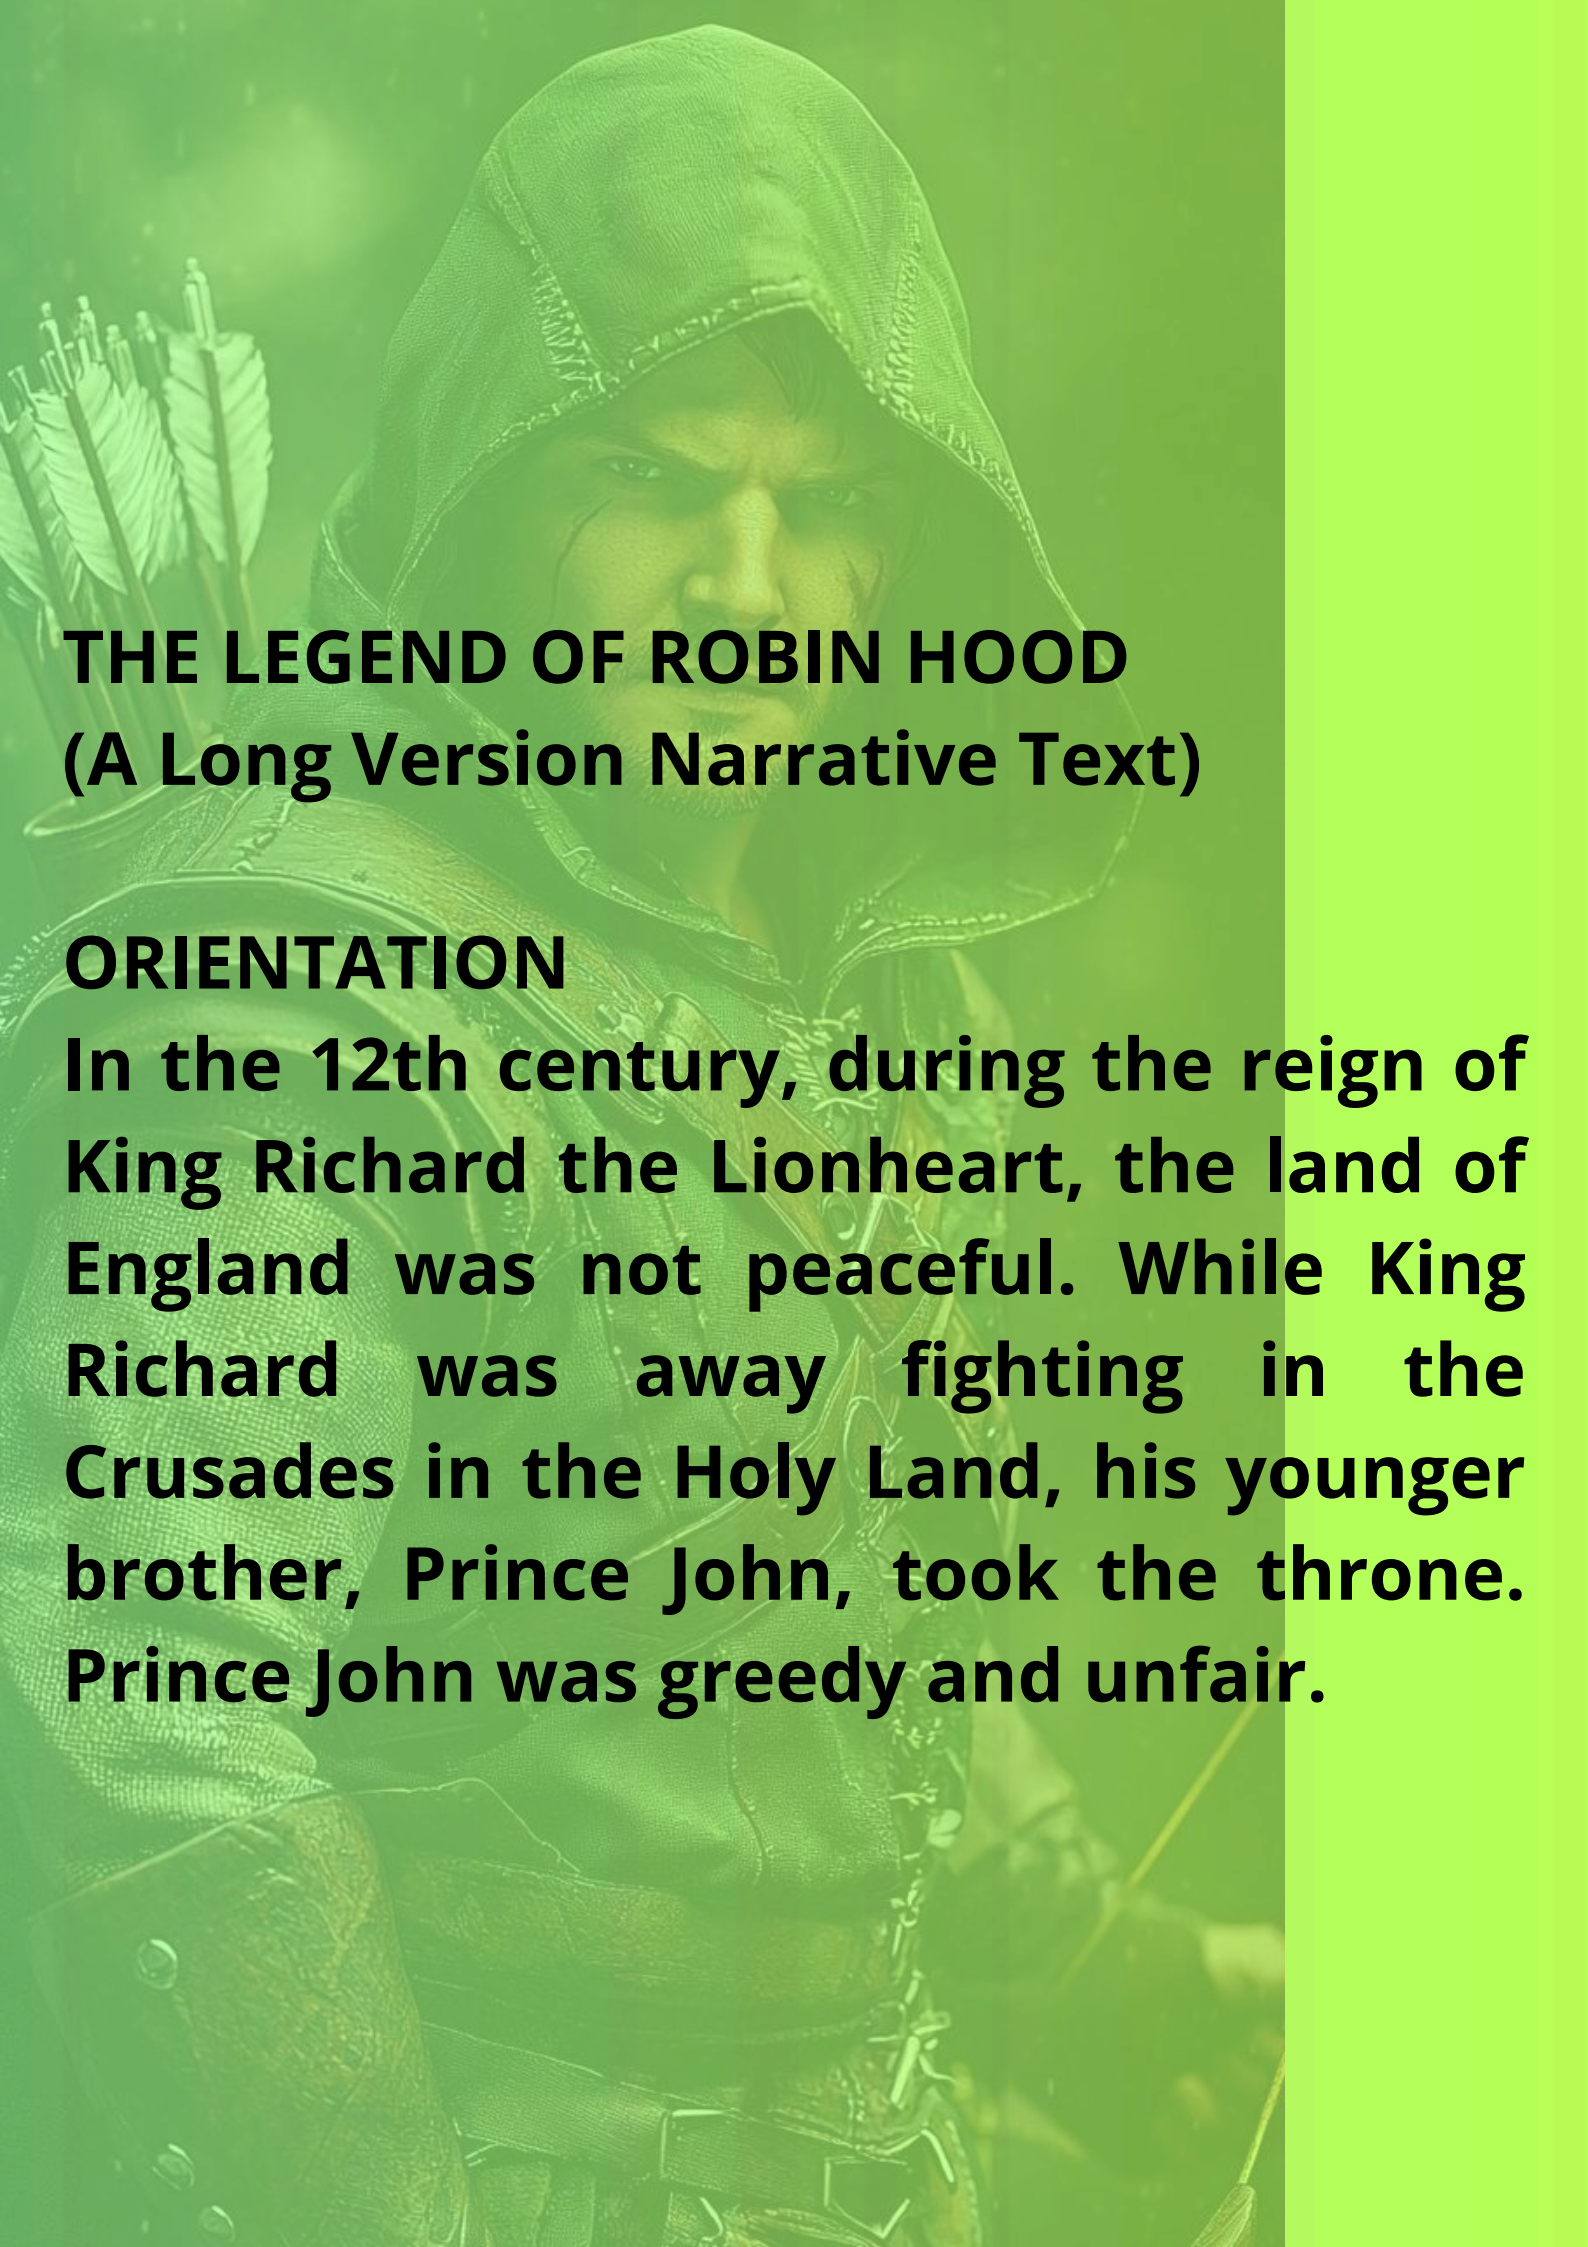

The film conveys several important messages. Family is the strength that must be guarded and protected. Nature is not just a resource, but a part of life that must be respected. Cultural differences can be understood through mutual respect. Courage is not just about but also about protecting the people we love. Sacrifice is often the struggle for a better future.

The image is a composite. The background shows a Na'vi character, likely from the Avatar franchise, in a dynamic pose. The foreground features a P-38 Lightning fighter, a biplane with distinctive rainbow-colored wingtips, flying over a body of water. The text is overlaid on the center of the image.

Through the story of Jake Sully and his family, Avatar: The Way of Water expands the world of Pandora by introducing the culture of the Metkay clan, the rich marine life, and the ever-growing conflict between humans and the Na'vi. This film also serves as an important foundation for the continuation of the story in the next Avatar series.

THE LEGEND OF ROBIN HOOD

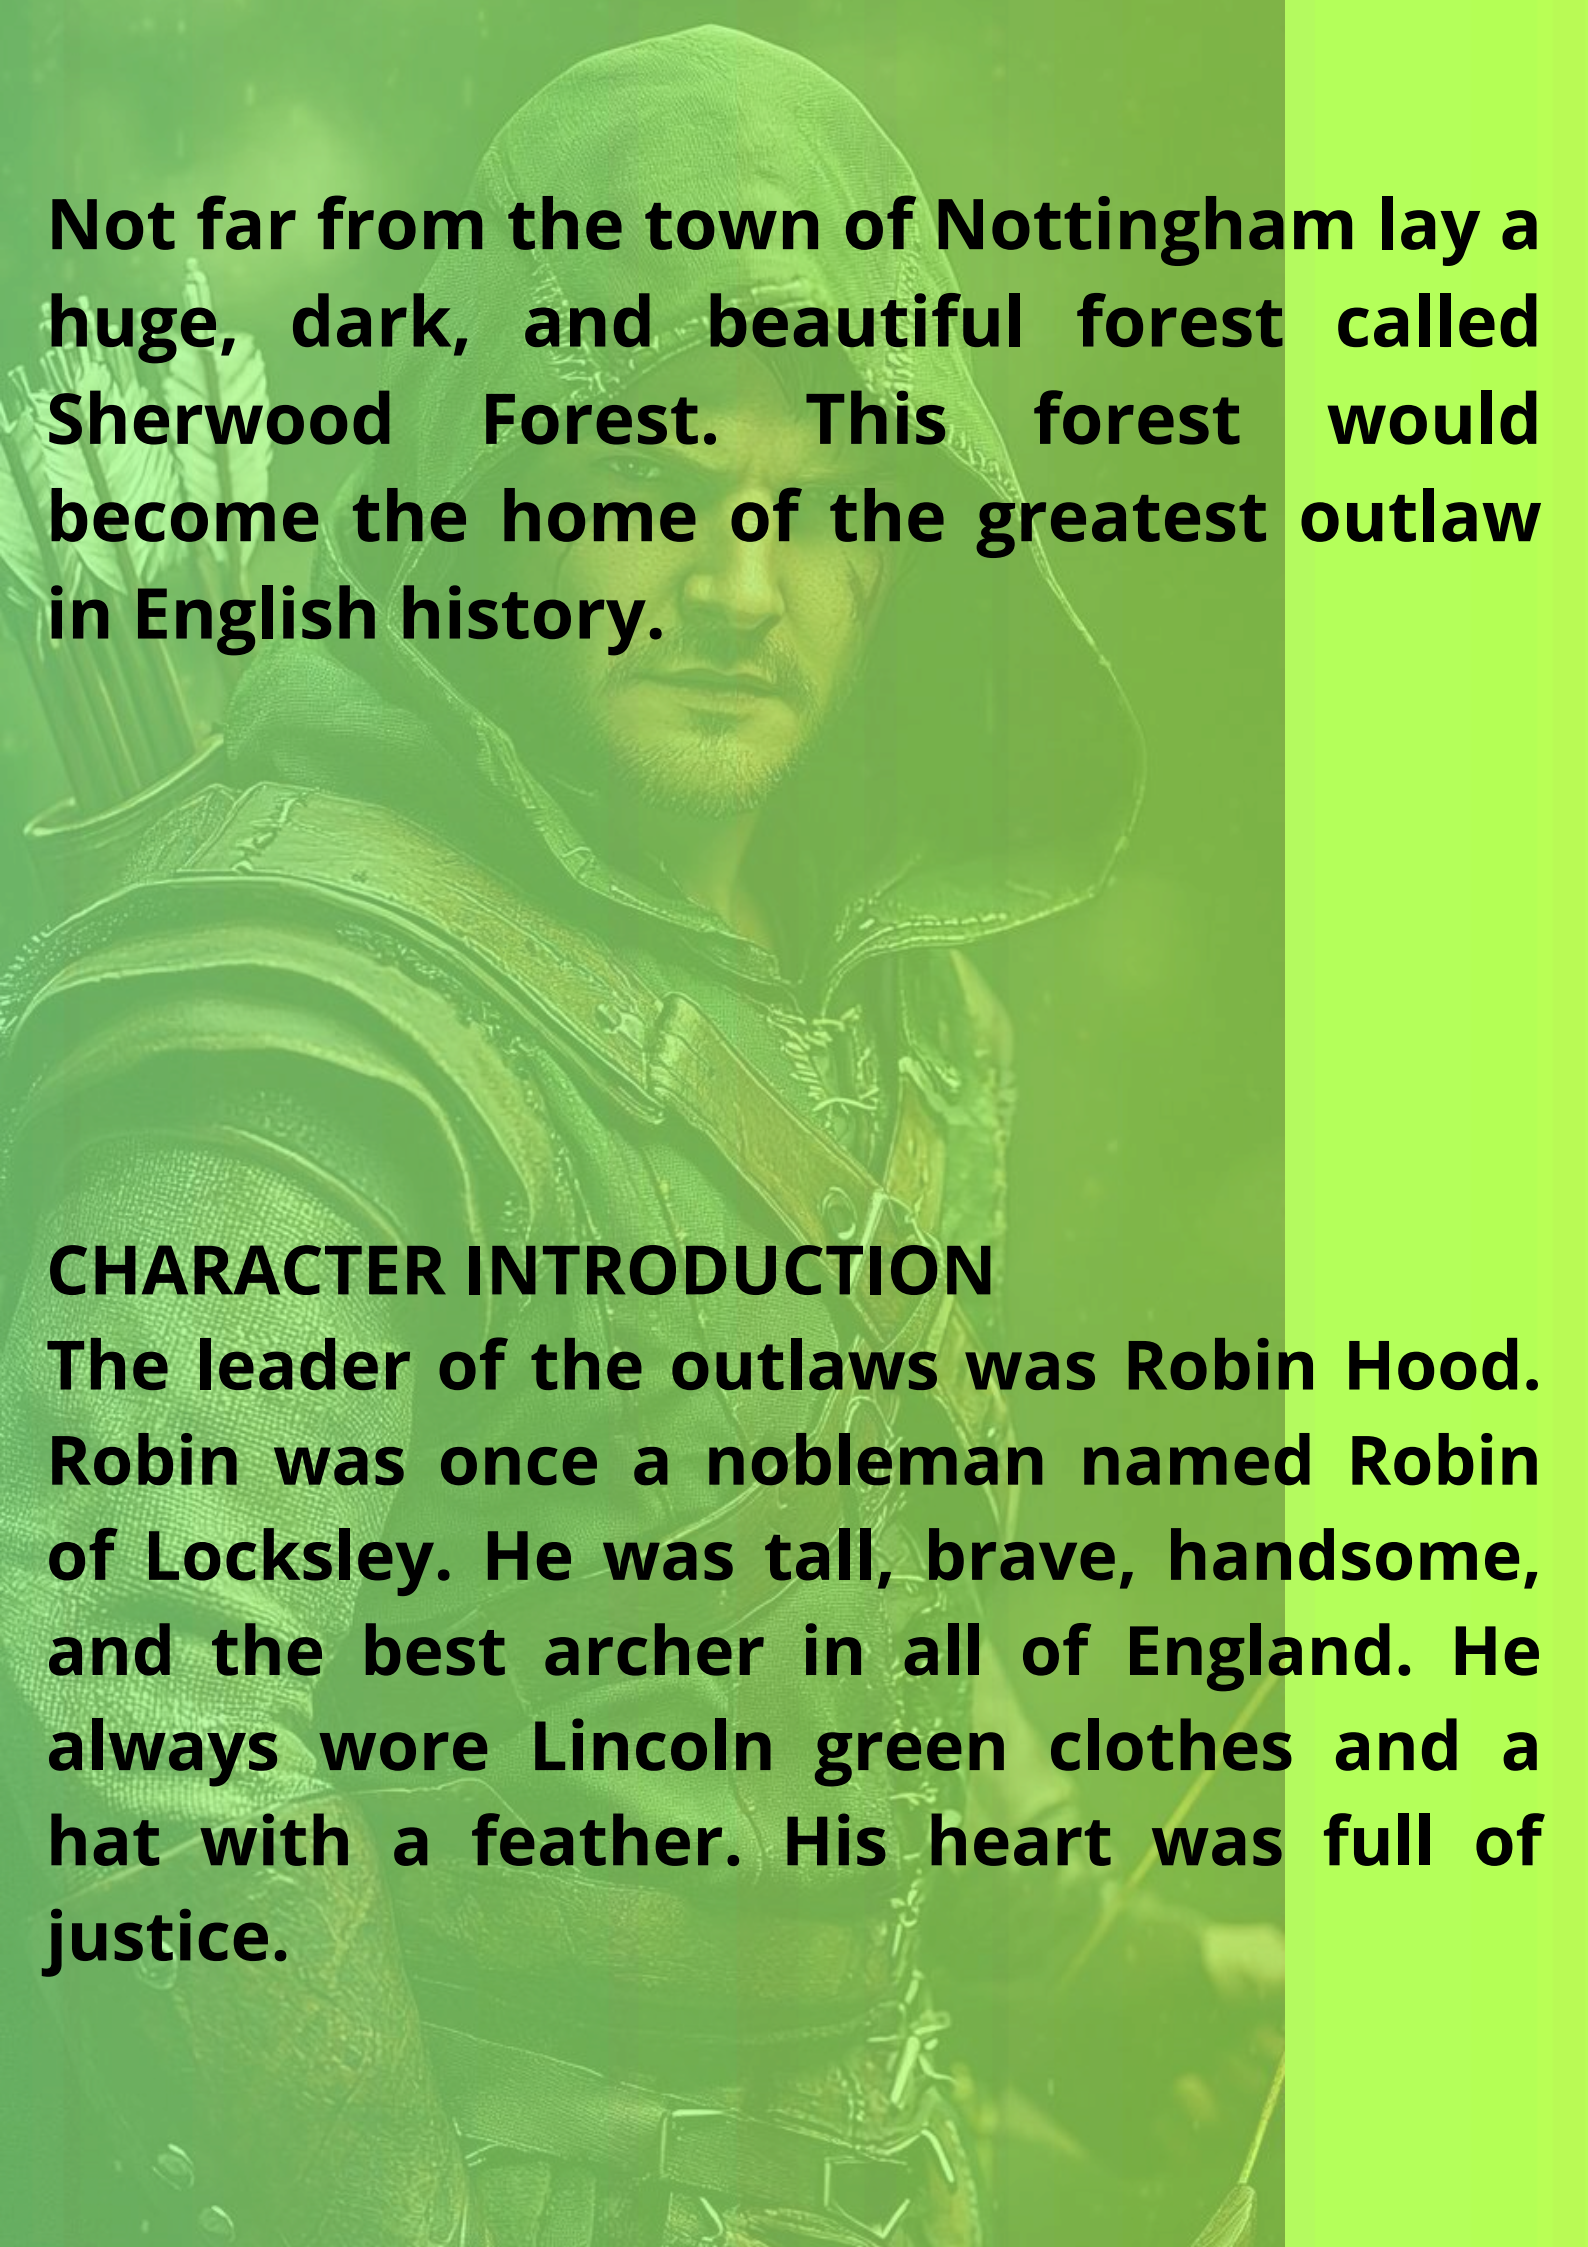

(A Long Version Narrative Text)

ORIENTATION

In the 12th century, during the reign of King Richard the Lionheart, the land of England was not peaceful. While King Richard was away fighting in the Crusades in the Holy Land, his younger brother, Prince John, took the throne. Prince John was greedy and unfair.

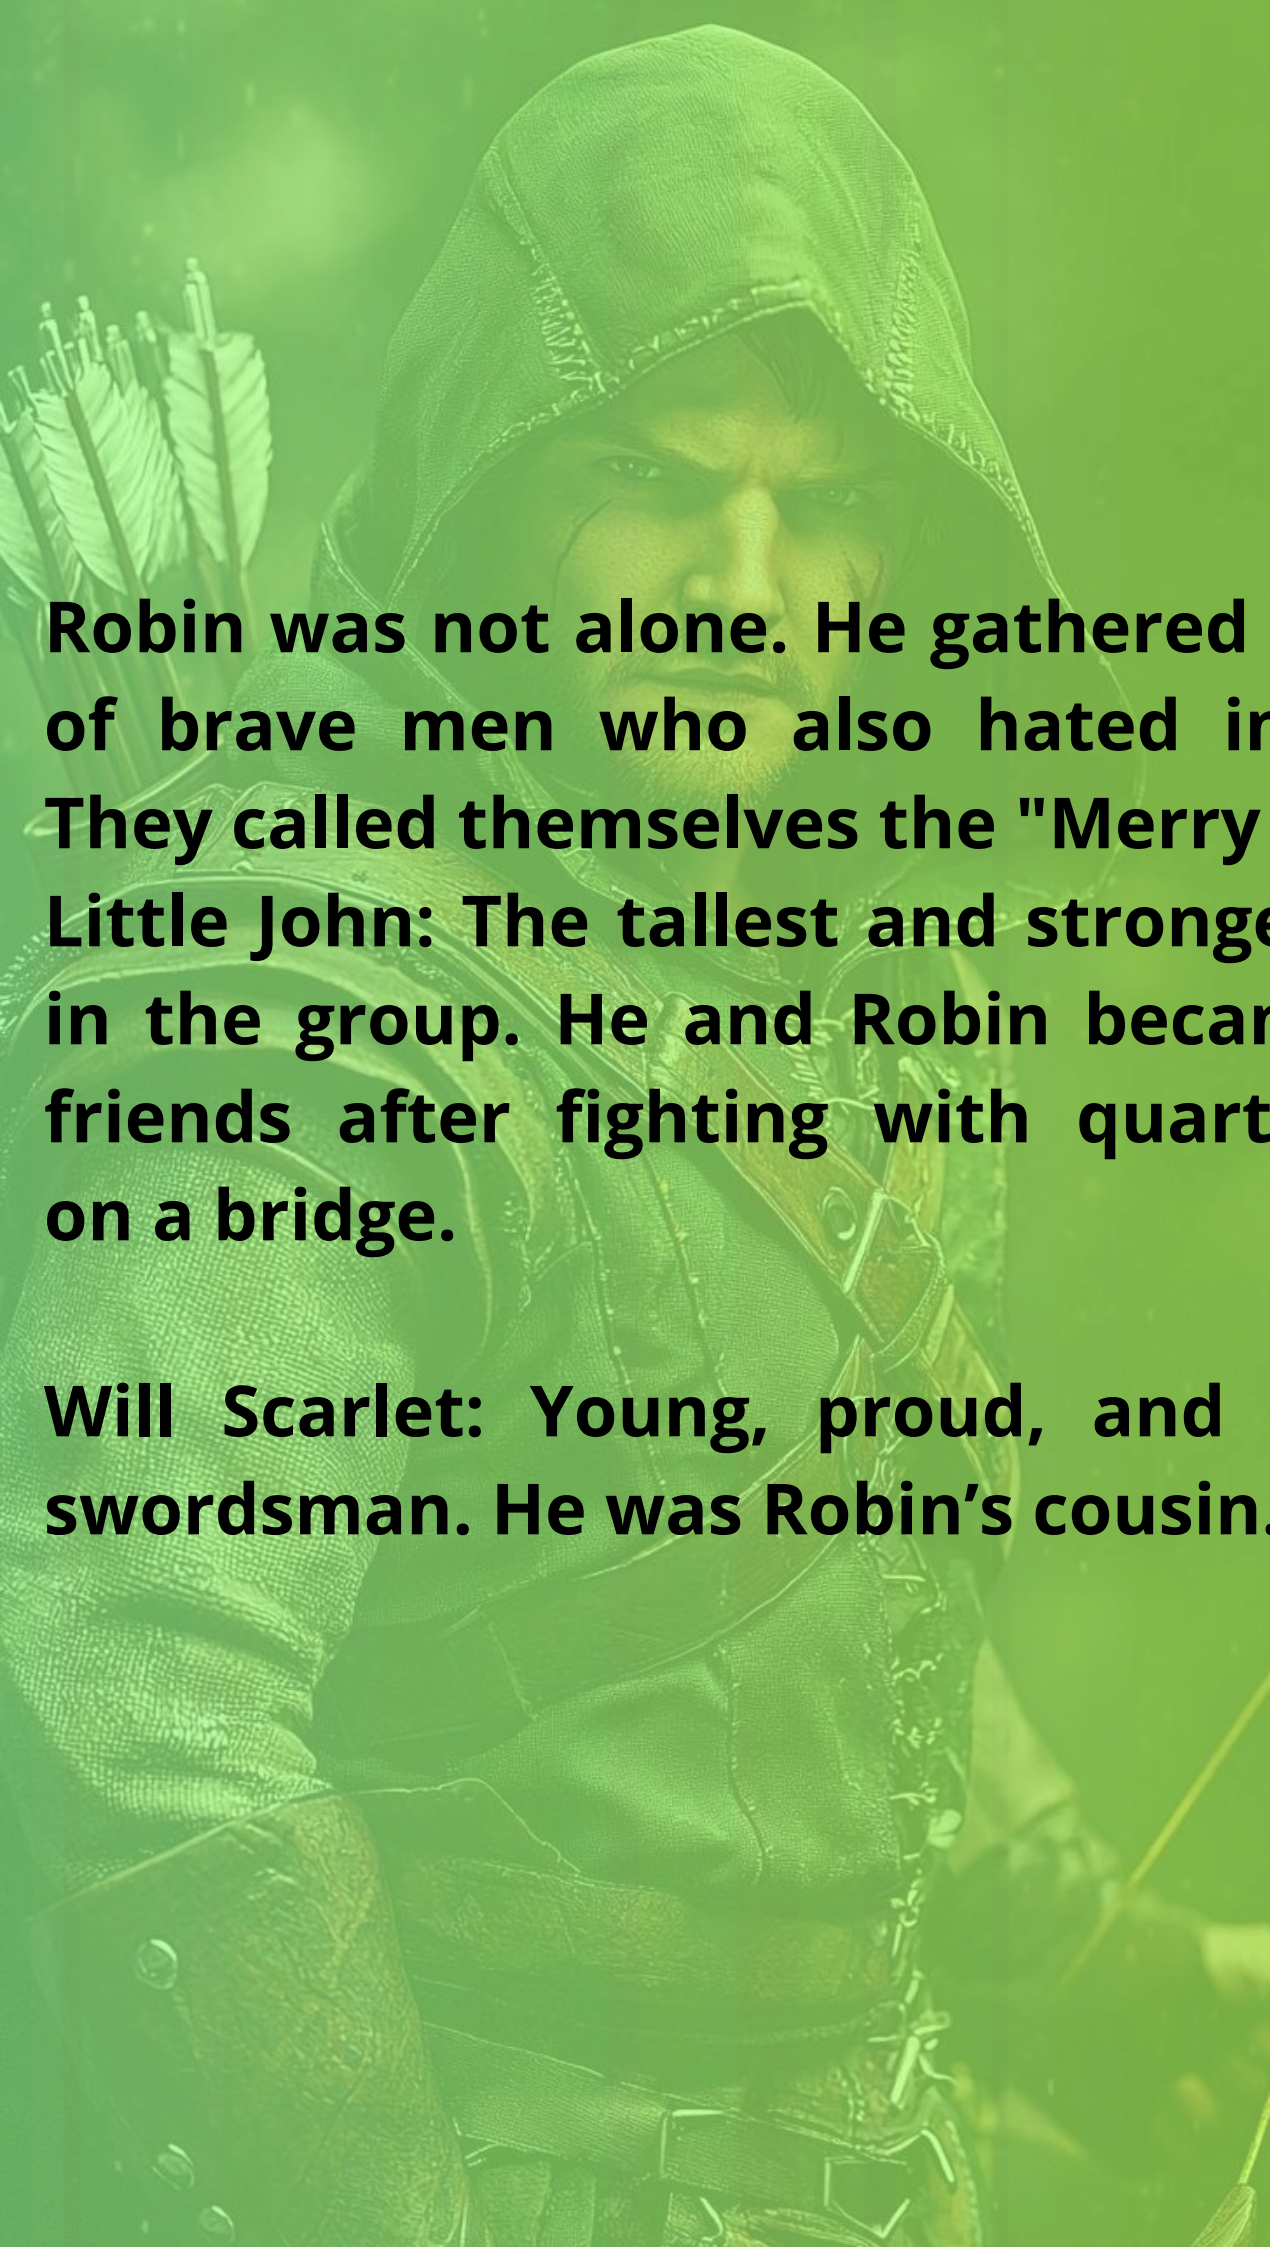

He appointed a cruel man, The Sheriff of Nottingham, to rule the county of Nottingham. The Sheriff and Prince John raised the taxes higher and higher. The rich nobles became richer, but the poor farmers, blacksmiths, and villagers became poorer. Many of them lost their homes, their food, and even their freedom.

Not far from the town of Nottingham lay a huge, dark, and beautiful forest called Sherwood Forest. This forest would become the home of the greatest outlaw in English history.

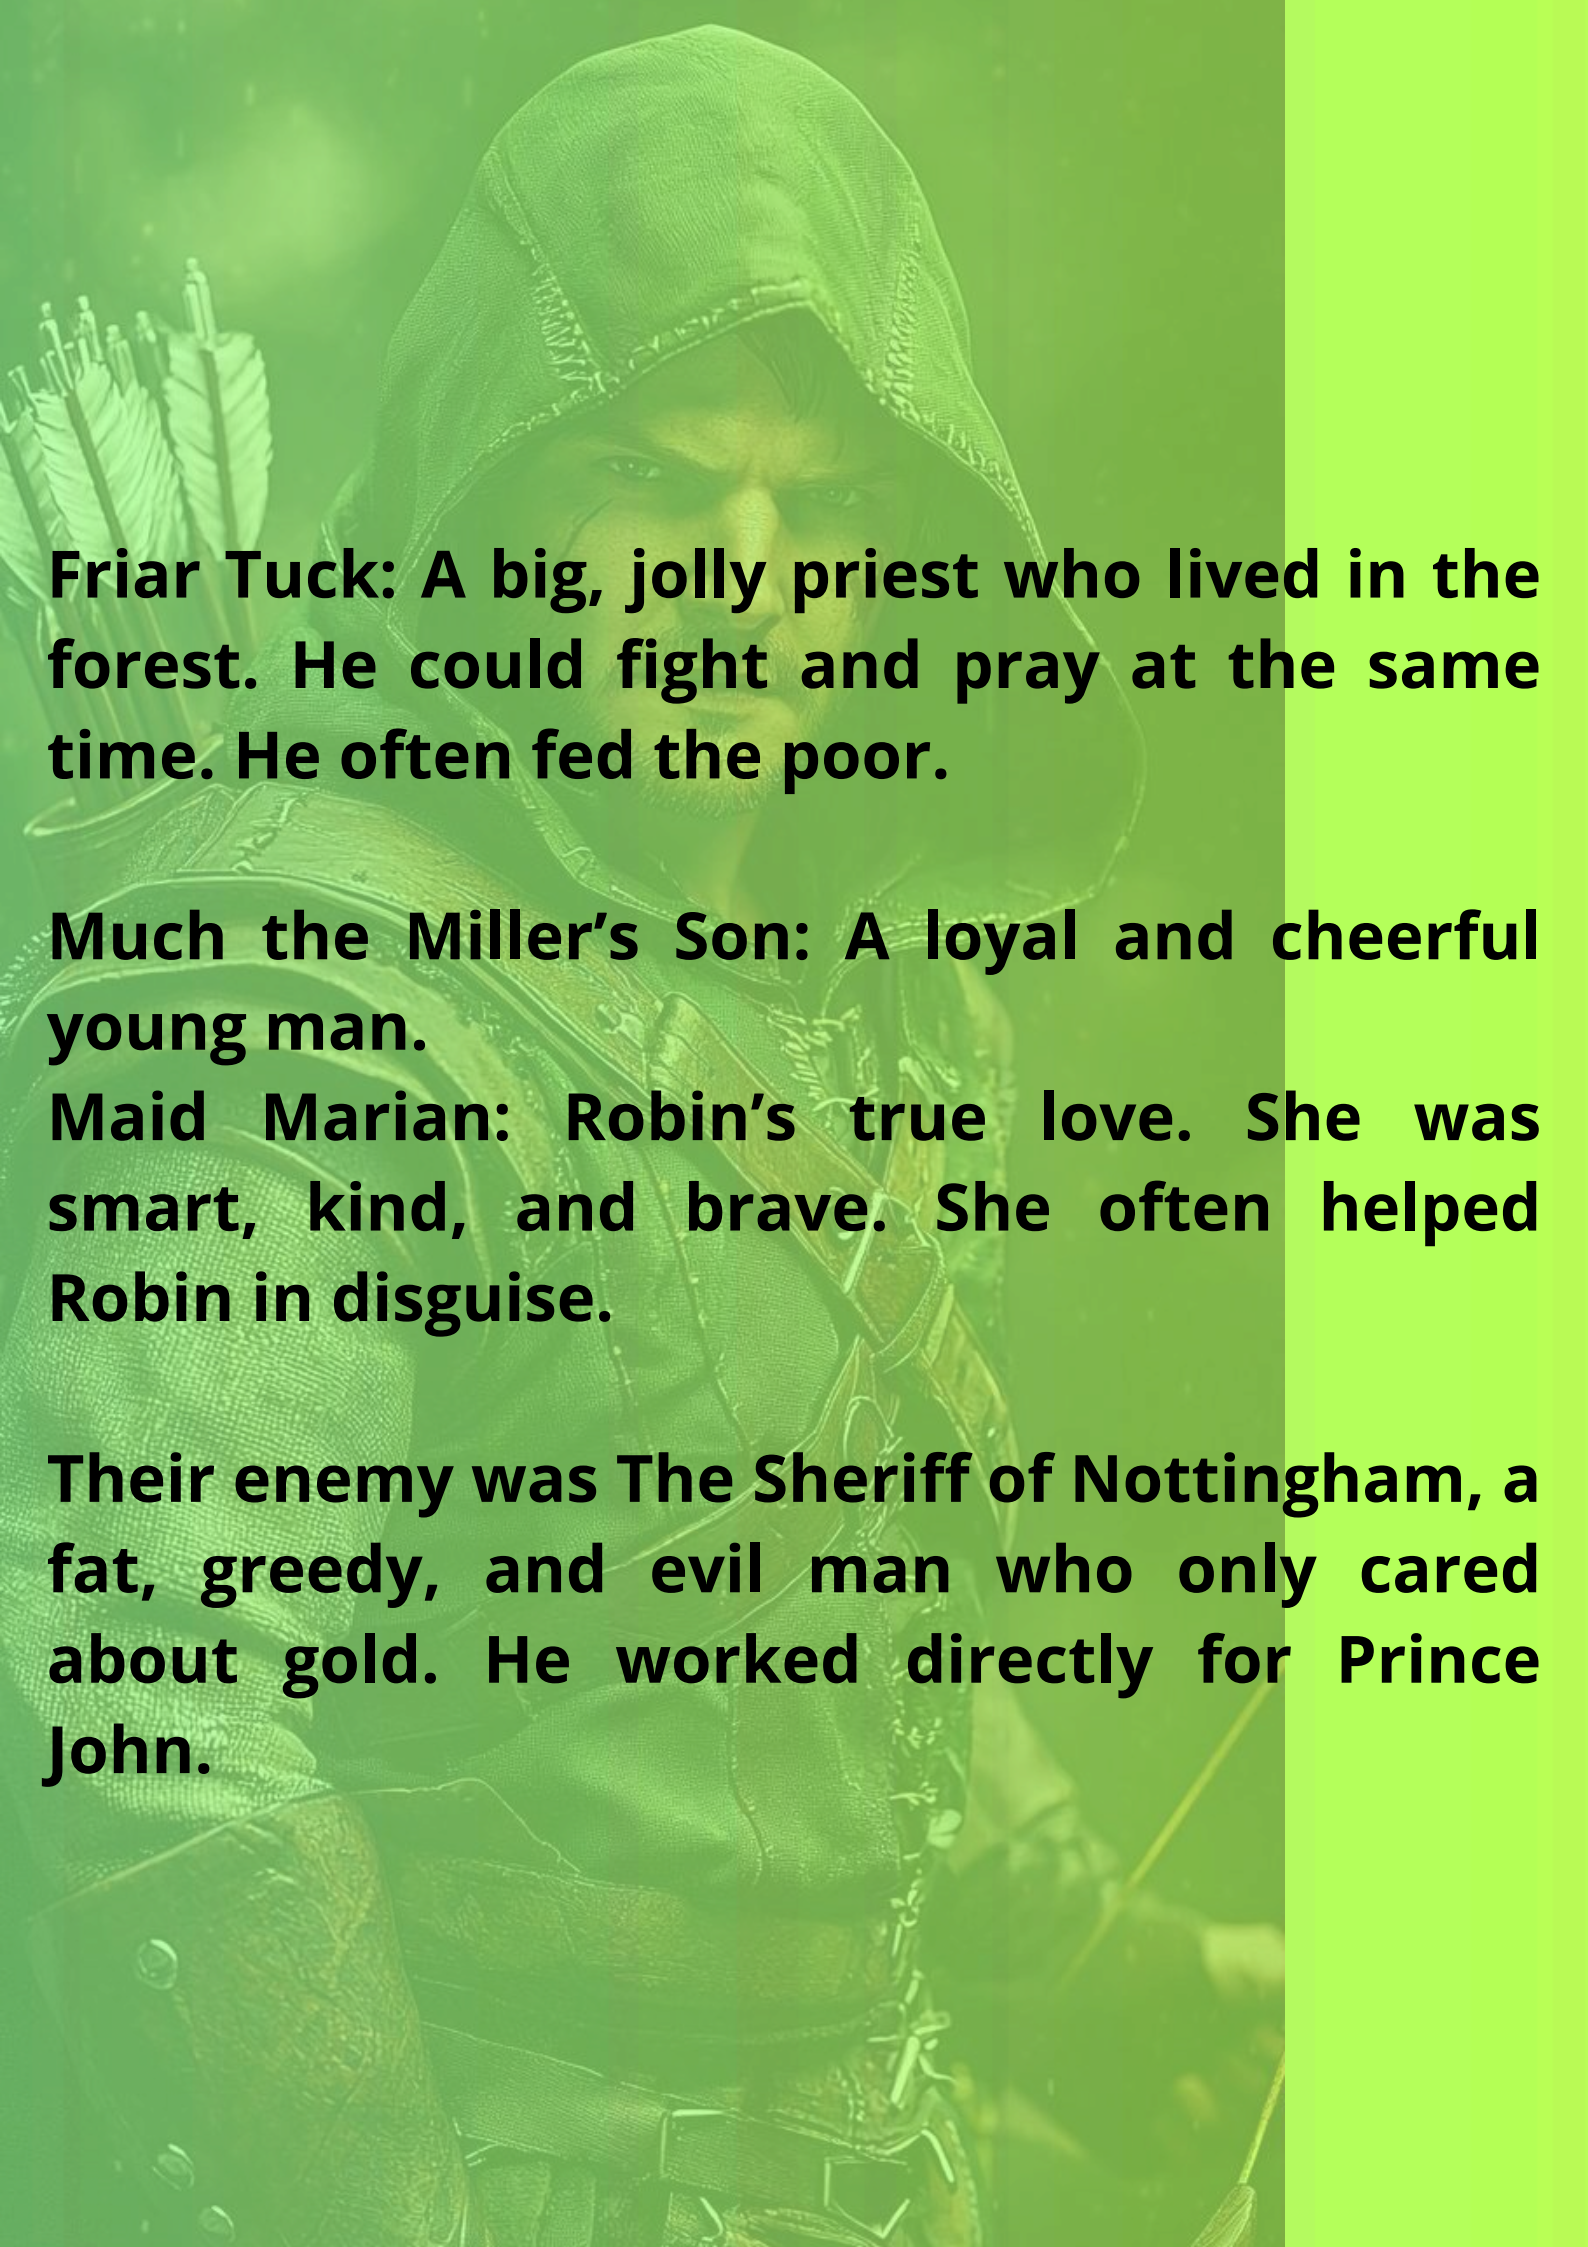

CHARACTER INTRODUCTION

The leader of the outlaws was Robin Hood. Robin was once a nobleman named Robin of Locksley. He was tall, brave, handsome, and the best archer in all of England. He always wore Lincoln green clothes and a hat with a feather. His heart was full of justice.

Robin was not alone. He gathered a group of brave men who also hated injustice. They called themselves the "Merry Men".
Little John: The tallest and strongest man in the group. He and Robin became best friends after fighting with quarterstaffs on a bridge.

Will Scarlet: Young, proud, and a great swordsman. He was Robin's cousin.

Friar Tuck: A big, jolly priest who lived in the forest. He could fight and pray at the same time. He often fed the poor.

Much the Miller's Son: A loyal and cheerful young man.

Maid Marian: Robin's true love. She was smart, kind, and brave. She often helped Robin in disguise.

Their enemy was The Sheriff of Nottingham, a fat, greedy, and evil man who only cared about gold. He worked directly for Prince John.

COMPLICATION

The problem began when the Sheriff came to a poor village to collect taxes. A poor widow and her seven children were crying because the Sheriff's men were going to take their last cow and their house.

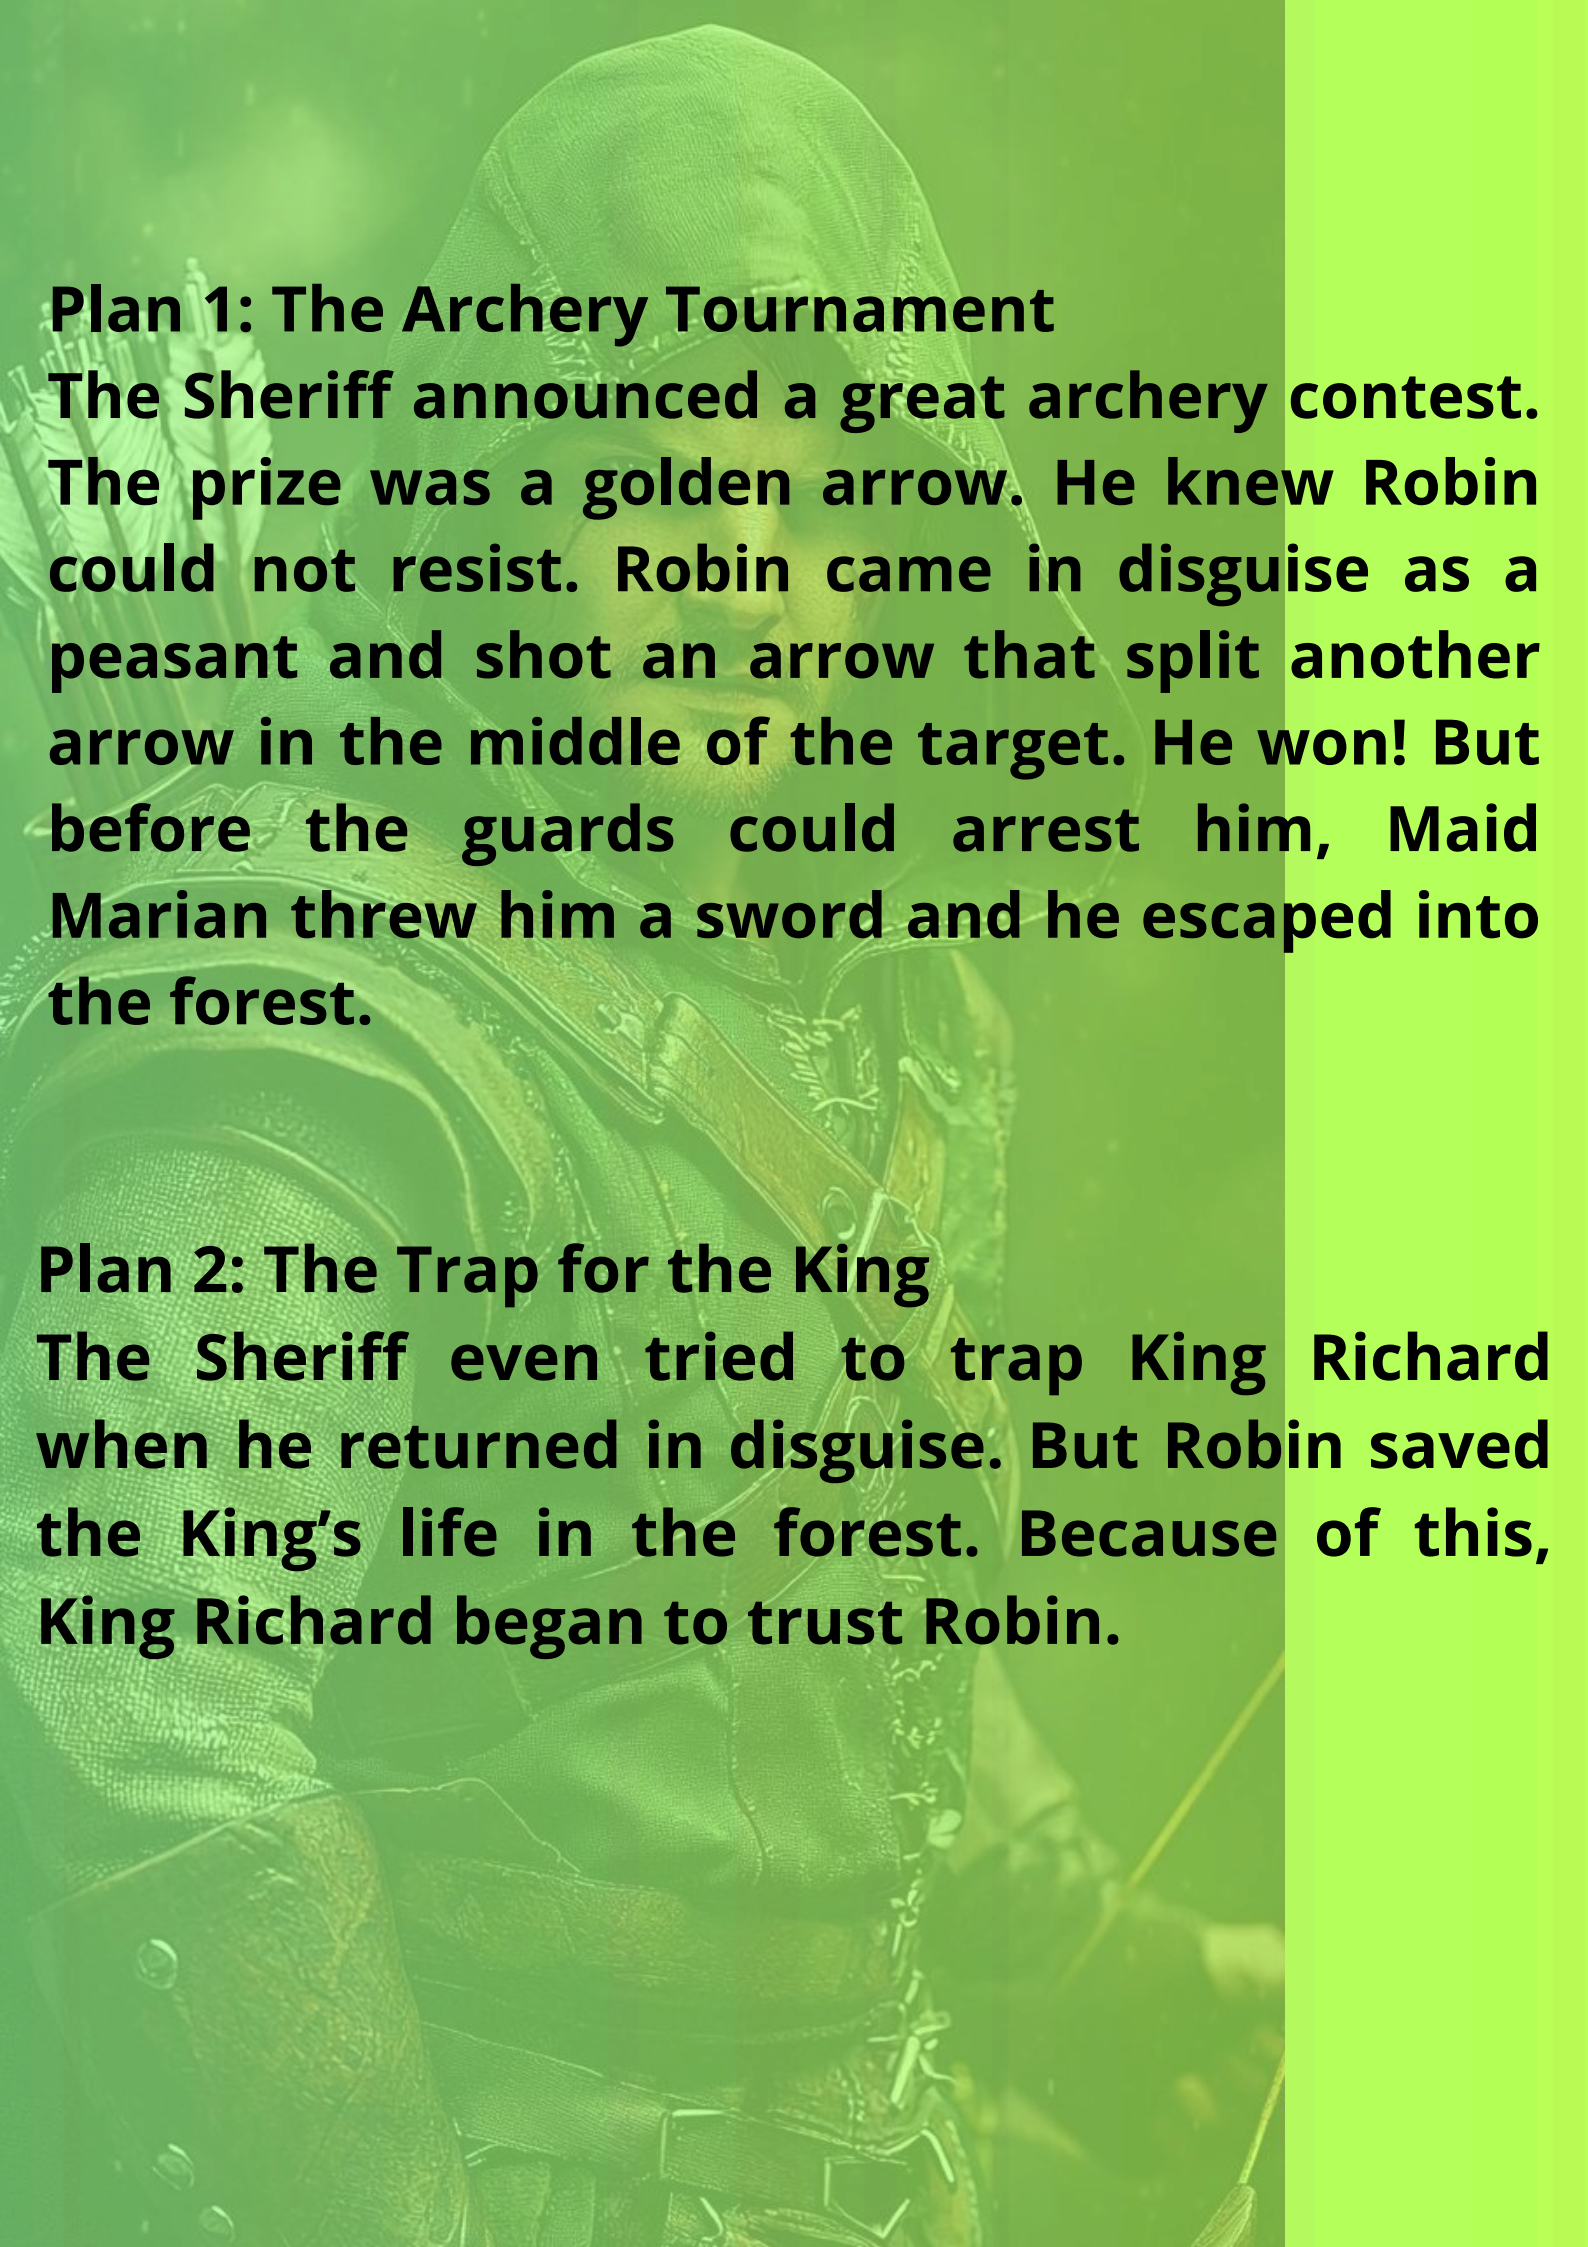

Robin Hood, who was hiding behind the trees, could not stand it. He jumped out with his bow and arrow.

"Stop!" he shouted. "You take from the poor and give to the rich. From now on, we will do the opposite!"

From that day, Robin and his Merry Men lived in Sherwood Forest. Their mission was clear: "Rob from the rich and give to the poor."

Whenever the Sheriff's tax collectors carried chests of gold through the forest, Robin and his men ambushed them. They took the gold and distributed bread, meat, and coins to the hungry villagers at night. The Sheriff was furious. He lost a lot of money and face. He made many plans to catch Robin.

Plan 1: The Archery Tournament

The Sheriff announced a great archery contest. The prize was a golden arrow. He knew Robin could not resist. Robin came in disguise as a peasant and shot an arrow that split another arrow in the middle of the target. He won! But before the guards could arrest him, Maid Marian threw him a sword and he escaped into the forest.

Plan 2: The Trap for the King

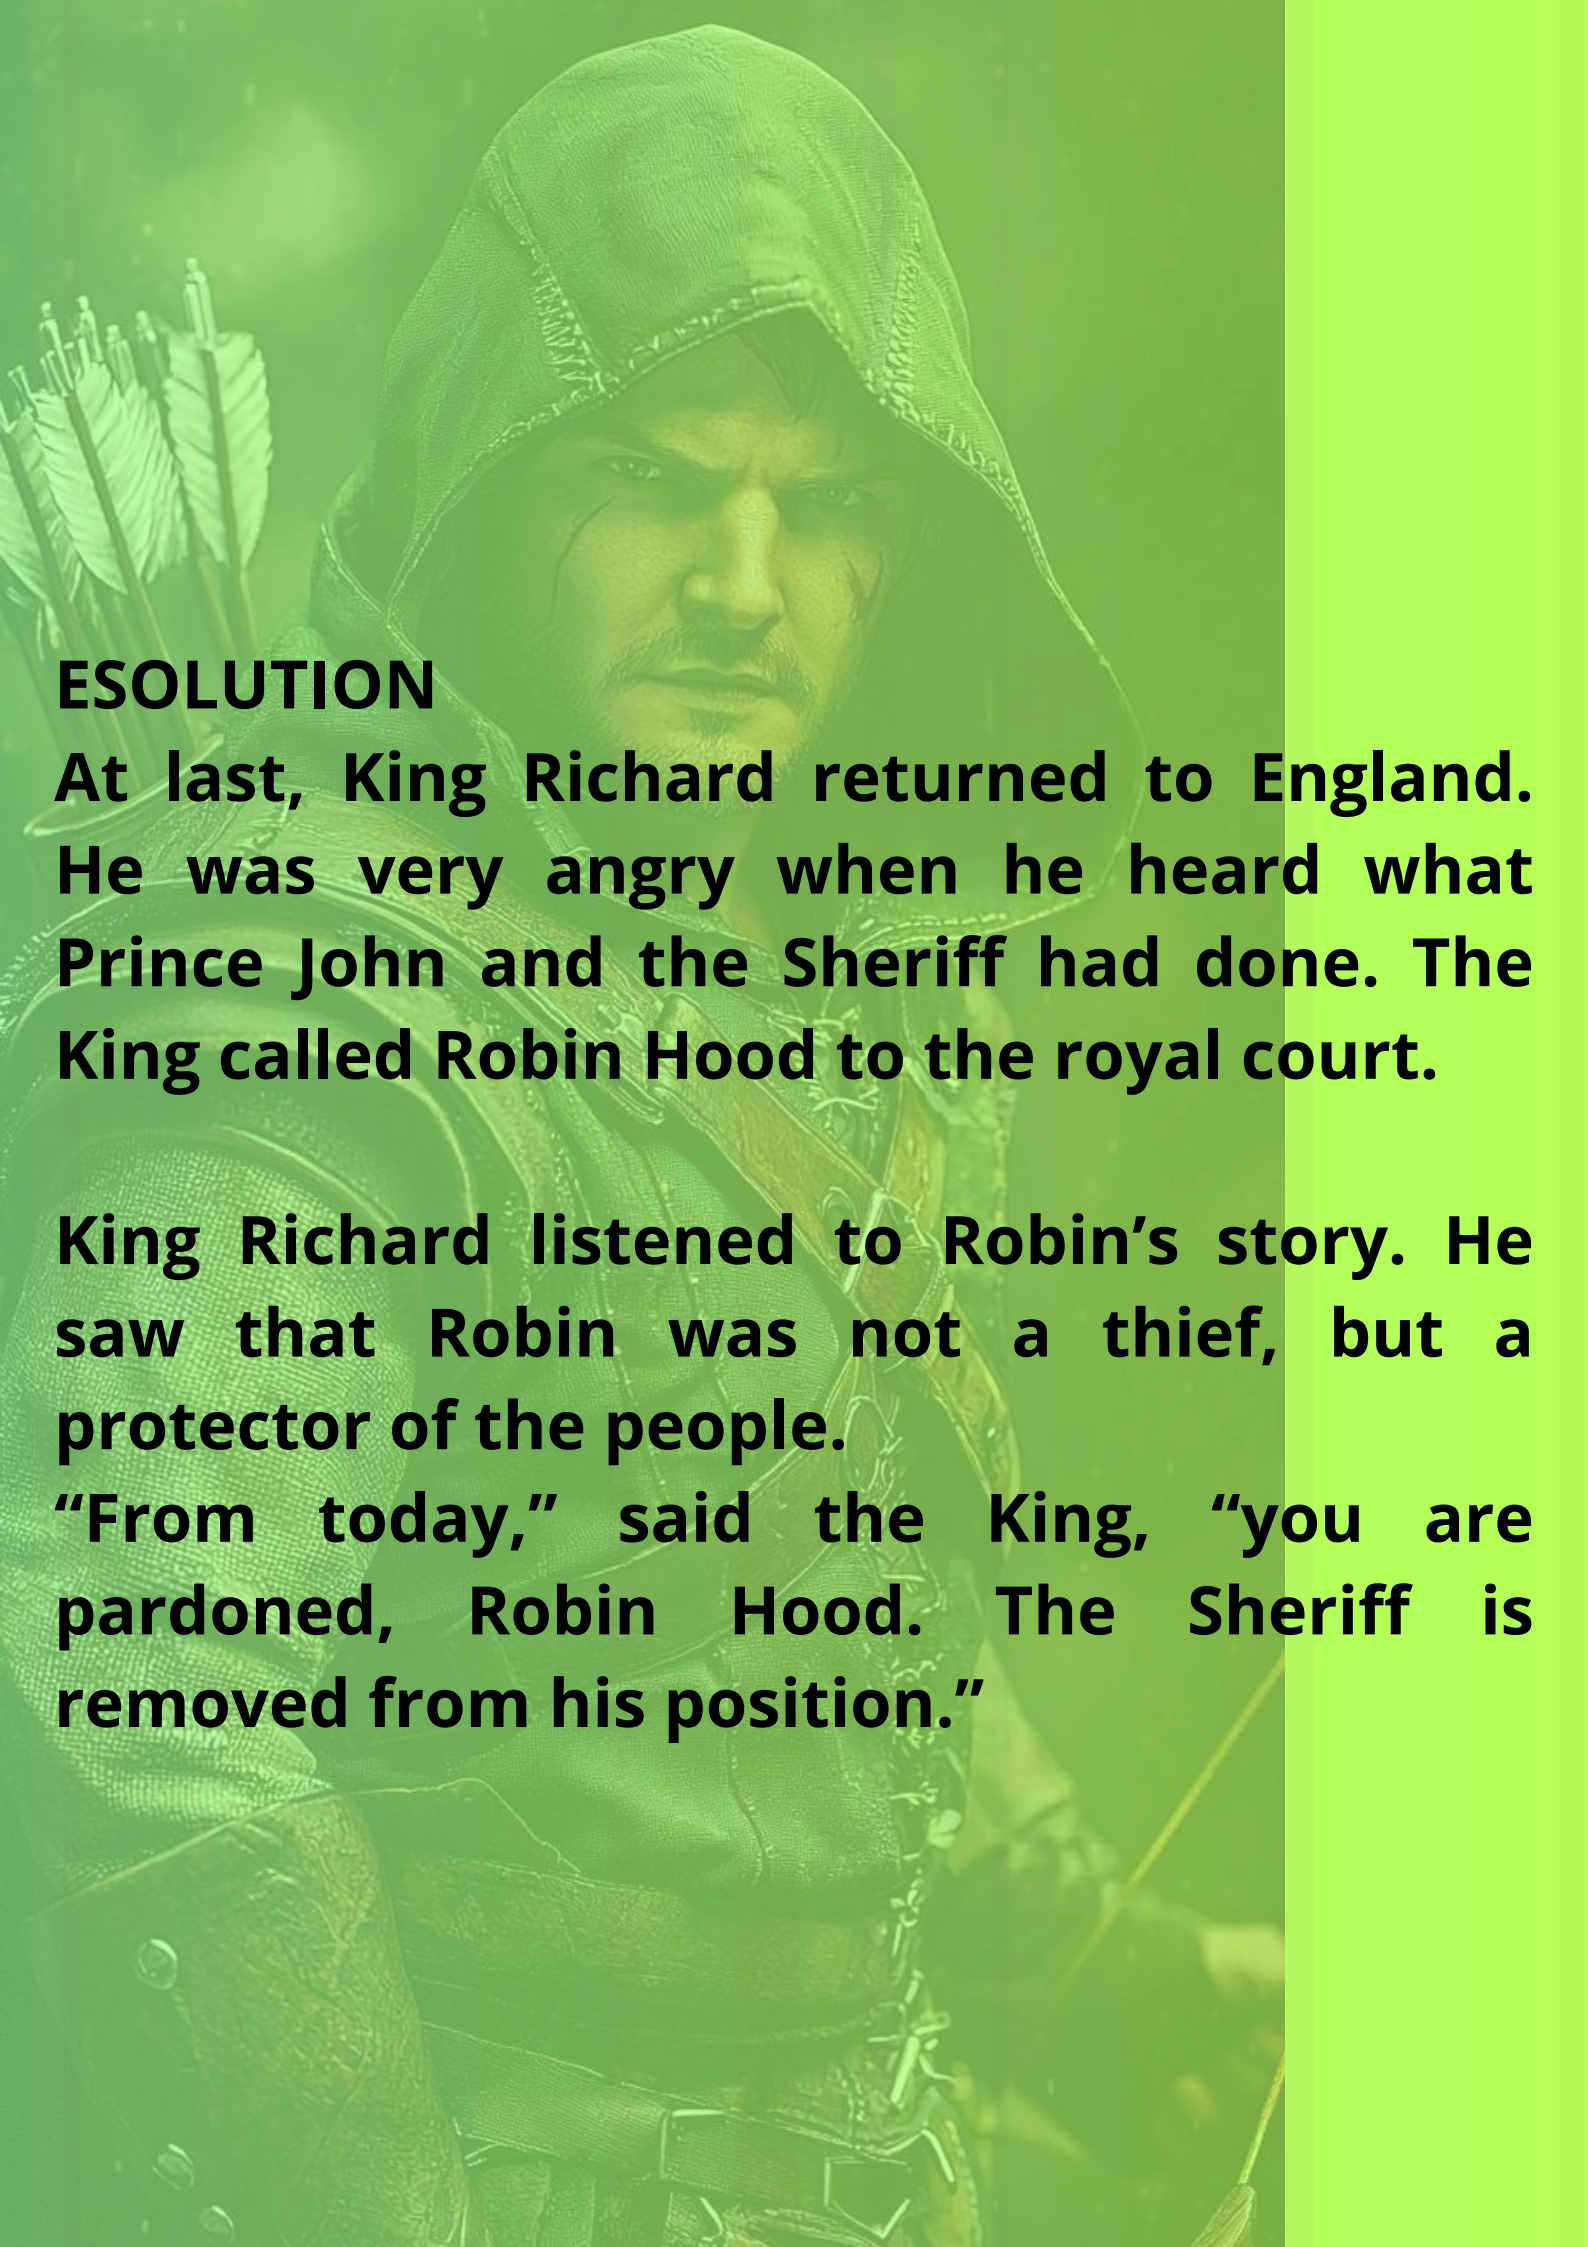

The Sheriff even tried to trap King Richard when he returned in disguise. But Robin saved the King's life in the forest. Because of this, King Richard began to trust Robin.

CLIMAX

The biggest conflict happened when Prince John planned to sell England to France and arrest all of Robin's friends. He invited all the nobles to Nottingham Castle for a fake meeting. It was a trap.

Robin, with the help of Maid Marian who was inside the castle, sneaked in at night. There was a big fight in the castle hall. Robin dueled with the Sheriff. With his skill and courage, Robin defeated the Sheriff and saved the nobles.

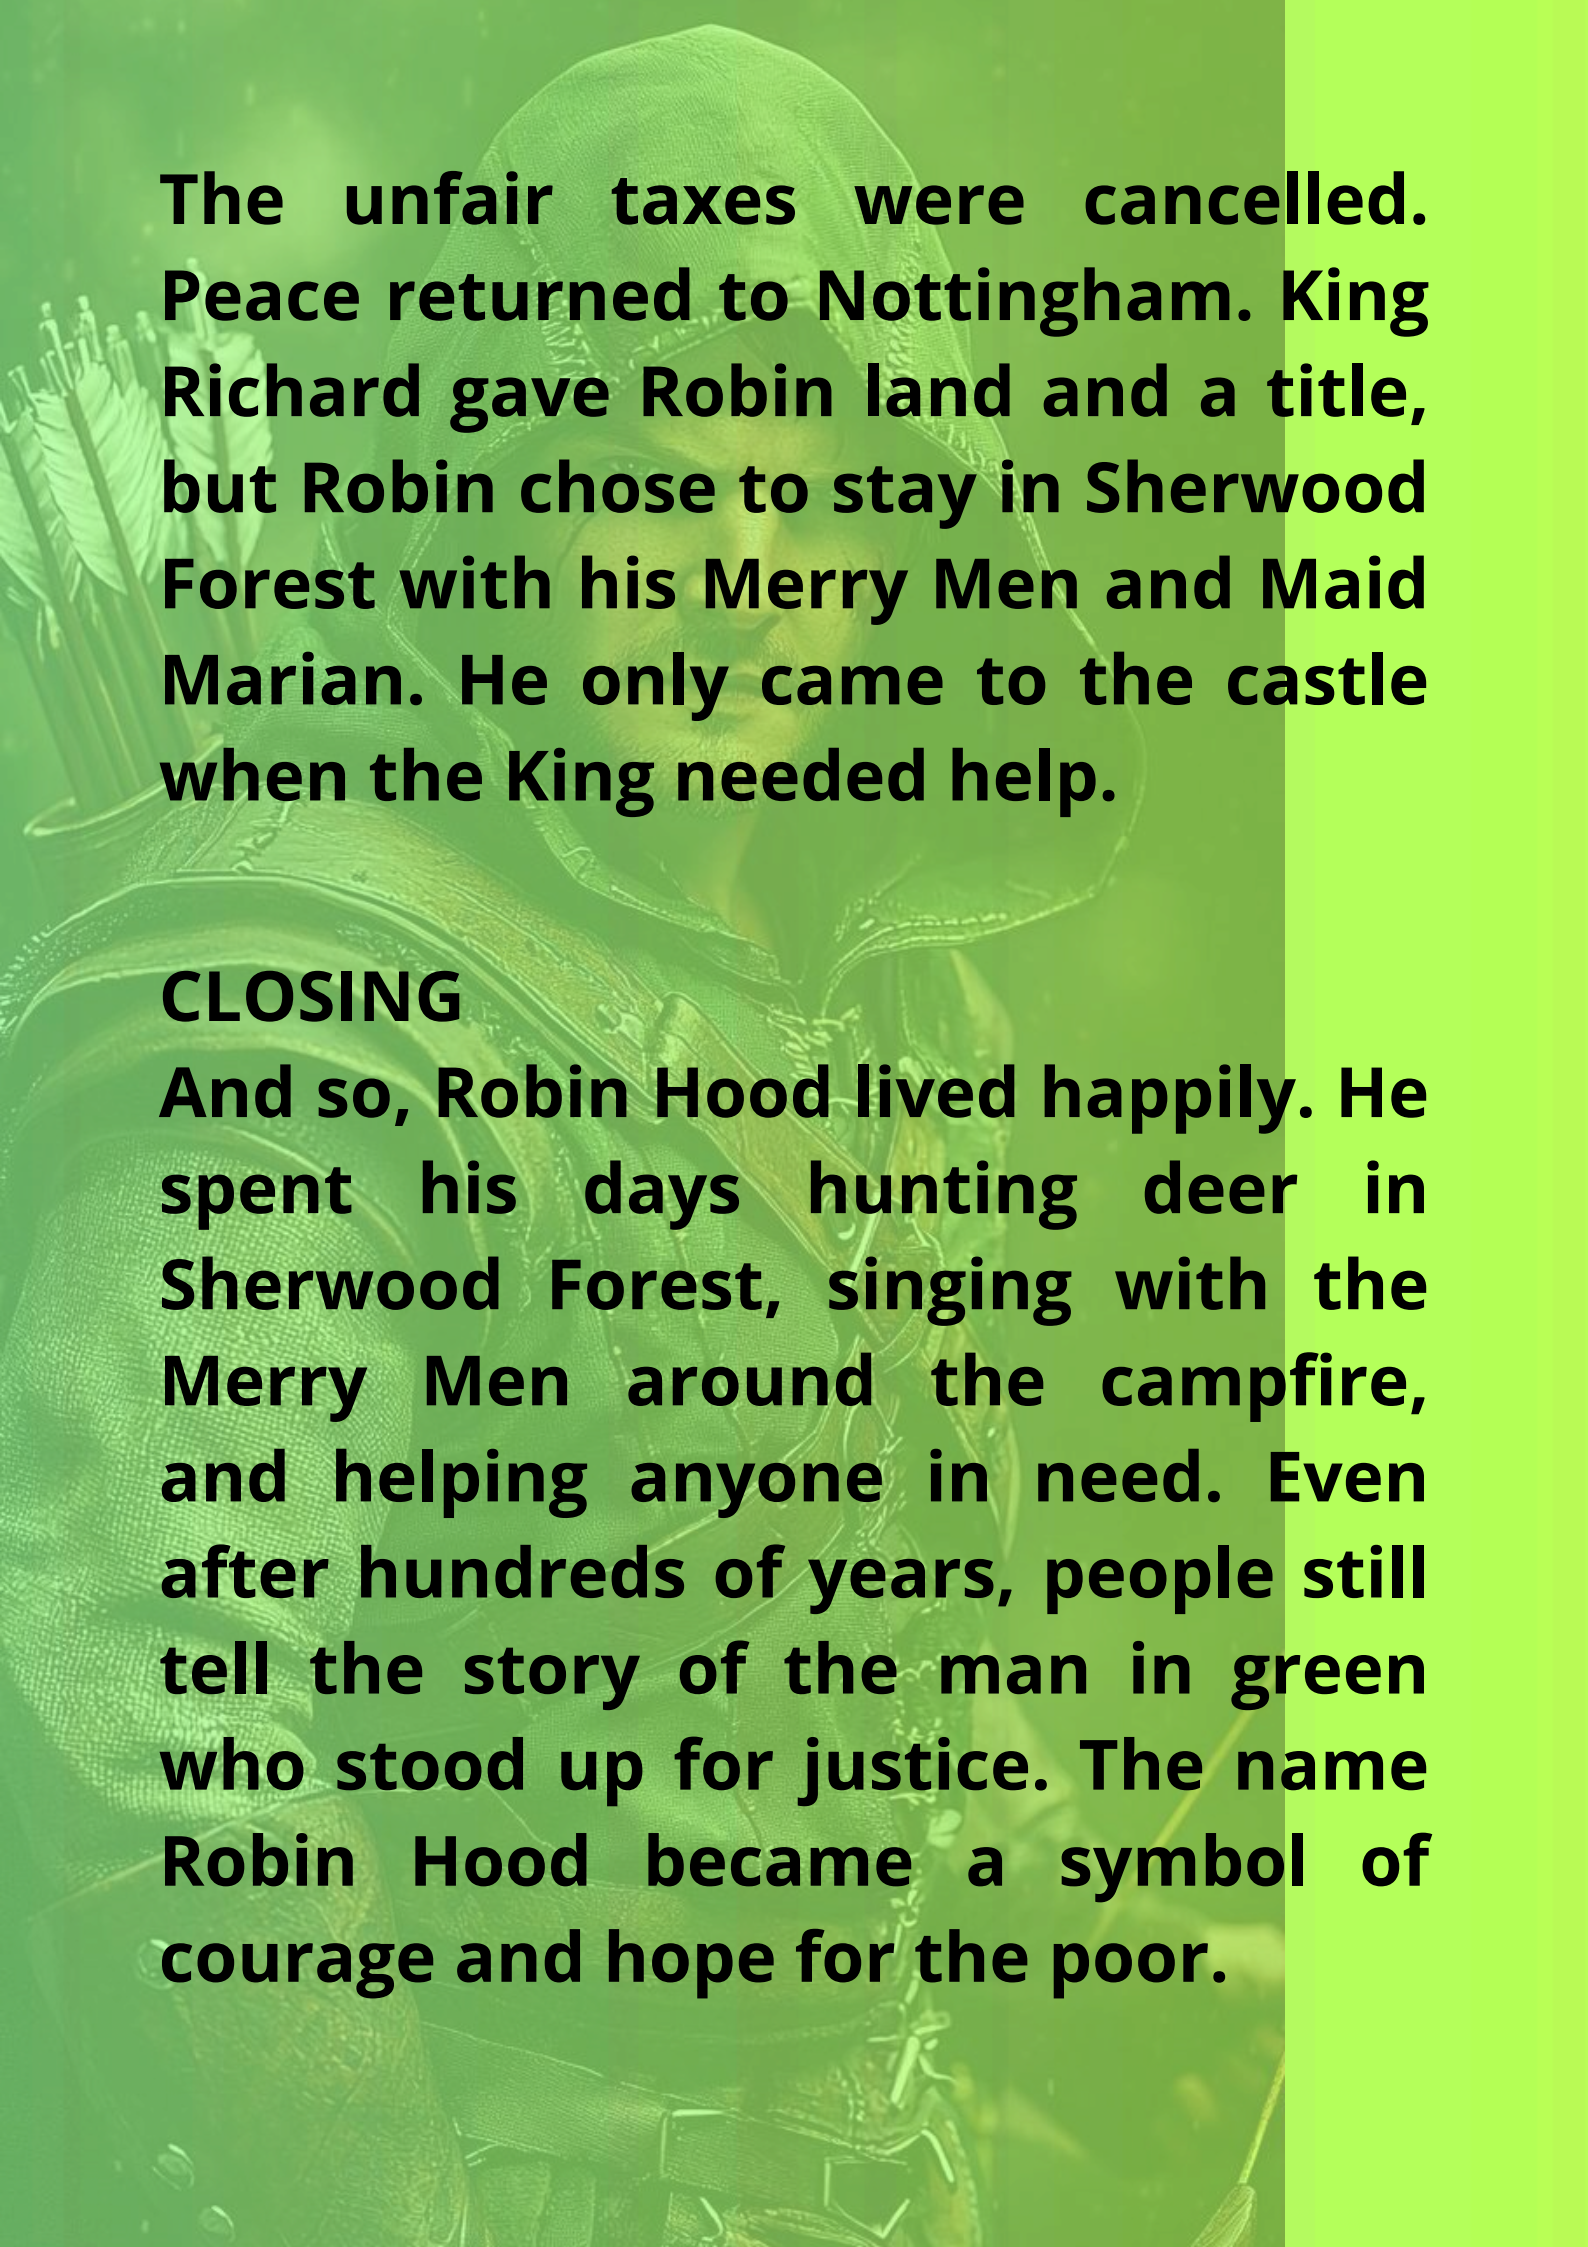

ESOLUTION

At last, King Richard returned to England. He was very angry when he heard what Prince John and the Sheriff had done. The King called Robin Hood to the royal court.

King Richard listened to Robin's story. He saw that Robin was not a thief, but a protector of the people.

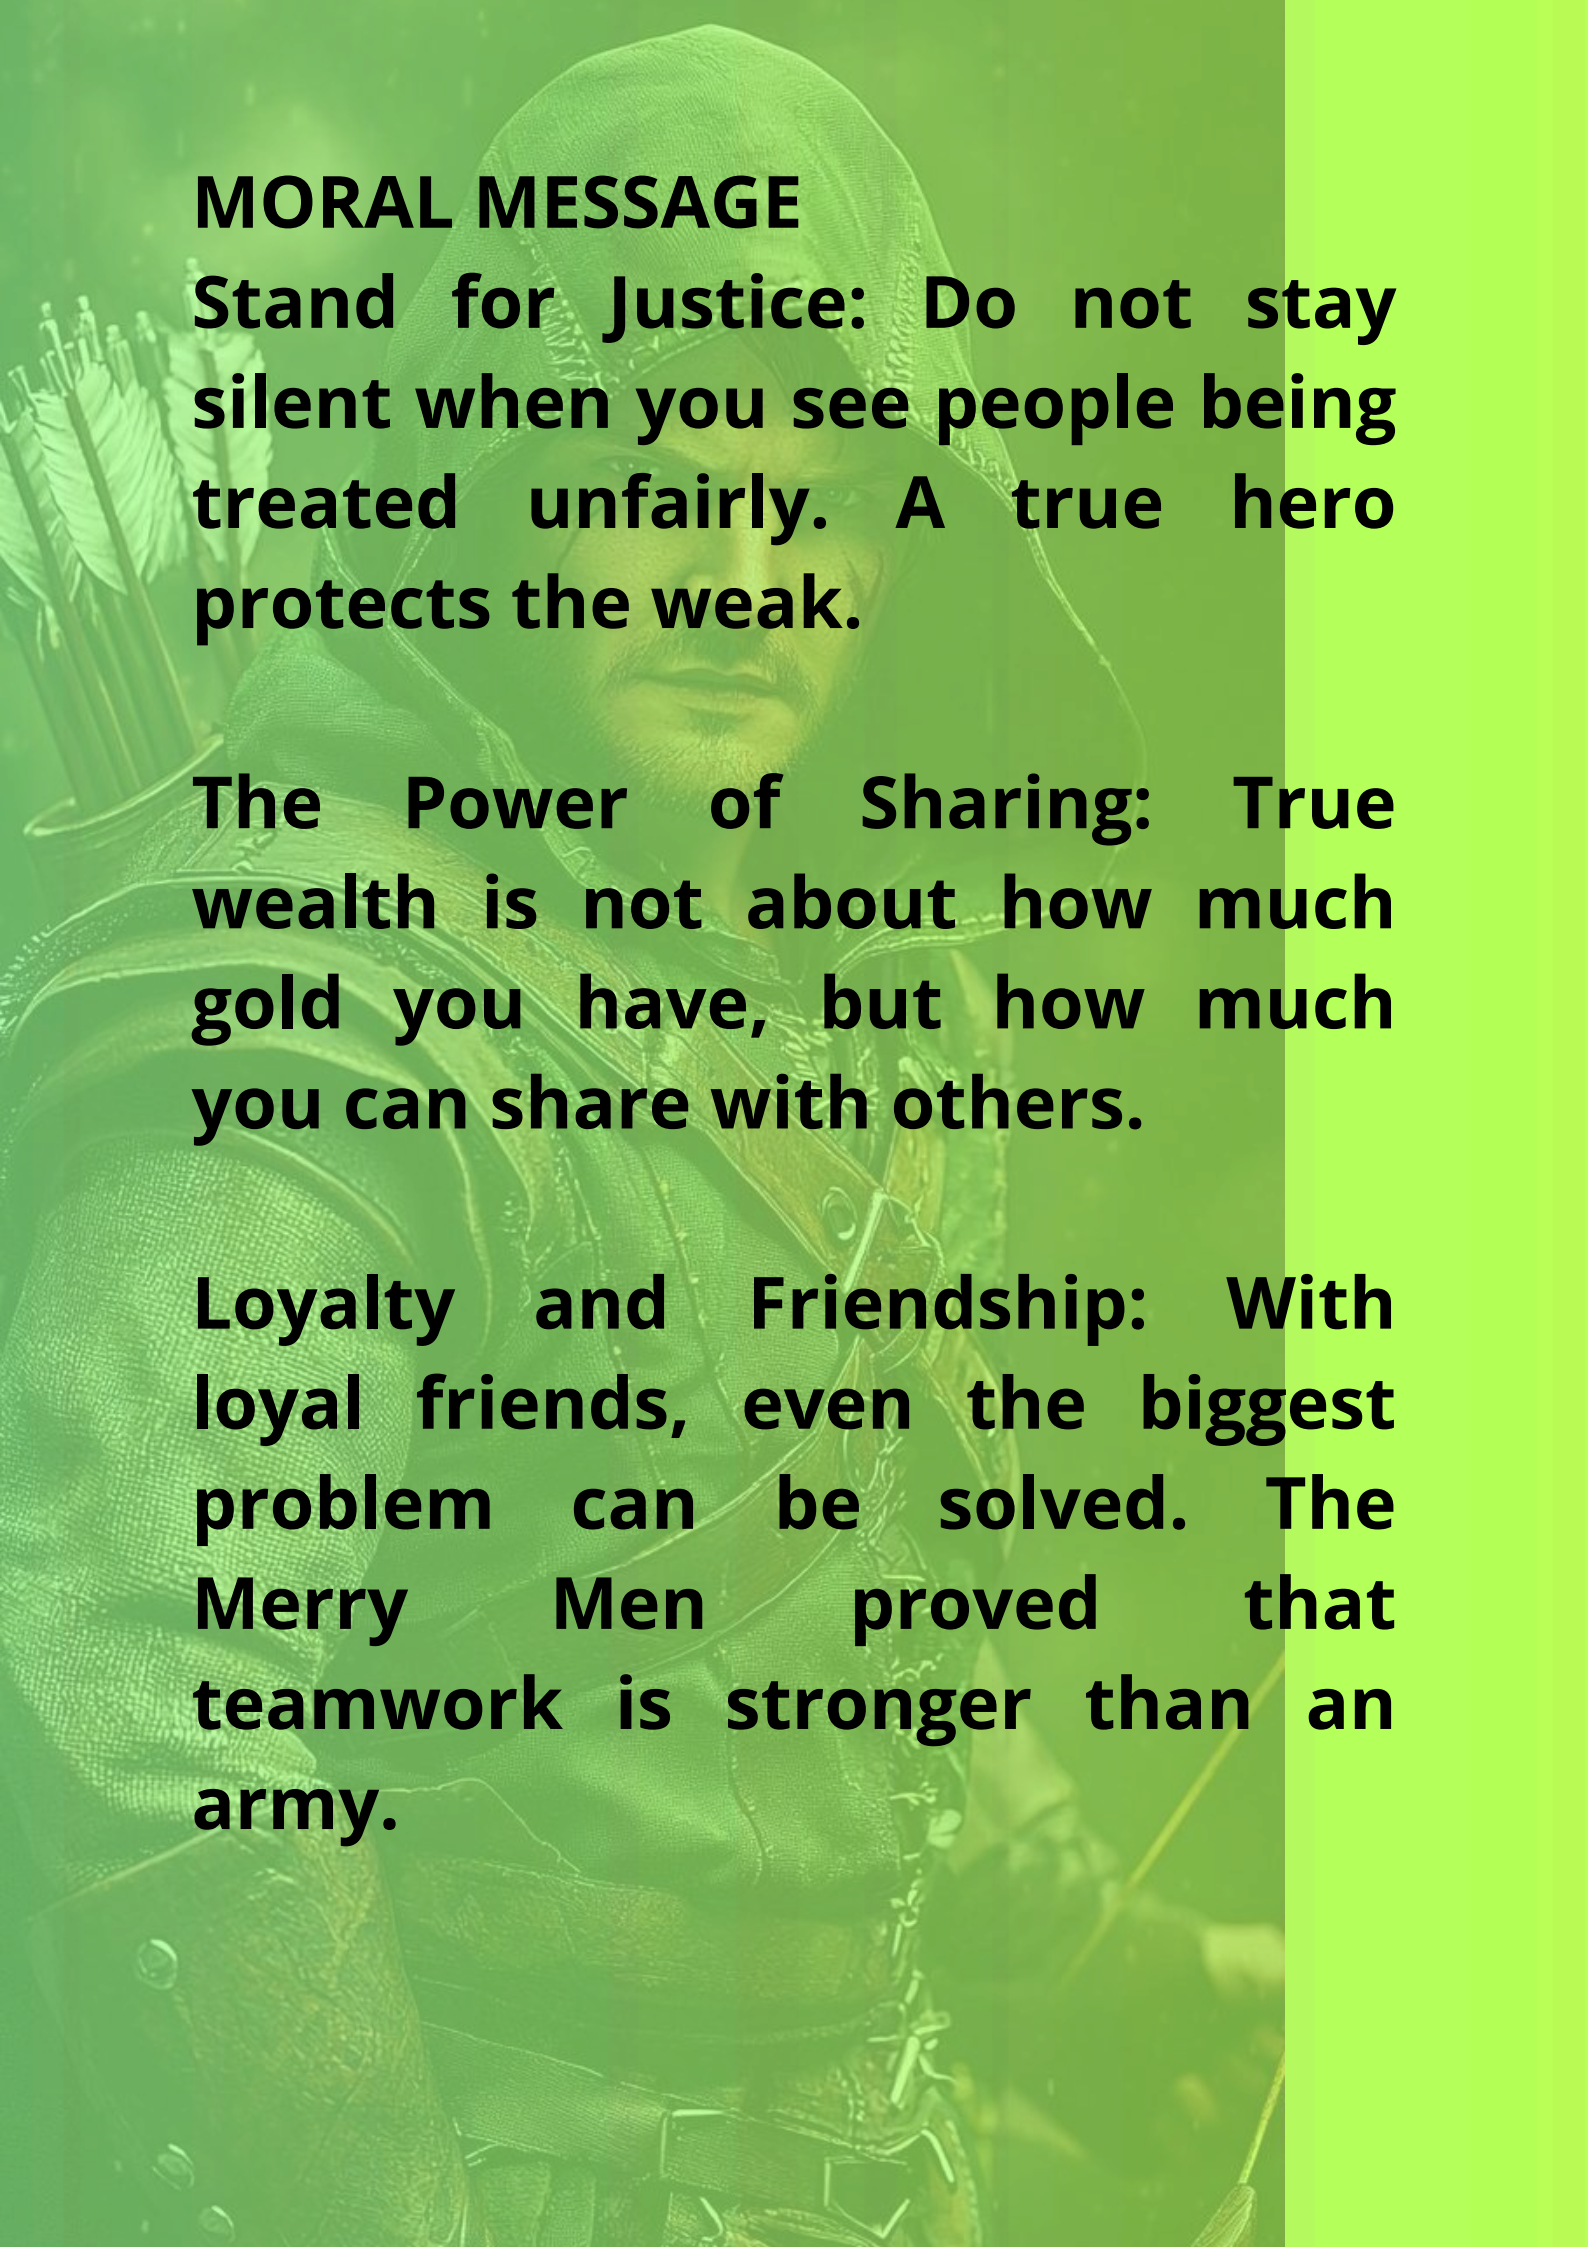

"From today," said the King, "you are pardoned, Robin Hood. The Sheriff is removed from his position."

The unfair taxes were cancelled. Peace returned to Nottingham. King Richard gave Robin land and a title, but Robin chose to stay in Sherwood Forest with his Merry Men and Maid Marian. He only came to the castle when the King needed help.

CLOSING

And so, Robin Hood lived happily. He spent his days hunting deer in Sherwood Forest, singing with the Merry Men around the campfire, and helping anyone in need. Even after hundreds of years, people still tell the story of the man in green who stood up for justice. The name Robin Hood became a symbol of courage and hope for the poor.

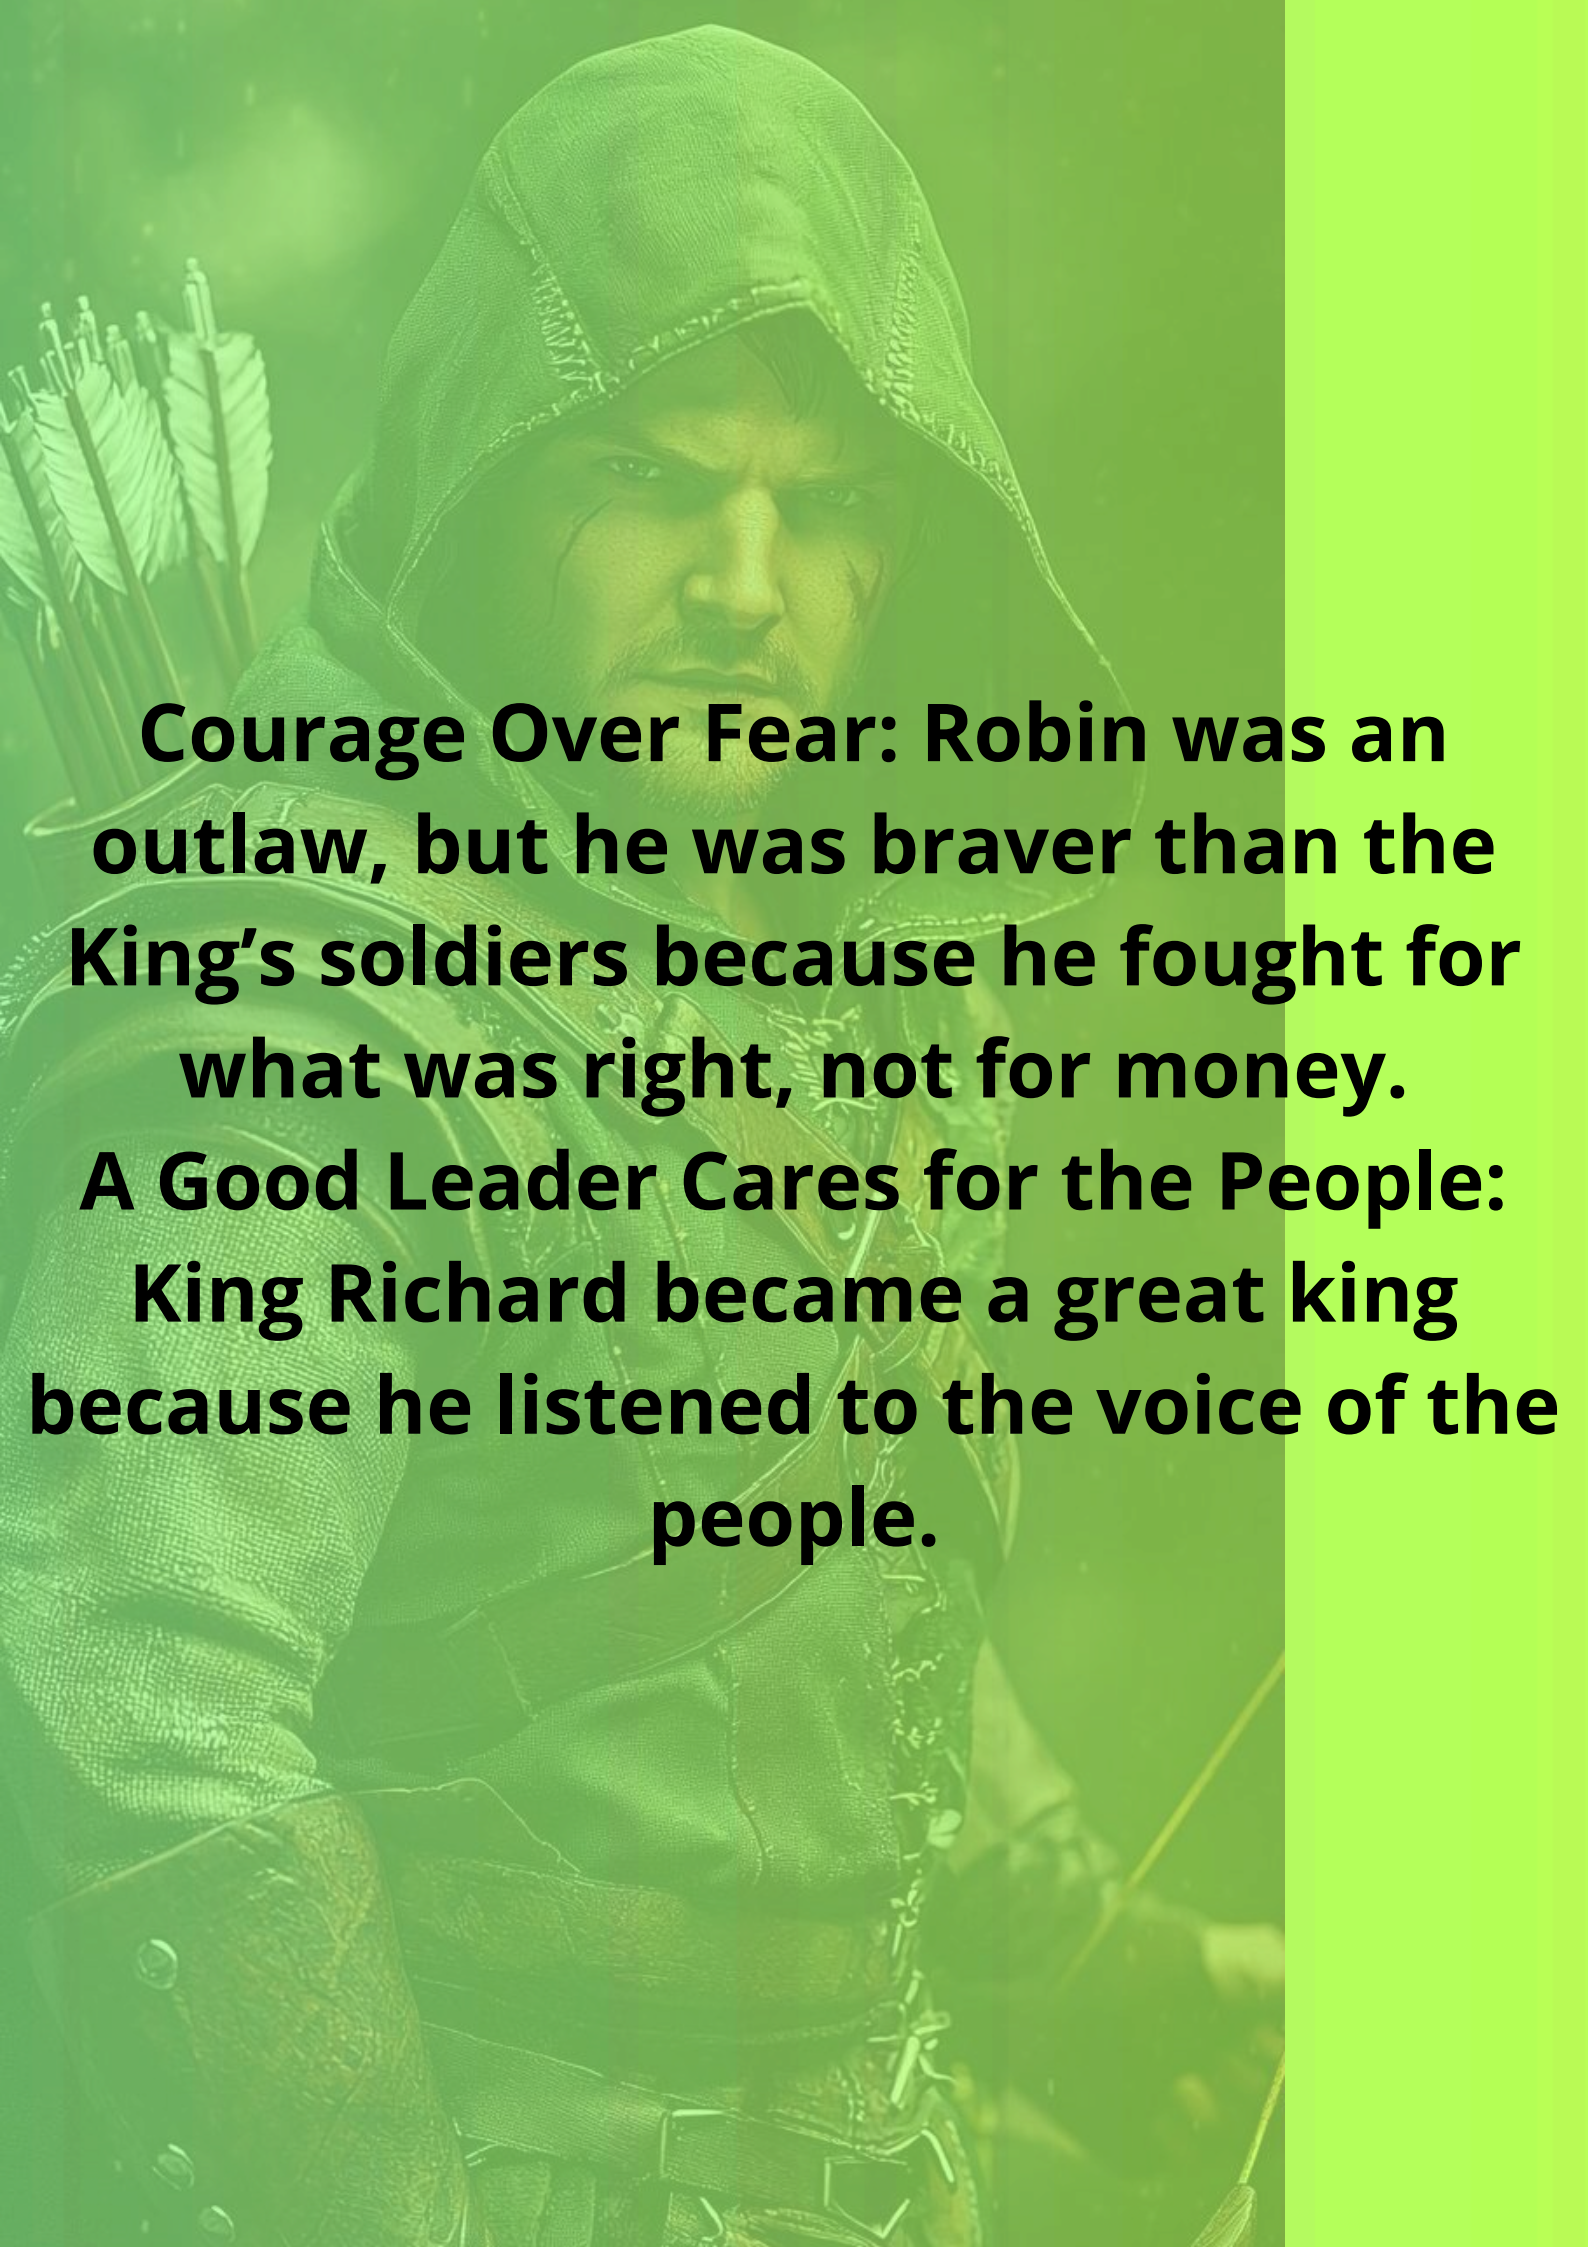

MORAL MESSAGE

Stand for Justice: Do not stay silent when you see people being treated unfairly. A true hero protects the weak.

The Power of Sharing: True wealth is not about how much gold you have, but how much you can share with others.

Loyalty and Friendship: With loyal friends, even the biggest problem can be solved. The Merry Men proved that teamwork is stronger than an army.

Courage Over Fear: Robin was an outlaw, but he was braver than the King's soldiers because he fought for what was right, not for money.

The background is a composite illustration. The top half features Guts, a man with a sword on his back and a dark cape, standing on a dark, rocky shore. One day, Guts is defeated in a duel by Griffith, the leader of the mercenary group Band of the Hawk. Forced to submit to Griffith's rules, Guts joins the group. There, he meets Casca, the only female soldier in the group who initially hates him, but gradually grows to become the person Guts loves the most.

CHAPTER 2: The Golden Age

Under Griffith's genius leadership and Guts' unbeatable sword strength, the Band of the Hawk wins many battles for the Kingdom of Midland. Griffith aspires to have his own kingdom, and Guts becomes his most reliable general.

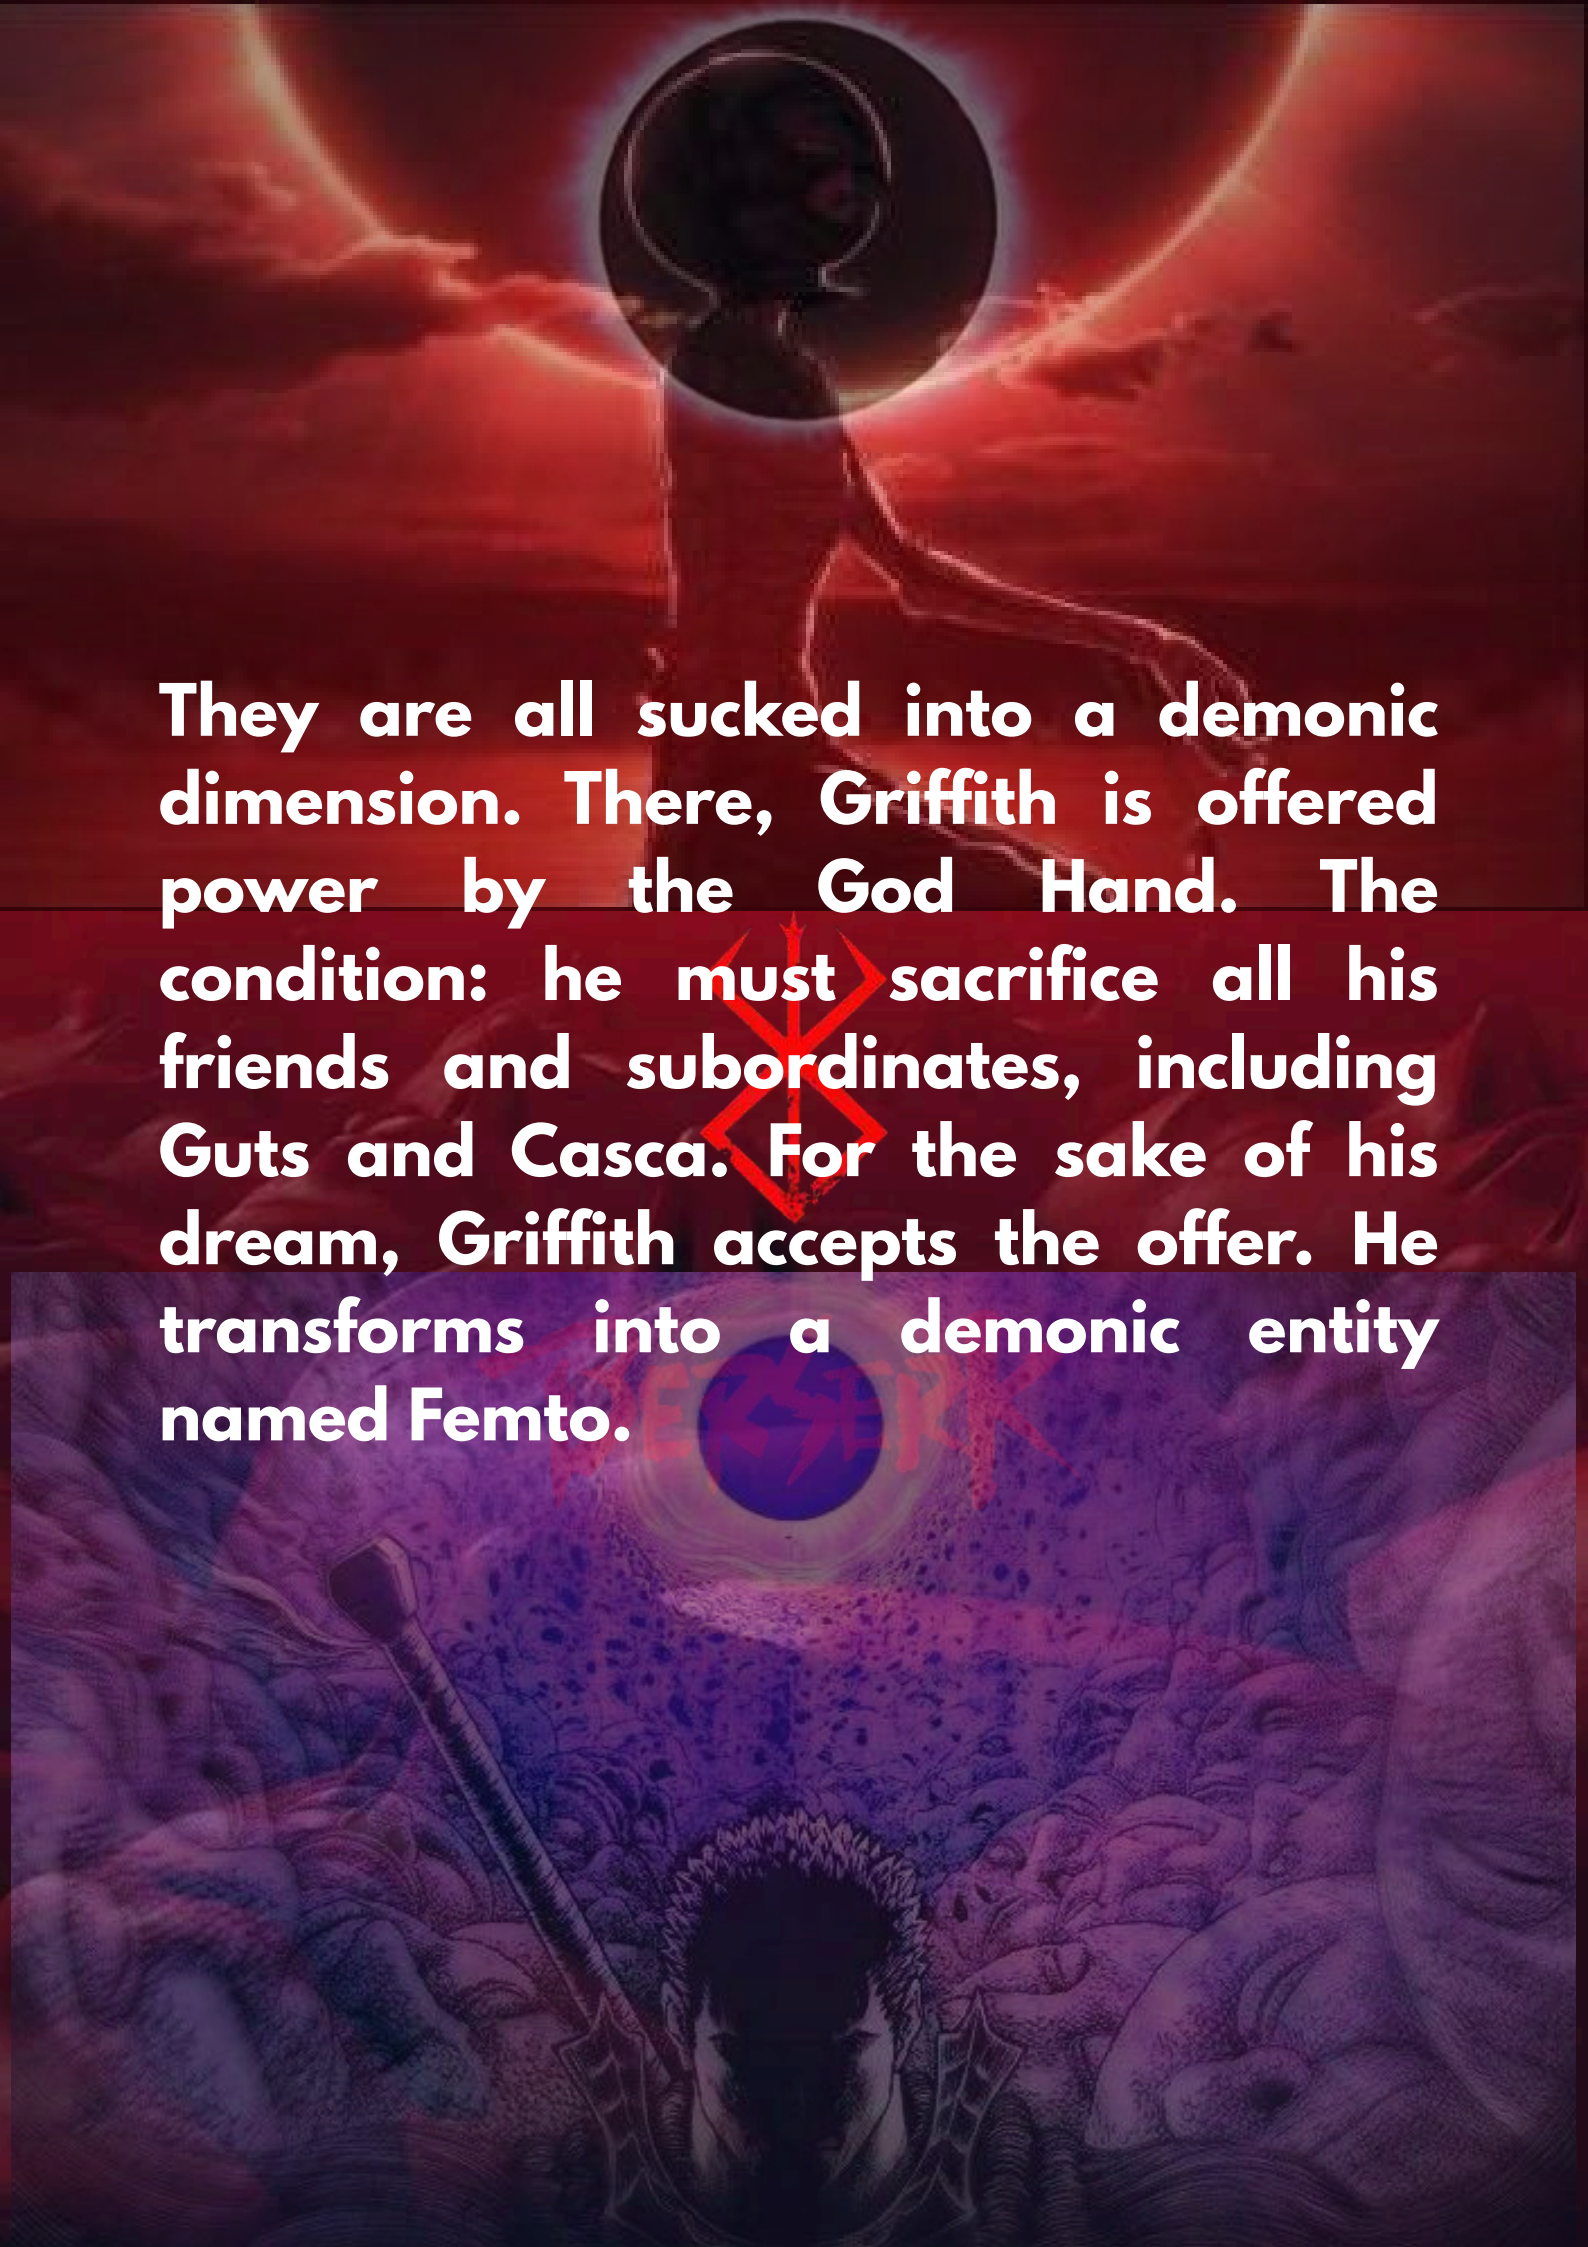

However, after the main war ends, Guts realizes that he does not have his own dream. He is only used as a tool by Griffith. Guts decides to leave the group to find his true self. This departure shatters Griffith's mentality. In a state of despair, Griffith sleeps with the princess, which leads to his arrest, imprisonment, and endless torture until his body is destroyed and powerless.

CHAPTER 3: The Rescue and the Epicenter of Horror (The Eclipse)

A year later, Guts returns. He rescues Griffith, who is now disabled and unable to speak. However, during their escape, the desperate Griffith finds a demonic amulet (Behelit) in his pocket. His blood drips onto the amulet, triggering a rare and horrifying event called The Eclipse.

Femto (Griffith) then attacks Casca and assaults her brutally right in front of Guts, who is unable to do anything. Guts loses an eye and an arm. As Guts and Casca are about to die, the Skull Knight appears and saves them from the hellish dimension.

CHAPTER 5: The Rise of the Black Swordsman

After the horrifying event, Casca loses her sanity due to deep trauma. Guts, who now has a fake iron arm and feels a burning desire for revenge, leaves the pregnant Casca to hunt down the demons that destroyed his life.

Guts bears the Brand of Sacrifice on his neck, which attracts demons every night. He is now known as the Black Swordsman, a raging warrior fighting against fate, demons, and especially: to kill Griffith.

Epilogue: Fighting Fate

Guts' journey is the struggle of an ordinary human who refuses to be a victim of fate. In the midst of a world increasingly ruled by darkness and where Griffith returns to the human world in a perfect form as the Falcon worshipped by humans, Guts keeps moving forward. He carries his giant sword, slaying demons, with one goal: to avenge the betrayal and take back what was stolen from him.
